

About This Book

We are grateful to be able to present this publication to the public. The entire text is based on dictations by the beloved Ascended Masters given in the 1950's through Geraldine Innocente, the authorized messenger of the Great White Brotherhood.

The original edition, entitled "Electrons, the Building Blocks of the Universe" has been supplemented to acquaint the reader with the purpose and function of the Elemental Kingdom (air, water, fire and earth). A knowledge of the elementals who dwell in this kingdom is necessary to bring about a cooperation between mankind and elemental life, so vital in bringing about a new permanent Golden Age. It also helps mankind to protect itself from natural catastrophes.

The student will appreciate the description of the electrons, their function, pattern, behavior and origin and he understands that we are literally cradled within the body of God. He also learns that he is supplied by his I AM Presence every day with millions of electrons, which enable him to continue to use and qualify life. This book explains what is required of him in the use of this primary substance. Through this acute understanding, the student cultivates a reverence for these minute, but intelligent particles of life.

In his book "*Die Kraft Des Denkens*" ("*The Power of the Mind*", Akademischer Verlag Dr. Belej, Munich 40), Dr. Erik Igenberg, provides photographic evidence of electrons. He shows that everyone has a corona, (aura or forcefield) which is constantly changing in form as a result of thoughts and feelings. He further states that all objects, including coins,

have a corona around them, and that there is a change in pattern when partners are working on a team, in a spirit of cooperation. The photo shows the corona of these individuals opening up at the very point where their fingers are closest together; they form “a bridge” (American researchers are calling this phenomena “the friendship bridge”). The reader may compare the dictation entitled “Electrons Foster Team Spirit” in this book.

Is this the type of research the Masters called for in the beginning of the “Bridge Activity,” when they urged to build a research laboratory, where the powers of the Sacred Fire could be demonstrated?

Electrons

The Building Blocks of the Universe

A NEW DISPENSATION
By the Beloved Maha Chohan

I come to you this morning, very informally, to bring the love and the radiation of my friendship, my association, and my presence.

Do you know that when the Masters choose to speak to you through the energy of your own electronic stream of light, there flows a permanent substance, which is part of our own life, and which actually qualifies the electronic flow from your own Presence with our consciousness, our feeling, and the qualities which we are privileged to express in this great universe?

For the period of time that your attention is upon us, you feel the comfort of that qualification by the Master, and you experience for that time something of your own natural feeling when you become master of energy. The upliftment, the peace, the radiation which earnest and sincere men and women and children have felt all through the ages, when they touched the hem of the spiritual garment of some Master Presence of life, was just a foretaste of the natural activity which the God-parents of the race desire for every soul evolving on the planet.

Sometimes people become despondent because, after such an exhilaration of consciousness, they revert again into their own mental and emotional turmoil, but each time we come, each time you partake of that holy communion, it will become a little easier for you to recreate consciously, and at will, that same, happy, comfortable feeling that you experience in our presence. Perhaps I should qualify that by say-

ing—which any lifestream receives, when he accepts our presence.

I have witnessed great congregations gathered together to worship and find God through many ages. I have witnessed the diversified consciousnesses that make up such a worshipping body, seeing clearly the motive that has drawn the individual to that place, and I have seen the outpouring of the spiritual force from whatever Master Presence has been invoked as the patron. I have also noticed that the benefit which each individual member of the congregation received, depended upon the acceptance, within the feelings and intellect, of that Master Presence. Some have gone away from such a place renewed and revived; others have gone away empty. That is one of the questionable gifts, let us say, endowed upon the individual in the use of free will, for neither the gifts of God nor his messengers; neither the peace nor the healing, nor the comfort of the worded expression, can intrude unless the consciousness of the individual opens the door and will accept it.

That is why we are doing everything possible to make you feel that we are actually living, breathing beings, who have been the guardians and protectors of this Earth for such a long period of time. That is why we are so filled with gratitude for every opportunity that will bring to the attention of mankind something of the service which the Celestial Hierarchy renders—those great personages who have chosen to embody the virtues of God, and from whose lifestreams emanate those exquisite feelings which mankind seek within themselves and which they think would represent happiness, security, or heaven.

The other evening, I was sitting with my beloved in our home in Ceylon, and I had just received from those messengers who have been entrusted with that particular facet of service, the letters written in sincerity and kindness by hundreds of people here in your Western Hemisphere, (students of the Bridge to Freedom). I do not believe that I could describe to you the happiness within my heart at this phenomenal acceptance of myself as a tangible, conscious and intelligent being, who is as easy of access as a father, or a brother, or a friend.

You see, up until the last few years, my service has been very remote from the consciousness of the average man. I relied almost entirely upon my Chohans and their accepted chelas to draw the consciousness and understanding of the people up to a point of adeptship, where they became Master of all but the most subtle vibrations, and then I would only have a passing acquaintance with the individual lifestream.

Suddenly, in an almost unbelievable manner, considering the many thousands of years such an event was hoped for, the Western mind has accepted the possibility of reaching the hearts of those of us who live beyond the veil.

Every word and every line in every letter written through the physical substance and energy of some sweet, earnest, trusting and sincere heart, impressed on each emotional body, on the substance of the mental world and written into the etheric consciousness of the lifestream—I read myself—and back on the flow of that energy, once each month, I direct the substance and flame of my own presence, and it

follows the same course, pressing through the etheric body, the mental, the emotional, and the physical garments of the writer.

Now, when a man pens his word in mind alone, the return current from my world, returning to its causative center, blesses the mental vehicle. When the gratitude or blessing flows from the emotional body in an upflow of praise, the return current blesses the emotional body, but when all of the bodies are incorporated in the physical act of joining the energies of the electronic light of the lifestream, the return current from my heart flows through them all.

Order and system comprise the first Law of Heaven, and an exact mathematical precision, one might say, is essential for those of us who govern energies by which planets and evolutions are sustained.

My beloved and I sat for a long time that evening just talking informally, and thanking God that man is now so consciously interested in truth. It is lovely, you know, to address great numbers of people and exhort them to greater endeavors to serve God, to assume their natural God nature, and to externalize the qualities of the Holy Spirit—but, do you know, I enjoy most drawing closely into the feelings of the few who are my heart friends, and picturizing for you the activities which prove that we, too, are individuals who share companionship and friendship, and who have to evolve out of unexpected circumstances, like the present one, new methods to bless and help the race.

May the comfort of the Holy Spirit enfold you and all mankind in its embrace of love and light.

LOVE
By the Beloved Maha Chohan

Have you thought in your seemingly arduous journey through the world of form how much you are loved?

From the moment you were called forth from the heart of the one God, love has sustained you. Love has created out of the electronic light body of God himself the electronic form of your own I AM Presence.

Love has drawn forth for you the substance of the elemental kingdom which has made up an emotional body by which you might feel the harmony, beauty, love and every other good feeling which is that of nature.

Love has fashioned from the elemental substance a mental form by which you can receive the ideas of the universal, and fashion for yourself an individual world, peopling it according to free will.

Love has drawn for you an etheric envelope into which you can and have recorded the experiences in the use of energy and vibration. Love has drawn the physical atoms of this world creating the physical body which you wear and use so freely.

All of this electronic light substance is intelligent, free life that chose to forego its happiness in realms of perfection for the questionable opportunity of making garments for your souls and spirits.

Love from the heart of the Directors of the Elements, the builders of form, and the kingdom of nature, fashioned this planet, a platform upon which your feet might stand; fresh water; the pristine air you breathe so freely; the glorious

firmament with the blue sky of day and the star-studded mantle of God at night, to give you rest and opportunity to refresh yourselves in your journey through the world of form.

From the kingdom of nature, love has drawn the tiny elemental forms and trained them to embody themselves in flower, tree, shrub, grass and the very substance that, through nature, nourishes your physical garment, and, by its beauty, stimulate your spiritual nature to remembrance of the glory you had with the father even before this world was.

It is through love that the angels are kept in the atmosphere of this Earth where pain and distress exists when they might know the joy and happiness of the heavenly realms where there is no distress or sorrow.

The sustaining power of this outpouring and teaching is love. This is done that there may be upon Earth centers where the Sacred Fire of creation is drawn and radiated into the emotional, mental, etheric and physical strata into which the Masters and angels may come, and into which your weary souls may enter and find renewed vitality and spiritual enthusiasm.

Within each one of you, dear children, is love which responds to these words of mine, and, overcoming the pressure of your individual worlds, helps you to lift your thoughts and hearts to me. I am with you. I am loving you. Free will is yours, beloved. See only love and see only the Christ in each other. Be assured that I see in you only that constant shining light that beats your hearts.

ELECTRONS**By the Beloved Maha Chohan**

The smallest manifestation of life that can be measured by terms which man would understand, is the electron.

These electrons are the body of God. They are pure universal light substance having intelligence within them that responds like lightning to the creative power of both God and man. These electrons, in varying forms, make up the atoms of the physical world. The geometrical design and the speed of action around the central core, as well as other factors determine the particular type of atom, and many atoms vibrate at various rates, for instance, form the substance of iron, or of steel, or of gold, or of flesh.

The same universal light substance is within all manifest form, but the creative power of the Godhead (the immortal victorious Threefold Flame), the triple activity, father, son and Holy Spirit, determines the vibratory action of the atom and also its geometrical design. Therefore all physical substance is part of the universal light substance and all is the body of God. All is fluidic, in constant motion, extremely sensitive and obedient to the God direction. It is evident, then, that so-called inanimate objects are moving constantly and pulsating with the breath of God and can be commanded into greater perfection by the alert student. The student should consider to bless those inanimate objects which serve in his daily life.

THE PHYSICAL BODY IS MORE OBEDIENT AND RESPONDS QUICKER THAN AN INANIMATE OBJECT OR SUBSTANCE BECAUSE ITS VIBRATORY RATE IS HIGHER and it is in constant

contact with the creative power that flows through it from the heart. It is therefore an easy matter to mould the flesh into greater beauty and harmony. Anyone who will take the time, will become a manifestation of the power of the word of God over the substance of the physical body.

Remember, each student is a God-center. Universal light substance is his without limit to qualify and mould into form, according to the specific requirement, or the requirement of the Brotherhood, through unascended beings.

The universal light substance, being intelligent, is very desirous of evolving to self-conscious creative powers of its own, and thus is eager to be magnetized by lifestreams who qualify it with beauty, perfection, and the consciousness of the ascended Christ. This is why it is impossible to keep from one, who truly loves and truly desires to fill the universe with the divine plan, a great abundance of wealth and supply, because he becomes a magnet, drawing the electrons of the universal light substance around him until he is almost bombarded with its opulent presence. Try it and see, beloved ones.

THE ATOM
By Beloved Saint Germain

The great immutable decrees, which forever keep order in the infinite realm of manifested life, are all based upon the “one great principle of creation”—love. That is the heart, the source of all, and the very hub upon which existence in form takes place.

Love is harmony and without it in the beginning of a form, that form could not come into existence at all. Love is the cohesive power of the universe and without it, a universe could not be.

In your scientific world, love expresses itself, as the attractive force between the electrons. It is the directive intelligence which wills them into form, the power which keeps them whirling around a central core, and THE BREATH WITHIN THE CORE that draws them to it. The same thing is true of each vortex of force everywhere in creation.

A central core and the electrons whirling around it form an atom. This core of love is to the atom what the magnetic pole is to the Earth and what the spine is to the human body. Without a central core or heart center, there is only the unformed, universal light, the electrons filling infinity and whirling around the Great Central Sun.

The electron is pure spirit or light of God. It remains forever uncontaminated and perfect. It is eternally self-sustained, indestructible, self-luminous and intelligent. It is immortal, ever-pure, intelligent light-energy, and the only real, true substance out of which everything in the universe

is made, the eternally perfect “life-essence” of God.

Interstellar space is filled with this pure “light-essence.” it is not dark and in chaos, as has been the ignorant, limited concept of puny, human intellects. This great sea of universal light that exists everywhere throughout infinity is constantly being drawn into form, and given a quality of one kind or another, according to the way the electrons are held around a central point or core, by love.

The number of electrons which combine with each other in a specific atom is the result of, and determined, by conscious *thought*. The rate at which they whirl around the central core is the result of, and determined by, *feeling*. The intensity of the drawing and whirling motion within the central core is the “breath of God” and therefore, the most concentrated activity of divine love. Speaking in scientific terms, it would be called centripetal force. These are the determining factors which make the QUALITY OF AN ATOM.

Thus, you will see the atom is an entity, *a living, breathing thing*, created or brought into existence by the breath, the love of God, through the will of self-conscious intelligence. In this way, the “word is made flesh.” the machinery that self-conscious intelligence uses to accomplish this manifestation of its being is thought and feeling.

Destructive thought and discordant feeling so rearrange the ratio and rate of speed of the electrons within the atom, that the duration of the breath of God within the pole is changed. The duration of the breath is decreed by the will of the consciousness using that particular kind of atom. If that conscious directing will is withdrawn, the electrons lose their

polarity and fly apart seeking their way back intelligently mind you to the Great Central Sun, re-polarizing themselves. There, they receive love only, the breath of God is never-ending, and order, the first law, is eternally maintained.

Some scientists have claimed and taught that planets collide in space. No such thing is possible. To do so would be to throw the entire plan of creation into chaos. It really is fortunate indeed that the mighty laws of God are not limited to the opinions of some of the children of Earth. It does not matter what any scientist thinks, God-creation is ever moving forward and expressing more and more perfection.

The constructive thought and harmonious feeling within a human mind and body are the activities of love and order. These permit the perfect ratio and speed of the electrons within the atom to remain permanent, and thus, they stay polarized at their particular point in the universe, as long as the duration of the breath of God within their core is held steady by the will of the directing, self-conscious intelligence using the body in which they exist. In this way, the quality of perfection and maintenance of life in a human body is *always* under the conscious control of the will of the individual occupying it. The will of the individual is SUPREME over his temple and even in cases of accident, no one leaves his body temple until he wills to do so. Very often pain in the body, fear, uncertainty, and many other things influence the personality to change its decisions, concerning what it has willed in the past, but everything that happens to the body is and will always be under the control of the individual's free will.

To understand the above explanation concerning the electron and the conscious control the individual has, through his thought and feeling, to govern the atomic structure of his own body, is to understand the one principle governing form throughout infinity. When man will make the effort to prove this to himself, or within his own atomic flesh-body, he will then proceed to master himself. When he has done that, all else in the universe is his willing co-worker to accomplish whatsoever he wills through love.

Whoever makes himself willingly obedient unto the law of love, has perfection in his mind and world permanently maintained. Unto him and him alone does all authority and mastery belong. He only has the right to rule because he has first learned to obey. When he has obtained obedience from the atomic structure within his own mind and body, all atomic structure outside of his mind and body will obey him also.

Thus, each individual, through thought and feeling has the power to rise to the highest or sink to the lowest. Each one alone determines his own pathway of experience. By conscious control of his attention, as to what he allows his mind to accept, he can walk and talk with God face to face, or looking away from God, become lower than the animals, sinking his human consciousness into oblivion. In the latter case, the God-flame within him then withdraws from its human habitation. After aeons of time, it tries a human journey once again into the world of physical matter, until final victory is accomplished, consciously and of its own free will.

ELECTRONS ARE ACTUAL SUBSTANCE**By the Beloved Maha Chohan**

There is only one life that flows through every one of the ten billions of lifestreams belonging to this system of worlds. Every lifestream is a channel for the one life. There is no difference between the life that flows through each one, any more than there is a difference between the water that flows through the faucets on the main floor or the second floor of a building. The Father of all life, and the Ascended Masters are constantly pouring their peace, their perfection, their mercy and their freedom through every lifestream, and there will not be even ONE ATOM on this planet which will not achieve perfection and immortality.

The great Saint Germain, who represents freedom to this Earth, has achieved this honor because his love was great enough to cause him to stand before the throne of God and demand the opportunity to save this Earth from dissolution. This boon was granted him and his answer was the gift of the Violet Transmuting Flame to mankind whereby they might cleanse and purify and redeem the electronic substance which they so boldly drew from the heart of the Eternal and forced it to assume such shape and form as to make the angels hide their faces.

Beloved children, life is beautiful. It is a magic, mystic thing, because it is substance composed of the body of God. It is a conscious emanation of the life of the individual pouring forth constantly into the atmosphere of Earth everywhere. It is the electronic energy of love itself, taking humbly whatever form is required of it by the user at the mo-

ment. The substance of my life is always obedient to my conscious command, whether it be to form a flower, a blade of grass, a sheaf of wheat, or at times—for a loved chela—even a dollar bill.

Now, the qualities of God are also substance. When I say “substance,” I mean just this. When an Ascended Master answers your call for help, what does he do? He draws the essence from God's heart, which is a stream of electrons. These he projects toward you qualified with his consciousness. These electrons are actual substance, which can be molded into any form you require—into the answer to your prayer—into health, supply or illumination. ASK AND YE SHALL RECEIVE. Your thoughts and feelings mould the substance of the electronic body of God into any shape or form you require.

The Divine Beings who are the ambassadors of God, manifest the requirement of the moment to the supplicant, as well as enfolding him in their loving Presence. Verily, beloved ones —”Before they call I will answer and while they are yet speaking, I will hear.”

"LET THERE BE LIGHT"
By the Beloved Maha Chohan

“Let there be light, and there was light.” Light is the instrument of the great Universal Intelligence. It is the transmitter of God's peace, happiness, beauty and plenty. Turn the consciousness to the light within, for that is the connection with the Father over which his substance and perfection flows to enrich the individual experience world.

In the urgency of daily living, the chela often finds it difficult to spend even five minutes two or three times out of the twenty-four hours in contemplation of the light that beats the heart and which keeps the life flowing through the body-temple. Or he might consider the light as a Sun within the human brain, sending its rays through the eyes, ears, nose and throat, clearing, cleansing, and purifying these channels.

Stand in the light and draw to yourself that which is yours. To the aspirant moving forward upon the pathway of self-mastery, there comes an hour when all external form must be divested of the power to influence or sustain him.

If the will of the I AM Presence did not sustain it, the flame would not long remain in any human heart. When the chela is shorn of all confidence in the outer appearance world, it is indeed a period of initiation, of growth, unfolding and awareness. In the seemingly painful process of turning from disillusionment and confusion, the soul leans on God for sustenance, and man again lives as he was intended to live, within the light.

The light called forth through an enlightened individual to treat world conditions is a lasting and enriching power. It is a mighty service rendered to the divine Hierarchy who so earnestly desire the cooperation of unascended beings.

Taking a five-minute period three times out of the twenty-four hours of man-made time, preferably at certain specific intervals, during which the chela can sit, holding the mind completely free from thoughts of people, conditions, or mundane duties, and keeping the attention on the light flowing from the I AM Presence into the heart, filling the mind and body and flowing out into the point on Earth where he is, will bring peace, plenty and every good thing flooding the world of this servant of the light.

PATTERN OF ELECTRONS
By the Beloved Maha Chohan

The great Creator, in his multiple mercy and kindness, created the electronic pattern of each individual different and distinct so that all might enjoy a certain individuality and beauty of form. The electrons of each such individual differ in their elemental structure like unto the snowflakes. Each pattern and form represents the identity of the I AM Presence which will manifest through the Holy Christ Self in its fullness through the outer self as the three become one, (the Holy Trinity).

As you have been often told before the pattern of the electron of Ascended Master Saint Germain is represented by the Maltese Cross; that of Lord Gautama Buddha is the open lotus; that of the beloved Regent, Sanat Kumara is the perfect star of love and peace. This means that all of the electrons which make up Sanat Kumara, beloved Saint Germain and Lord Gautama's bodies are countless myriad replicas of the forms mentioned above through which the light of God always flows in the prismatic colors of the rainbow. All of the God-energy that they draw from the body of God, the unformed, once it has come under their conscious control, is immediately stamped with these patterns and wherever it proceeds in the universe (directed by their thoughts, feelings, spoken words and actions) these electrons will carry the outline of their particular pattern.

In like manner, all the God-energy which each chela draws from the unformed immediately takes on the form of his or her own electronic pattern. This is how, as the energy

proceeds in its circular activity and returns, following the Law of the Circle, to you with added power, that there is a selective intelligence by which the Divine Beings are enabled to assort, so to speak, the emanations of mankind, one from the other. The energy drawn from the universal God "I AM", which is a voluntary activity comes into the use of the outer consciousness who dispenses that energy freely in thought, feeling, spoken word and action. The personal self does not always see that energy, nor his mark of ownership upon it, and feels that he can send forth that energy indiscriminately without rendering an account therefore. EVERY THOUGHTFORM, FEELING-FORM, WORD AND ACTIVITY OF THE OUTER-SELF CARRIES THAT STAMP WHICH IDENTIFIES THE ENERGY WITH THE PERSON WHO DREW IT FORTH, QUALIFIED AND EXPENDED IT. THIS MOVES IN A CIRCLE AND RETURNS TO ITS SOURCE FOR REDEMPTION, BRINGING WITH IT OTHER ENERGY OF ITS KIND.

All of the placed on Earth where the Elect have sought God and achieved their victory, contain yet much of the essence of that individual and it is conducive to the raising of the consciousness of all seekers. For instance, the place where the Lord Gautama Buddha received his illumination is so spiritually charged with the cosmic lotus symbol of his lifestream, that all who come into the vicinity feel a definite effect from his consciously drawn radiation.

If every serious chela would daily charge the so-called inanimate objects in and around him with the Violet Transmuting Flame, he would one day be amazed how, even those things he has discarded, can and will be a spiritual impetus to soul. Service should always be universal, and dai-

ly living can make Talismans out of every form loaned to you for the enrichment of all life. Some chelas are particularly sensitive to the blessing of the inanimate form and the nature kingdom; it is well to encourage one's talents along these lines.

LIFESTREAM COMPOSED OF GEOMETRICAL DESIGN

By the Beloved Maha Chohan

If you were privileged to look upon the Electronic Presence of every person belonging to the human race, you would be amazed at the beauty, perfection and radiation of light which each one expresses. When you had become accustomed to the perfection of face and form, the gentleness of spirit and the beauty of the light, you would be able to distinguish one from the other by the particular shape of the electrons that make up each one's vehicles and you would find that those of each lifestream expressing beauty and perfection, in themselves, were composed of tiny geometrical designs, differing from each other.

These designs form the KEYNOTE and pattern of the lifestream. The electrons of the Master Saint Germain, we know, are in the form of the Maltese cross, those of the Lord Buddha the open lotus and myself, the dove. As the energy passes from your Presence into your heart, it maintains those beautiful designs and thence it proceeds into your universe carrying that perfection into the form of your thought, your feeling and your action.

When individuals like the Master Saint Germain or the

Lord Buddha speak, the words that proceed from their mouths and set up a vibration in the universe are made up of countless millions of tiny crosses or flowers. When they raise their hands, the electrons passing from the hand are composed of myriads of tiny forms representative of their lifestreams. The atmosphere around them is filled with millions and millions of these same tiny forms. The places where their feet have stood have the imprint of these infinitesimal electronic patterns and that substance was imposed upon the garments that they wore, the rooms in which they lived, the trees that shaded them, the beds that they laid upon.

The most powerfully-concentrated designs are closest to the physical body or to the place where the individual abode during his last incarnation and that is why you will find a certain identity in spiritual centers where great men and women achieved knowledge and spiritual victories.

YOUR HOME, ENVIRONMENT, AND PERSONAL EFFECTS ARE LIKEWISE POWERFULLY CHARGED WITH THE ELECTRONIC PATTERN OF YOUR INDIVIDUAL LIFESTREAMS. That pattern, itself, is neutral, but the feeling that your energy releases through it, determines its radiation. It is like your fancy cookie cutter, that will make a form out of mud or dough. When the pattern of your lifestream is charged into the universal light substance, if your feeling is harmonious, its radiation will be of benefit to all life; if the feeling be inharmonious, it still carries your pattern and as it proceeds from you into the universe, you will carry the responsibility for all the life it affects adversely, before it returns in its circle to your world.

There is no man who can stand before the All-Seeing Eye of God and deny that pattern of his own life energy imposed upon any part of life, either constructively or destructively, for where your "STAMP" is, like your footprint, there you have been, and to life you must answer for what was done there. Dear ones, I implore you, use, use, use Saint Germain's Flame of Freedom, which is the thoughtform for the year, to purify the electrons that have gone forth from your lifestream that still remain unredeemed, which bear your stamp and seal, BEFORE THEY START ON THEIR RETURN JOURNEY BACK INTO YOUR WORLD, bringing with them the unhappy vibrations that manifest as "trouble" in its countless forms.

LIGHT FROM THE HEART OF GOD**By the Beloved Maha Chohan**

For your better understanding, I shall again remind you that the light from the heart of the God-Self in its descent into physical form goes straight into the secret chamber of the heart. From there it is returned to the brain, and the impulse of light thus reaches the sense-consciousness or what is called the intellectual understanding. The instruction from the I AM Presence thus descends on its ray of light and, re-ascending upward, directs the brain cells to follow out certain divine directions which would make the outer self a full representative of the God-Self.

The brain cells, however, are also connected with the five outer senses to the world of appearance, and the vibrations from the world of appearance are also constantly reporting to the brain. This is an accretion of fact and fancy picked up from the world without. The brain then has to struggle between accepting the divine direction from the heart, or the dictates of so-called reason from the appearance world.

Since it is the way of man to follow the line of least resistance, the pressure of feeling therefore prefers to accept the report of the outer senses, and so as a general rule the divine direction coming from the heart is ignored. Thus the individual becomes a pawn of the appearance world until, through contemplation and divine wisdom, he learns in peace to obey the directions of the heart, even in the face of the most appalling appearances to the contrary. Continuing so, man will never make consistent advancement upon the

spiritual path or be of value to the spiritual Hierarchy except in spurts. But be not discouraged, friends of my heart, for I, too, walked Earth's ways even as you do today. We are grateful, and we love you for every "spurt" and every effort.

By meditation, the chela can so train himself to watch the light descending from the presence into the heart, and then re-ascending to the brain, so that he can clearly hear the directions of the Presence as he can hear a voice on the radio, although I might add, in most instances it is more of a flash-picture, than a worded expression.

The pathway to mastery lies in the controlled consciousness which is a radiating center of the causes and divine direction. You recognize, accept and expand the God-consciousness through peaceful study, contemplation and one-pointed attention to the light from the heart of the inner one.

And so today, as each of my beloved chelas resolves to make a more determined effort to hear and follow the divine guidance from within, in love I pour greater blessings upon you.

PURE LIGHT FROM THE LAND OF LOVE**By the Beloved Maha Chohan**

The electrons making up the physical heart and brain and body of each man come joyously from the land of love. In contemplating this pure light dispensed so freely by God, many individuals experience a sense of unrighteousness and a feeling of unworthiness. Humbling oneself before the wonder of the Almighty is good, but not when it gives a sense of emotional martyrdom. Such persons are depressing to themselves and to others, not only by reason of their own radiation but because unconsciously they probe (in a sense mentally criticizing) into the human natures of those around them which still require refinement. This does not assist in your progress because it draws forth the influences which are constantly being released by unascended beings when their personal selves are touched.

In relaxed contemplation, the Holy Christ Self will pour forth his fragrance, joy, harmony, and peace through every exquisite electron which composes the physical man. Blessing and acknowledging his lips and tongue each morning, as being channels of God's Holy Breath, the chela will speak with the voice of angels and bring harmony wherever he goes. Blessing his ears each morning, he shall hear only the sounds of peace, for all else is illusion. Blessing his eyes, he shall see only the beauty and goodness of God's kingdom in each wayfarer he meets, in the flowers and growing things, yea, even in the very roads and pavements upon which he treads and which are made by God's strength and energy flowing through his fellowmen.

The Earth has now come to a point in its evolution when every man must come into agreement with the Law of his being and discontinue creating discord and distress. Regardless of the present appearance of confusion being piled upon confusion, the Earth is enfolded in the God-power of infinite love and is undergoing birth-pains to bring forth the age of light, of peace, of harmony.

To each chela who, by his calls for the expansion of the light, is assisting at this birth, I pour the strength and calm confidence of the Heavenly Host.

RHYTHMIC RELEASE OF LIGHT**By the Beloved Maha Chohan**

The light is rhythmically released into the Earth plane daily through a downward surge of electronic energy and there is also daily an upward flow of electronic light, which carries with it all the aspiration and all the upreaching and constructive consciousness of mankind. The chela can consciously tune into this river of ascending energy and thus be drawn into the fully-gathered momentum of Godly-directed energy. This river of light energy is a requisite for that part of life which has been bound by human thinking in order to strengthen the aspiring God flame to a point where it can and is disconnected from the Earth-pressure and thus flow freely in God-perfection.

Every Ascended Being who has achieved the ascension (including beloved Jesus) consciously tuned into this river of ascending light which the universal "I AM" has provided as a conveyor of man's consciousness back to God. It is as though one stepped on a cosmic escalator and were carried by the love of the "I AM" upward towards the goal which the heart desires. The pressure of this surging sea of ascending light is essential because the mass of mankind is constantly pouring forth energy in a manner opposed to the divine plan. Unless man gets into the rhythmic pulsation of the divine plan as released by the love and light of the "I AM" he is still a part of the outer mind. Hence the importance of daily meditation and application, individual and collective, rhythmically, and (if possible) at the same hour.

Here is where painters, for instance, with esoteric vision

could learn to place on canvas the beauty of these cosmic truths. Sometimes a painting can convey through the senses enough of truth to awaken the sleeping soul. In the world and realm of the future, the Ascended Master Serapis and other Divine Beings will spread the light through canvas, through sculpture and various other media, such as the dance, the song, and melodious music.

When the great divine plan for mankind and the Earth is so beautiful, it is a tragedy to see millions of people creating straw houses, built of their own human imaginings of what life should be. The Elohim are the cosmic builders of the planet and Immaculata, her Silent Watcher, Helios and Vesta supply the light through the universal I AM Presence surging through the consciousness of man as the upward arc. For centuries of time they have waited. Now is the hour of fulfillment, and with the speed of Hercules' blue lightning, and the calls of the awakened, man will be forced to look to the divine architect, and then build with the forces of nature according to the divine plan. So you can see, my beloved, how precious your calls are, and you truly have our blessing for your work towards the awakening of the race.

THE CEASELESS STREAM OF ELECTRONS**By the Beloved Maha Chohan**

Students must learn the value of life. Some feel that life is something that comes to them naturally and is their due and right, and they dispense it with the careless way of giving into the universe around them that the roman emperors used in throwing coppers to their slaves. Knowing every electron in this universe, through being the cosmic dispenser of energy to the planet Earth in cooperation with the beloved Helios, I spend hours of time in admiration and devotion to the ceaseless stream of tiny beings from God's own heart that are constantly pouring into the Mighty I AM Presence of unascended beings. These little beings are the electrons that are spoken of so frequently in the (Bridge to Freedom) activity and they have individualities of their own, and some will evolve into a race, attaining mastery, as the human race is today, if they chose.

This sea of electronic force is dispensed by the mighty I AM Presence of every lifestream into the physical form, and it is there that the great atrocities are committed which are much more vicious than the crimes of the dictators that so arouse the indignation of mankind. For billions and billions of these tiny electronic beings (who seek but safe passage through a human form) are crushed and battered and so misshapen and distorted, that when they reach the aura of the lifestream, their mission is completely destroyed, and they disintegrate until they can be purified by some of the messengers of the Godhead and return home for repolarization.

Precious students, the electrons within you have come with gifts and powers of healing and peace, and they will give generously and gratefully their cooperation to renew every bit of muscle, bone and tissue of the lower bodies in gratitude for their safe passage into the universe, where their duty is to fill God's kingdom with perfection. Some wise lifestreams invite and invoke these beings by maintaining harmony in the four lower bodies. They will find these exquisite beings filling their aura and their individual lives with the gifts they brought from "home" and they will continue to serve from the happy aura, which will be so much to their liking that they will be completely at peace in their temporary exile. Such a chela will find opulence and health, beauty and a myriad of God's gifts released by the electronic substance. These gifts cannot be coaxed away by any of the dissonance of the outer world. The electrons, finding harmony, happiness and love in the third dimensional plane, will cling close to the aura and orbit of such a feeder and would naturally not desire to go out into the discordant vibrations which are around the planet.

THE LIGHT BODY OF GOD
By the Beloved Maha Chohan

The electronic light substance, which fills the universe, is the breath and radiation of the Godhead. It is a naturally expressed activity that flows through the Great Central Sun and forms the limitless light to all created beings within the spheres of perfection using manifest form. It is the very same substance which the lower consciousness of man uses to create imperfection. It is the body of God!

God gives us his own body, the substance by which all Solar Lords, Gods, angels and men create manifestation. Even the most imperfect miscreation is fashioned from the substance of the light body of God. Within this great sea of living light which is pulsating, intelligent substance is the wealth of the universe, waiting to express itself for the benefaction of all life.

One may wonder, if the heart center of all creation is God, how it can wear a garment that is less than perfection! However, the Godhead in his mercy and kindness has allowed this distortion of the light substance which is his body, so that the individualization of himself might learn to create perfection. Can you imagine the feeling of that intensely sensitive substance when it is focused into distorted forms and can you also imagine the joy when some part of creation resurrects that substance into its natural channel of beauty?

It is a marvelous service to life to resurrect and see the body of God free from imperfection. You may be sure, the magnificence of the Godhead is expanded throughout the universe through this release of true beauty which is within all perfection!

MAN CRADLED IN THE BODY OF GOD

By the Beloved Maha Chohan

I want you to feel in its reality that you are living and have your actual being within the body of the God and Goddess that created this universe (Helios and Vesta), and that that body is made up of countless tiny particles of electronic light substance which are intelligent and obedient to the self-conscious beings that say, "I AM."

Now, many, many of you, on a bright day, have seen these particles in the atmosphere! These particles of self-conscious, intelligent light form the substance of the atmosphere that you breathe in, and any number of them are willing, at any time, to enter into your world and become part of the substance that you require manifested in form, either personally, for Saint Germain's new endeavor, or for the entire planetary evolution.

Mankind may be likened to a man who sits in a room, the atmosphere of which is composed of pure gold and does not know how to use it, yet cries because of his limitation.

The creation of form is a part of the science of precipitation for which mankind took embodiment upon this planet and which you, WHO ARE THE GUARDIANS OF THIS PLANET AND ITS EVOLUTIONS, MUST LEARN. Therefore, it is right for you to create, consciously, beautiful forms and then, through the use of the all-powerful creative words "I AM" draw into those forms this beautiful, universal, intelligent and obedient light which, drawn into form by your thought and feelings, becomes a manifest expression within your hands, for your use, and governing power.

The activity of the Maha Chohan in any planetary scheme is to magnetize, receive, and distribute as much of the electronic light substance as is required for the planet to which he belongs and for its attendant evolutions.

Now, Helios and Vesta pouring forth this electronic light substance which encompasses and is the life of every planet that makes up their planetary scheme, continue to draw from the Central Sun of the system (Alpha and Omega) more and more of that light substance in such tremendous and prolific generosity, as cannot be conceived or cognized by the human mind. The Maha Chohan of each planet (for there is a being holding that office on each of our seven planets) magnetizes, through his consciousness and body as much of that light substance as is required and requested by its various evolutions—the nature kingdom, the elemental kingdom, the human kingdom, and the guardian spirits.

If there is no demand on the great Universal Storehouse for an increase of the electronic light substance, those of us who guard the release of that energy—because we are not wasteful—allow it to flow on to another planet, where there are beings who are using their magnetizing power to a greater extent and creating from it something of beauty and perfection.

You might visualize the distribution of the electronic light substance from the heart of the beloved Helios and Vesta as a great stream of light energy flowing from the Sun to the farthest star and planet, and as it reaches each sphere, the Maha Chohan of that planet directs from it a great funnel of light down to his sphere, which interpenetrates and encom-

passes it round about, and which forms the life and substance of every expression of evolving life thereon. Each Maha Chohan watches carefully to see that enough light energy is released to create a sufficient harvest to supply all the needs of his people, enough to clothe them and supply all the necessities for their daily comfort, as well as to create expressions of beauty and perfection through the individualized creative intelligences of some of the embodied lifestreams evolving on his planet.

Therefore, beloved ones, from that great funnel of light which I draw down and radiate out to the planet Earth, there flows enough life essence to supply the great nature kingdom, which expresses itself in the beauty of tree, grass, flower and fruit of every description. The elemental kingdom uses it to sustain the life energy in the water and air. But the mankind of Earth are, for the most part, given a great deal more of this universal electronic light than they ever use or dare, I will say, to invoke and mould into form for the blessing of their own worlds and the evolving life all around them.

As the wise engineer, watching the flow of water over a dam, opens one sluice and then another, according to the required irrigation of the ground for which it was intended, so do we, who hold the Office of Maha Chohan, watch the amount of energy that is being used, and release only as much of this precious substance as the evolving life upon our planet requires. Therefore, if the planets nearer the Sun or those following us require more of this beautiful substance than does the planet Earth at this time, to fulfill the creative activities of their evolutions, it is but an impersonal and perfectly just balance that they shall receive it.

I say, therefore—and it is no particular credit to the evolutions of Earth—that the light substance released to this planet at this time is less than that released to any of the seven planets of our system. I say too, for your comfort, that I have access to as much of that substance as any one or all of mankind will ask for, and that they need only prove, by the stirring up of their mental processes and their feeling process in conscious precipitation to give that precipitation life and form. Then, it will not only be my pleasure and privilege, but it will be my OBLIGATION to release more and more of that precious light substance which is only WAITING FOR AN OPPORTUNITY to be molded into manifest form for the glory of God and the comfort of man.

Now, beloved children, you, who are so close to my heart, you, whose motives are honest, earnest, and God-sincere, you are living in a world filled with intelligent, universal life and light. As you move your hands upward or downward—as you walk upon your way, as you lie upon your beds, as you are about the various activities of your daily lives—you are actually living and breathing within this palpable, intelligent, unformed life essence which I have taken the responsibility of drawing from that great stream of cosmic release from the heart of beloved Helios and Vesta, in the hope that you might choose to avail yourselves of the opportunity of consciously creating through thought and feeling that which will make you more efficacious, more healthy, more filled with supply and abundance, and more God-free.

Mankind has used thought and feeling to *imprison* some of this substance in distorted forms in this manifest world,

proving that the science of thought, feeling, spoken word, and action may be used in a destructive manner also. But, now we come to a new day—we are at the approach of a new era, where people are crying for freedom—and freedom only comes, beloved ones, through the control of the processes by which you create—by reaching your arms into this universal light, loving it, knowing that it is the body of God; that it is drawn into this planetary scheme and entrusted to you by myself; that it abides in a waiting state that is intelligent; that it will (because it has been so directed by the beloved Helios and Vesta) answer you and become for you that which you desire to help expand the borders of their kingdom upon this planet.

Now, I have endeavored, beloved children, through my own personal invocation, to get you to feel—while your attention is on my presence—that all the substance which your outer mind could desire, is within my aura, and may be yours for the asking. That substance can become for you the elixir of youth, the vital energy of healing flowing through your spinal column and your nervous system, reaching into every cell and atom of your being. It will become condensed through your thought and feeling processes, until it is visible and tangible in your hands, to use as any manifestation you desire. That substance, which is all around you, can and will respond to the directions of your own immortal flame through your positive affirmation in the acknowledgment of the Presence of God within you as the “I AM” which gives you life, AND IT CAN AND WILL JOYOUSLY BECOME FOR YOU whatever the requirement of the moment is.

Faith is essential, beloved ones, to the power of precipi-

tation. In studying your Bible, you will note that the Master Jesus almost always admonished the beneficiaries of his so-called “miracles” to have faith. You will note that in Nazareth “He did not many mighty works there because of their unbelief.” And his beautiful humility was evidenced in his statement, “Of mine own self I can do nothing. It is the Father within me—he doeth the works.” I will be watching with interest, beloved ones, what ye are going to do with this mighty power that I now offer freely for your acceptance!

CENTRAL SUN, THE DISTRIBUTING CENTER**By the Beloved Maha Chohan**

The Great Central Sun is the distributing center through which the soul-light flows, which forms the body of God, and fills this universe. All the planets and stars in interstellar space are composed of this electronic substance, and through this substance constantly flows the rhythmic breath of the Great First Cause, or Great Central Sun, which is the heart center and head of this particular universal scheme. Through the Great Central Sun came the smaller suns, of which Helios is one, there being seven in the system. Around these smaller suns move the planets of each system.

That is the large and expansive scope of vision. Let us now see the physical Sun, sending forth millions and millions of smaller suns, which represent your lifestream and every other lifestream belonging to this system of worlds, each one endowed with self-conscious intelligence and given as much of the body of God as they choose to utilize to create perfection. You see, my children, EACH AND EVERY ONE OF YOU IS A SUN IN EMBRYO.

The electrons that fill the universe—which you term the atmosphere, and which even form the substance of the material gifts which you use so freely—are the body of God. They have come from a pure, clean heart center which is the heart of heaven. They are imprisoned temporarily in the forms created by man, yet they pulsate constantly with life. They have intelligence within them, and they are aspiring, like all of you, toward the full expression of their own Godliness. EVERY TABLE, EVERY CHAIR, EVERY BOOK, EVERY CARELESSLY SCRAPPED PIECE OF PAPER, HAS WITHIN IT, LIVING

ORGANISMS AND BEINGS EAGER AND DESIROUS OF FULFILLING THEIR EVOLUTION and becoming perfected beings in some future scheme.

I have watched mankind use a piece of furniture or a piece of paper and, when the required need is over, discard it roughly and carelessly. HOW, THINK YOU, DO THE ELECTRONS WITHIN THAT ITEM FEEL? Think you it is idly that Saint Germain has suggested that when such an article has served its purpose it be placed in the physical flame, and the electrons freed to return to the Sun? This is a universal teaching applying to all. I have seen a withered flower crushed and thrown carelessly into the garbage—how, think you, the beautiful electrons that made up that flower must feel—rather than the gratitude of the lifestream that enjoyed them freeing them through the flame into the universal! This refers to everything that serves mankind—not only people—but the very rugs beneath one's feet, the outworn shoe or the discarded note upon which a message has been transcribed.

Beloved ones, as you pass through the course of your daily outer world activities, if you would learn to be aware of these lovely, intelligent electrons that make up the atoms of life and would help them on their course by love and gratitude and prayer, YOU WOULD FIND YOUR WORLD SO FILLED WITH THE SUBSTANCE OF GOD IN MONEY AND SUPPLY THAT YOU WOULD HAVE TO SECURE HELP TO DISPENSE YOUR OPULENCE. The electrons that form the material wealth of this universe love the God-quality of LOVE, and they will seek to be in the presence and the aura of one so loving. Remember the line from the song, “Ah, Sweet Mystery of Life”—“Oh, 'tis love and love alone the world is seeking.”

PRIMAL LIFE SUBSTANCE FILLS UNIVERSE

By the Beloved Maha Chohan

The consciousness and bodies of mankind are endowed with the life-begetting principle of fertility, and can consciously or unconsciously increase and multiply whatever desires, ideas, and so on are allowed entrance into the compass and orbit of their being.

The life-begetting principle of fertility which is innate in the universal life substance, and which is focused into the formed and unformed as well, is the hope and despair of evolving man. Were the universal life substance not responsive and did not lend itself to the nourishment and expansion of ideas and desires, much of the unfortunate creation which forms mankind's chains would have been avoided, but, likewise, all the hope of men becoming co-creator with the Father would be voided were there no source of nourishment by which ideas and thought and feeling could manifest.

Let, us then, in all our contemplation, rejoice in this "life-begetting and creative fertility" which our beloved Saint Germain has said so beautifully, "fills every nook, corner and cranny of the universe!" There is no place or state within the orbit of the Sun where such intelligent substance is not present. Therefore, wherever your body may stand, you are immersed in this intelligent, pulsating, fertile substance which is taking form and creating constantly according to the working of the mind and feeling force.

The blessing of this substance, the accepting of its Presence, the purifying power of its radiation, is not only a tremendous service, but also a drawing forth of more of the good from its Presence about you, for all substance rushes toward a radiation of blessing.

THE DESCENT OF RADIANT ENERGY
By the Beloved Maha Chohan

If you, my chelas, could see the descent of the radiant God-energy into the individual's conscious use, you would realize the great responsibility that every man has in being the dispenser of this essence. This pure energy of God (each electron of which contains the fullness of the divine plan for the individual and for the solar system) continues to flow into the individual's use under the conscious direction of the personal self, and FOR EVERY ELECTRON LOANED TO THE INDIVIDUAL HE MUST RENDER AN ACCOUNTING.

Upon your request that you be made and kept worthy to have released into your conscious use the powers of your being, the Holy Christ Self takes note of your use of God's energy in any one twelve-hour period. This energy is but an infinitesimal percentage of the allotment of your lifestream. Can anyone say that even for one hour of the twenty-four that these electrons (the radiant energy, the spiritual essence of divinity) have flowed through his channel clean and uncontaminated and qualified with love only. Now, then, can the personal self, who is not able to harmoniously dispense life for an hour in thought, feeling and words, be considered fit to be the conscious dispenser and custodian of that precious life essence?

The life essence that flows gently forth through the heart of every man is allegorically expressed by David as "the still waters." Let us humbly and quietly kneel before the gift of life and bathe in "the still waters" and find our souls restored. Let us ask today for help and counsel of the Ever-

Present One in the dispensing of our life energy each hour. Man is like a sieve with a thousand holes and the “waters” of God are flowing constantly from each one in emotions, thoughts, in the actions of the flesh and in the spoken word. Be faithful in the little things and you shall be made master over many.

I ask you, who desire to have the full use of all the energy as your command, to make conscious effort to guard the life flowing through you by the hour and to check the thoughtless words, to stop the conscious churning of thought processes that re-qualify God's energy and to be a channel of peace in action. Then the Holy Christ Self looking upon your use of the talents in hand may double those talents in your experience; otherwise it would not be the part of mercy to increase your responsibility while you are yet unable to dispense constructively the allotment of life-energy that God has given you.

JOURNEY OF THE ELECTRONS

By the Beloved Maha Chohan

You all know that every electron has a form, color and an identity within itself. If you will take a moment to think of the countless millions of these minute electrons which are sent forth from the Supreme Source on the sacred activity of the breath, through which life is sustained in everyone, you will just touch the fringe of the magnitude of the love of the Father-Mother God for his children through the gift of life.

Through the activity of magnetic attraction, these electrons travel on the vibration of light to your individualized I AM Presence, and in rhythmic pulsation, the Presence of God sends them on their journey with the gifts and powers of the lifestream which have been accumulated in the Causal Body. The individual is thus blessed as the electrons abide with him or pass through the lower vehicles for the enrichment of the universe.

These tiny electrons leave the heart of the Father-Mother God in great happiness at being privileged to carry the gifts and blessings of the creator of us all, but when they reach the human kingdom, the vibratory action of the lifestream who is the specific beneficiary, imposes upon them the quality of energy pulsating in the emotional, mental, etheric and physical bodies. These blessed electrons are often battered and buffeted so violently that their identity is hidden by that infliction of imperfection upon them. They came forth in obedient love and are required to accept the garment which the lifestream provides for them. Further, they must continue on their journey in the world of form

clothed in that garment, and if it should be one of imperfection, remain in that vibratory action until the individual decides to remove the discord which has been imposed upon them.

Can you not see why the chela who is privileged to know of the Sacred Fire should never weary in the task of purifying his lower garments? You have all done well, but there are still many tiny beings of light who must obediently live with you or go to the destination to which you send them with bowed heads and a feeling of depression and heaviness because you CHOSE to misqualify God's holy energy. I counsel you to have respect for all life, and in so doing, you will not wish to inflict upon that life anything but the love, beauty, peace and harmony of the perfection ordained for all life.

ORBIT OF ELECTRONS
By the Beloved Maha Chohan

Not only your physical bodies, but your mental, emotional and etheric bodies are made up of thousands of atoms. Each atom consists of a central core of fire around which a series of electrons move in ordered precision, as the planets move around the sun. The electrons spin in their orbit, even as the Earth turns on her axis in the twenty-four hour period. The speed with which the electrons move in their procession around the flame in the center of the atom and the speed at which they turn in their orbits, determine the rate of vibratory action of your vehicles. The mind of God determined the time and the speed with which the planets circle round the Sun and the Earth has obeyed that law, remaining in its orbit and completing its revolution every twenty-four hours within that orbit, as well as its circle around the Sun in what has been chronicled as your present one-year period.

Within the lifestreams of the children of Earth there was, likewise, set a perfect pattern for the electrons moving in each atom and, combined with all the atoms in the seven bodies, it made an ordered universe and a harmonious vibratory tone and color. The natural rate of vibration of the seven bodies of each lifestream was placed at such a rapid rate that imperfection, disease, limitation and disharmony of any kind could no more attach themselves to these rapidly moving bodies than could a cloud of smoke enter into and become a part of the physical Sun.

When the vibratory action of the bodies of man began to

vibrate more slowly than their natural rate, they had no longer the repelling force (in form of a pillar of light), which their own rapidly moving energy provided. When men lowered the caliber of their thought and feeling worlds, it lowered the vibratory action of the four lower bodies until they became so slow in their movements that every destructive rate of vibration generated by their fellow men could easily flow into and become one with them, because there was no rapid circulation of the electronic light to repel and deflect their intrusion. That is why the more distressed and discouraged an individual becomes, the more he is slowing down the vibratory action of his system and the more he is drawing into himself the accumulation which vibrates at this slower rate.

There is only one way for mankind to come back to a state of immunity, which was symbolized as the Garden of Eden. That way is, to consciously draw the light into the four lower bodies. That light will act as an electric charge as it flows into each electron, causing it to spin more rapidly in its orbit, gradually accelerating the vibratory rate of the lower bodies. This action, if sustained by conscious effort, will bring the lifestream to a state wherein discord and imperfection will not longer register.

The student body is like a foolish pilot who sits in the cockpit of a most modern airplane and weeps copiously because the large contraption will not rise into the air, but yet he will not turn the lever which sets the propeller into motion. Unless he will draw the electric force into the great motor, he will sit there forever.

Beloved children, you have the way and the means to rise out of the discord of Earth. Why sit ye weeping in your limitations, when, through the use of God's limitless light, you may rise up and be free. You have faith that by putting your foot on the starter of your car, you will start the engine running. Why not have faith in the Threefold Flame in your hearts to raise your consciousness above the discord of Earth!

RIVER OF ELECTRONIC SUBSTANCE

By the Beloved Maha Chohan

This morning, I again bow before the exquisite stream of electronic light flowing so constantly, and so happily from the heart of the great Sun, itself, into and through your human forms, and containing, within itself, all the potent powers which man has called mastery over circumstances.

Looking at the form and essence of this pure light as it flows to the individual, which appears like billions of beads of light strung together, making a river of electronic substance, it becomes my heart desire, as well as that of all those who witness the entrance of the God-light into the body, that we might convey to you the comfort and the knowledge and power that lies within your own light to fulfill all your needs, and yet this great river of force flows through you, for the most part, unclaimed, filling the aura of each day with nothingness.

The great world of science has said that if they could build machines powerful enough to crush the atom, that from the energy released, one tiny molecule would be enough to carry a great ocean liner across the sea, and yet, IN THE COURSE OF A SECOND, EACH ONE RECEIVES INTO HIS OWN HEART (UNRECOGNIZED) MANY COUNTLESS BILLIONS OF THESE ATOMS THAT PASS OUT INTO THE UNIVERSE, UNUSED, because man has not learned the power that lies within his own lifestream—just like an orange that lies upon the table untouched, or a nut from which the kernel has not been extracted. One could sit for days with both these articles of food within reach without enjoying the succulence of the one

or the nourishment that lies within the other, unless an effort was made to unclothe the garment in which their essence was enveloped.

It is the same with your precious light. At the moment you are born into this world, your own Christ Self agrees to accept the prana, or substance of the air, and becomes responsible for as much of that commodity as you will use in the course of a lifetime. Also, from the time you breathe your first breath, the powers and beings of the air become your servants; the beings concerned with the sustenance of Earth supply you with food and nourishment for your body; the shining sun helps you to perform the acts of your daily living, and the elements of the water supply you with your ablutions as well as giving the necessary refreshment to your inner bodies.

All of these elemental beings bend the knee before the throne of the One from which all have come, and who breathes the first breath into the nostril of the new-born and sets the akashic ethers into motion. Do you think that it is for naught that, age after age, and eon after eon, mankind has been so served, and yet has not signified its willingness to accept the responsibility of using these powers of nature without, in some manner, contributing, even impersonally, to the progress of the planet and the race?

At the close of your earth life, my beloved ones, it is I who takes the last breath from your nostril, as your soul signifies that you have abode long enough in this "vale of tears," and that it desires a surcease from the karma of your own making that you may receive light from the Suns of

Heaven and prepare to return again to fulfill your divine plan. I have met you there hundreds and hundreds of times, your soul clutching in its tired hands the sheaves of its own harvest, pitifully small for the most part, and even I, whose energy has sustained your earth journey, must repress a feeling of discouragement (if such a quality could be expressed in our realm) to see a soul so distressed. So this morning I again endeavor to turn your attention to the power that lies within your electronic stream of light which is your heart-beat.

You do not have to look without—to any person—for within that heartbeat is your precipitating power by which I myself have manifested the glory of each succeeding day.

In the heart of the retreats, when we emphasize the philosophy “Know thyself,” it does not mean that you have to delve into the various doctrines of the day, which only result in the manufacture of sheath after sheath with which people have clothed the outer self in this octave, but we do mean that you **BECOME ACQUAINTED WITH THAT EXQUISITE STREAM OF LIFE AND LIGHT THROUGH WHICH YOU ATTAIN YOUR MASTERY.**

ELECTRONIC ENERGY THROUGH LIFESTREAM**By the Beloved Maha Chohan**

When we speak of life we speak of what the scientific world calls electronic energy. I am a cosmic dispenser of life, and therefore know the actual reality of that electronic substance. Men consider life wasted and boring, because they do not understand the very nature of that glorious gift of life from God's heart.

From the heart of God there are sent forth countless billions of little intelligent beings with winged sandals, shining garments, miniature crowns upon their foreheads all carrying gifts of health, illumination, understanding, love and light. These beings are given into the heart of the Mighty I AM Presence of every unascended being and they are what the world terms "life." THEY ARE EAGERLY AWAITING PASSAGE through the world of human form, as the souls of mankind are awaiting incarnation. The Presence blesses each one of these miniature beings, which you term electrons, and sends them forth to each human personality in a rhythmic pulsation, hoping that they can pass through the channel of the personal self as an open door and give their gifts to the universe. From the time they leave the aura of the individual I AM Presence they are catapulted by the emotions, thoughts and vibratory action of the physical and etheric bodies, and their journey into the universe is completely disrupted by the disintegrating forces of the uncontrolled channel through which they pass. Their little vials are broken and their gifts destroyed, and they pass from the body with practically no animation left in their beings.

The continual procession of these angelic, cherubic, seraphic beings goes on through every human being on the planet while he wears a physical body, and everyone is the constant conductor of perfection held by these intelligent little spirits that would flow through such an open door and give happiness and joy to the universe. To be an open door, and to stop the crucifixion and maltreatment of the electrons passing through one's body makes such a lifestream blessed indeed, for where any such a one is found, the Father entrusts more and more of his tiny messengers to that lifestream, hoping in that way to balance the many who have never reached their full perfection in the outer world through the personality's discordant vibrations.

Because of the service of beloved Saint Germain, limitless thousands of these little beings are endeavoring to pass through your lifestream into the activity, and if you could put your personal little self aside and allow them to pass, you would learn patience, and knowing the great service your bodies render, you would be willing to remain incarnate as long as the Great Ones wish a means of conduct into the appearance world. This may be compared to the man who lay across the Tibetan' abyss with his feet in the roots of one tree and his hands caught on the other side, so that the disciples of the Buddha might pass in safety and reach their Master.

FREE FLOWING STREAM OF ELECTRONIC LIGHT**By the Beloved Maha Chohan**

As it is my privilege, responsibility and honor to be the actual cosmic dispenser of God-qualified energy to the Earth and all her attendant evolutions, I bless the ceaseless stream of electronic light (which has self-conscious intelligence) as it flows from the universal I AM Presence, through your own White Fire Being, your Individualized I AM Presence into the chalice of the immortal victorious Threefold Flame within your beating heart.

The unawakened amongst men feel life is their just due and dispense it often with careless effrontery into the world about them in vicious thoughts, destructive feelings, hurtful words, and violent actions, due, of course, to lack of mastery over the desires and appetites of the outer self.

These countless billions of electrons, invested in each individual, seek a safe and joyous passage through your four lower vehicles (emotional, mental, etheric and physical bodies) blessing, raising and renewing such vehicles in their sweeping and triumphant God-ordained descent through you to bless the universe as a whole. However, when any of the four lower vehicles impedes the free-flowing stream of electronic light in its service in, through, and around you, the electrons are, temporarily, imprisoned inside a casing (called the substance of matter).

This slows us your own vibratory rate of activity and also the activities of electronic light channeled through your lifestream. Electronic light abides within your own I AM Presence and in rhythmic pulsation is directed through you

with special gifts, blessings and powers for your use. If, however, you have literally “clogged the stream of entrance of the newly charged electronic light” and have, even temporarily, imprisoned the precious release of electronic light within your four lower vehicles, it can readily be seen that you, yourself, are cutting off the blessings which are destined to be yours.

Beloved Jesus and his Holy Mother, Mary, whom we honor during the month of May (the month of May is honorary month of beloved Mary, and May 11th is the feast of Jesus' ascension) were open channels for these light rays and ever cognizant that the electronic energy flowing through them was the power of God “I AM” which healed, soothed and made whole each individual in distress whom they contacted whilst serving upon the Earth and in the Father's kingdom. Go, now, and do likewise. The electronic light is ALIVE within you, has intelligence, motivation and, generally, the potent fire of creation! Allow it, through you, to bless yourselves free and to, in like manner, bless all imprisoned life everywhere.

This electronic light will lovingly renew muscle, bone, sinews, bloodstreams and nervous systems, when allowed through your free will to so do.

Beloved, THESE WORDS OF MINE ARE A DOCTRINE OF ENLIGHTENMENT. READ THEM, ABSORB THEM, UTILIZE THEIR ESSENCE AND SPREAD THE BLESSINGS RECEIVED BY SUCH CONTACT WITH MY PRESENCE AND MY CONSCIOUSNESS. Thus are you truly messengers of my Comfort Flame.

CONDUCTORS OF LIGHT
By the Beloved Maha Chohan

The physical Sun is a conductor of the substance of flame from the Great Central Sun. Man is a conductor and his presence on the planet Earth is to draw the electronic substance which is the light and life of the Sun, and to magnify that substance in works.

The electronic light rays that form the atmosphere of Earth are conductors. The mountains, the seas, the trees, the birds, the bees, and countless expressions of nature's manifestations are all conductors of certain radiations which form the formula by which human life can have a sustained existence on Earth.

However, man is the only qualified conductor of the cosmic flame, which purpose it is to direct the power, intelligence, light and consciousness of the Sun into the planet and its atmosphere. It is the development of this power to draw this cosmic force, direct it and utilize it, which forms the basis of the instruction which is released to you by the Spiritual Hierarchy. Some lifestreams are natural and unconscious conductors, due to certain development and dedication of purpose through the centuries.

The Ascended Masters are conscious, voluntary conductors of more than ordinary outpourings of flame at certain periods and cycles. The infusion of the words, the consciousness, the radiation and the outpouring of the electronic force is required to see the Earth and its people through this present crisis, and the more attention and dedication of those who know of the service of the Spiritual Hierarchy, the

more of this electronic force can flow through those so cognizant, making them localized conductors of an invisible force which is the atmosphere of the New Day.

Every time the attention is turned towards any facet which the Ascended Masters represent, this electronic substance is given an opportunity to flow into the lower atmosphere of Earth. The intellectual attention, the emotional devotion is all that is required to make the contact by which this substance might flow to enrich the lower atmosphere and it truly makes a localized sun in and around the very environment of the chela, which is of more powerful, potent, cosmic import than the chela shall ever know.

CONDUCTORS OF COSMIC ENERGY

By the Beloved Maha Chohan

To have the inner sight opened for a short period of time, say for a half hour, would so transport you into a world of light wherein you could see the reality behind all action, that you would never again find form as either an imprisonment or an actuality.

If mankind could see the beautiful conductors of cosmic energy which they really are, how the electrons fly from the fingertips, the feet and particularly from any part of the body which is the concentrated focus of activity for the moment, they would find that the display of fireworks in any celebration such as the fourth of July but a poor imitation of their own capacity to emit electronic force.

Although the entire body is constantly sending forth sparks of light or electricity, the tremendous shooting forth of the cosmic particles is concentrated where the attention for the moment is active; thus, it passes from the hand in a handshake or from the eye in the process of reading or looking at objects, from the forehead in thought, from the lips in speech and song, and so on (energy follows thought). The quality of the electrons of course, is determined by the evolution and the feeling of the individual.

When two or more individuals meet to discuss any problem or to combine their efforts for a good cause, the tremendous release of the electronic particles from all parties into the contemplated activity will have a tremendous effect upon its final outcome and the nature of the participants as well as their feelings during the process of preparing and

actually executing the plan, will determine the type of manifestation that will outpicture.

I most sincerely counsel the chelas to contemplate the foregoing and to consider the pictures which they send out into the universal, knowing always that they are an open book to all who have preceded them into the light.

POWER OF THE ELECTRONS ARE IMPERSONAL**By the Beloved Maha Chohan**

The powers within every electron are impersonal—God, deva, angel, man and nature spirit utilize as much of those powers that are within life as they are capable of at a given moment. For instance, within the electron is the power of sight by which all men and Gods are able to see; within the electron is the power of thought by which God and man tapping the same power are able to think; within the electron which is flowing through the bodies of ascended and unascended beings is the power to qualify or feel, and the nature spirit or four-footed creature shares that feeling power.

When the human consciousness is ready to utilize the greater powers that are within life, a way and means is provided by which the intelligence is made aware of these powers and possibilities within man.

It is now within the province of the awakened chela to enter deep into that magnetic power which is a natural activity of life, and in the authority of that magnetic power, allow the fullness of the good of the universe to enable him to serve life in a greater and more beautiful capacity. In the same manner the chela can draw the radiation and assistance of the Divine Beings who cannot refuse the magnetic power that is within life.

REVERENCE FOR ELECTRONS**By the Beloved Maha Chohan**

How often do you turn your attention to the electrons which are breathed forth from the Father-Mother God and received by your individualized I AM Presence? These millions of tiny electrons have identity within themselves and are received by your Presence in true humility. Do you, the recipient of these tiny expressions of divinity, love this light and have reverence for this glorious experience, embodying the gift of life?

As you know, these electrons are nourished by the heart of the individualized I AM Presence and according to its wisdom are released in rhythmic pulsation. As they make their journey through the lower vehicles, they bring particular gifts, powers and blessings for the lifestream through which they pass and for the great universal whole.

These electrons are joyful that they can be an intensification of the gifts of the Godhead for mankind and all the evolutions on this Earth, but as they enter the human consciousness, do you allow them to go forth on their outward journey expanding the borders of God's kingdom on this planet, or do you, through the use of free will, desecrate the divine image through the human consciousness which you have builded through the centuries?

Often, when I turn my attention to my chelas, I hear the cry of the soul wondering why manifestations of an imperfect nature are still plaguing them when they believe that they have used and used the Sacred Fire of Transmutation and Purification so faithfully. I admonish you, beloved ones,

to ponder for a moment the millions and millions of these exquisite God-perfect electrons which you have misqualified through the ages, and I firmly believe that you will more fully realize that there can be no cessation of application for the removal of the imperfection which you, and others, have imposed upon these tiny beings of light.

LOVE OF THE LIGHT

By the Beloved Maha Chohan

Let us think what "Love of the Light" should mean to every lifestream on the planet, the chelas in particular.

Love of the light can be a very beautiful experience when you realize that every tiny electron has a form, face, color and a little identity within itself. If you could see the millions and millions of electrons breathed forth on the breath of the Father-Mother God and received by the individualized I AM Presence in great humility, you would understand more fully the gift of life.

These electrons live in the heart of the Presence and then in rhythmic pulsation, according to the wisdom of the Presence, are sent on their downward journey with particular gifts, powers and blessings, both for the lifestream through which they pass and for the great universal whole. When we speak of "downward journey," we refer to the consciousness which is less than the perfection of the indwelling Christ.

They are overjoyed with their mission and carry their lit-

tle cups filled to overflowing with the gifts from the Father-Mother God and move happily on their way until they come to the borders of the human kingdom. There they are set upon by the vibratory action of the personal self (the physical, etheric, mental and emotional vehicles). Here these little "suns" are dimmed by the grinding of the human will; they are filled with the pollution of human thinking and feeling and their vibratory action is affected by coarse language and expression. When they finally pass through the physical garment, these tiny angelic beings have the semblance of "dead" expressions rather than the light beings which they truly are.

When mankind comes to a knowledge of true love and beauty he will then begin to respect life, to welcome these little light beings and to give them safe convoy on their journey, thus enriching the kingdom of heaven.

Since we refer to reverence for life from time to time, I thought this picture might be of assistance to you in qualifying the energy which flows through you with the perfection of the Father-Mother God at all times.

ELECTRONIC LIGHT MUST RESPOND**By the Beloved Maha Chohan**

The great universal body of God is composed of a limitless number of intelligent, electronic particles which are constantly being generated by the parent principle into the universe. This forms the sea of electronic light from whence is drawn into form every manifest object which has ever been in the inner spheres as well as in the material world.

This electronic light substance must respond to the creative powers of thought and feeling as wielded by an intelligent consciousness, whether that be a Solar Lord, Ascended Being, deva, nature spirit or man. The great planetary cradles of evolving lives are thus consciously focused form and substance, sustained by the planetary spirits out of this body of God, but I shall endeavor to draw this cosmic conception down to the use and design of the individual evolving man, for the purpose of my creative lesson.

One of the joys, which the Parent Flame endowed mankind with, was the opportunity of becoming co-workers in the kingdom and it is to learn the lesson of such creation, that man finds himself presently embodied upon a planet where form has become concrete enough, to objectify the principle of individual precipitation through thought and feeling.

There is no form that exists upon the planet Earth today, that has not been evoked and drawn into being through the open door of some individual's consciousness, human or divine.

Let us now examine the workings of this law which will give us a certain freedom in the use of our creative centers for the greater good of all concerned. The universal light substance can only become self-conscious through its descent into form and its subsequent evolution as an intelligent, focal, working consciousness. This universal light lives in a realm of innocence, love, peace, and harmony, and may remain quiescent throughout an entire cosmic age, unless called into the wheel of evolution through the consciousness of some already individualized being, human or divine.

The thought and feeling centers within the consciousness represent the open door through which the unformed universal light must pass to take on a cloak of matter. The magnetic power within thought and feeling centers is a summons that cannot be denied, and the moment that these forces pulsate in a consciousness, directed or otherwise, the universal light begins to enter the realm of form and begins its voluntary exile as a prelude to individualization.

ELECTRONS CHARGED WITH OBEDIENCE**By the Beloved Maha Chohan**

The holy essence which you know as electronic light is charged with the quality of obedience to the Sacred Fire, and since this light is all-pervading, it fills the universe, makes up the bodies of the people, the homes in which they abide, and all the services in which they are engaged; and it has instantly obeyed the direction of man through thought and feeling. The bodies which mankind wear, are but the endeavor of the electrons to outpicture the thought and feeling forms which they are commanded to fill and which they, in obedience, manifest.

Now that we are coming to the end of the cycle, the exquisite electrons that have become voluntary prisoners of the will of man, are in the process of redemption. From within the electrons themselves, as the cosmic light increases, will come a freeing power which will throw off the fetters and shadows imposed upon the light by the human consciousness. Thus their very light within the imperfection will begin to throw off the covering of the human concepts and stand revealed in its original splendor. This redemptive activity is taking place at the present time due to the fact that the chelas of the Spiritual Hierarchy are aware of the glorious activities of the flames of purification and transmutation, and which the chelas, in obedience to the instructions given to them by the Great Ones, are using in a most commendable manner.

As the electronic light within the lifestream begins to quicken, it temporarily seems to accelerate many of the con-

ditions of a human manifestation, but be of good cheer, for this will be only a short-lived process followed by an entirely new world, free of miscreations of the thought and feeling processes of the unawakened. As you make further application toward the calling forth of the beautiful light patterns within the bodies of the people, you can render a tremendous service to the mankind abiding upon the Earth and in your own vehicles as well. The electrons are so eager to fulfill the divine pattern that when you choose to reach into the God-consciousness, you can draw that divine pattern and mould it into the perfection ordained for you and for all life by keeping your consciousness free of all that is less than the divine concept.

This is an activity of precipitation, and now, when we are directing our attention specifically to the activities of the Teton Retreat, you should find it relatively easy to mould your own garments into the pattern which the Holy Christ-Self is waiting for you to externalize.

PERSONAL MAGNETISM
By the Beloved Maha Chohan

When we look at the flow of energy from the heart of the Presence, we see a rapidly pulsating river of prismatic light. If we were to slow down the vibratory action of that life energy, we would see that the electrons making up the flame of the Presence carry a distinct design which differs from all others, even as the geometrical perfection of the snowflake is singular.

As this energy is molded by the thought and feeling body into form and sent forth into the universe, it carries the plan of the original design of the lifestream. THAT ENERGY GOES FORTH IN A HANDCLASP, SO THAT THE INDIVIDUAL RECEIVING THE HANDCLASP, WHEN THE HAND IS REMOVED, HAS UPON THE PALM, SUPERIMPOSED OVER HIS OWN ENERGY, MANY THOUSANDS OF THESE TINY FORMS REPRESENTATIVE OF THE LIFESTREAM OF THE GIVER.

THE SECOND INDIVIDUAL THEN GOES ON HIS WAY, PERFORMING ONE ACT OR ANOTHER, YET HE CARRIES WITH HIM SOME OF THE ENERGY FROM HIS FRIEND, AND THIS IS HOW ONE'S ENERGY PASSES ON IN AN ENDLESS CHAIN FROM ONE TO ANOTHER IN HANDCLASPS and other services requiring contact in different modes of service until the energy from each one goes out to many, many parts of the planet. The outer world has touched the fringe of this in their science of personal magnetism, but they refer to the human effluvia which covers the pure particles of light, whereas we refer to the life structure and picture within.

The manner in which the particles are charged forth de-

termines the resulting effect upon the lifestream releasing them. The energy may pass to another in a handclasp, but the predominant feeling in the emotional body as it goes forth, will determine whether its passage through the universe carries friendship and love or otherwise, and in its return circle, of course, it will pick up vibrations only similar to its own, and so its return again unto its source, brings amplified a millionfold, the initial vibration with which it was sent forth.

Beloved ones, if you could witness with the inner sight the action of the Law of the Circle, if you could watch just one stream of electrons (which is your own life) pass through your feelings, your thoughts, your words and your actions into the atmosphere about you, see their effect upon the entire planet and all its evolutions and then see that RETURN CURRENT AS IT COMES BACK TO YOU, IF YOU COULD SEE THAT JUST ONCE, I AM SURE EACH OF YOU WOULD BE A GREAT DEAL MORE CAREFUL ABOUT YOUR USE OF THE GIFT OF YOUR OWN LIFE. It is because of the careless use of life by mankind that the Law of the Circle is compelled constantly to return this discordantly qualified energy which continues to plague the race.

PREPARATION OF MEALS
By the Beloved Maha Chohan

If a woman could see the sparks of light going forth from her fingertips when she is cooking, and the substance of light that goes into the food she handles, she would be amazed to see how much of herself she charges into the meals that she prepares for her family and friends.

It is one of the most important and least understood activities of life, that the radiation and feeling that go into the preparation of food affect everyone who partakes of it, and this activity should be unhurried, peaceful and happy. IT WOULD BE BETTER THAT AN INDIVIDUAL DID NOT EAT AT ALL, THAN TO EAT FOOD THAT HAS BEEN PREPARED UNDER A FEELING OF ANGER, RESENTMENT, DEPRESSION OR ANY OUTWARD PRESSURE, BECAUSE THE SUBSTANCE OF THE LIFESTREAM PERFORMING THE SERVICE FLOWS INTO THAT FOOD AND IS EATEN, AND ACTUALLY BECOMES PART OF THE ENERGY OF THE RECEIVER.

That is why the advanced spiritual teachers of the East never eat food prepared by anyone other than their own chelas, and if the individual who sometimes is possessed of the only advanced spiritual understanding in the household, and who seems to have little time for personal application, would make the preparation of his or her culinary efforts an active charge of happiness, purity, peace, opulence, and freedom, what the other members will not get by study, they will eat. I might say that there are more ways than one of allowing the Spirit of God to enter the flesh of man.

The Master Jesus used his hands, almost constantly, as

conductors of the energy drawn from God, and charged them, through the electrons of his great lifestream, with healing power for those requiring assistance. HE AND HIS DISCIPLES HEALED BY THE "LAYING ON OF HANDS." In this manner, the electronic particles of the Master's energy were charged into the physical structure as well as into the mental, emotional and etheric bodies of those requiring assistance.

These particles of light remained with the individual, and radiated the feeling of the Master long after he had proceeded on his way. His purpose in this was to sustain his consciousness in the individual thus assisted, lest the mass mind draw him back into his former way of thinking. Everybody close to the Master Jesus in that embodiment was literally covered with the "stardust of his light," which was as tangible a robe of grace as was the white garment which he wore. Likewise, the whole planet was benefited by the radiation of his presence.

Therefore, be careful how you speak, because every time you speak a word, energy rushes forth from your mouth and creates a thoughtform composed of the pattern of your lifestream. If Saint Germain were to pronounce the word "cat," that form would be composed of myriads of little open-ended crosses, and if Lord Buddha said the word "cat," his thoughtform would be composed of tiny lotus flowers. It behooves us, then, to be careful how we use our energy because, according to the manner of sending it forth, do we receive happiness or otherwise on its return.

THE AURA
By the Beloved Maha Chohan

The glorious white robe of the Master Jesus is a constant reminder to the initiate and the aspirant that the life and energy of his own being may be woven, and is woven, at every moment into the vehicles through which his soul must function, and achieve, at last, everlasting peace.

“To him that overcometh, shall be given a white garment.” This garment is woven by the Presence into the substance of the bodies and aura of the evolving consciousness, when the attention of the heart is centered on the spiritual center from whence all blessings truly flow.

The aura around the lifestream consists of a constantly-moving sea of electrons passing outward, driven by thought and feeling, and returning inward on the return course of their circular journey, to find oneness in the heart of their creator. The radiation from the Presence, however, is vertical and passes downward through the bodies, and then completes the circle back into the Presence. So you have the directive activity of the lifestream going out in a horizontal line, tying you to the manifestation of Earth, and the more ephemeral electronic circuit coming from the Presence, made up only of those directed thoughts and feelings which turn towards the Source.

As the greatest amount of the energy of the lifestream is directed into the affairs of the world, that circuit is more powerful than the short intervals of contemplation, prayer and devotions that form the divine circle uniting you with the Godhead, and this is the beginning of that white garment,

that seamless robe, which, you see, has neither beginning nor end.

Now, when the individual is done with interesting himself in the satisfaction of the personal self, and more and more of the life energy is directed towards the Source, this Cosmic Christ cloak, or seamless robe, woven out of the individual's own love for God, not only increases in intensity, but begins to form a natural protective ring that disconnects the energy of the lifestream from the magnetic pull of imperfect manifestation.

It is not the matter of a moment, to change the currents of attention from form and manifestation, into the joyous contemplation of the God-Self, and yet those individuals who have entered that discipline, when seen with the inner eye, appear to be held within an almost invisible mist that is barely discernible through their cloaks of many colors. It would take the trained eye of a free being to show you the potential Christ bearers of the age. But, as the person is singled out from the masses, and entered under the standard of the Christ Beings, that mist begins to take more form and substance, and eventually, it is the predominant vibration through the cloak or through the aura. It forms the garment which Jesus so powerfully manifested, that those who touched its very fringe, were excused of their mistakes and mercifully reinstated in health and well-being.

Weave your seamless robe, dear hearts, each one, so that he who touches its hem will be blessed by its nature, its quality, its gifts. To qualify that Cosmic Christ cloak, the spiritual electronic essence, which is the protective power of

your higher nature, with confidence, healing, spiritual conviction or any one of the countless virtues of the universal, is to render an impersonal service in which your outer self can never either be recognized or acknowledged as the doer, and is the great impersonal blessing which forms the heart pulsation of the Brotherhood.

THE POWER OF RADIATION
An Instruction by the Maha Chohan

To fully understand the POWER OF RADIATION, one must enter the fourth-dimensional activity, where the unseen, but powerful, rays are constantly vibrating from their manifestation of the God-life.

THERE IS NO SUCH THING AS AN INANIMATE OBJECT; THERE IS NO PLACE IN THIS UNIVERSE WHERE THERE IS NO MOTION, NO VIBRATION OR INERTIA. Every electron that forms every atom, visible and invisible, is pulsating, constantly, with the heartbeat of the Father.

Radiation is the vibratory action of those electrons.

Man must let the energy from his bodies go forth to perform their cosmic service, with at least as much accuracy as the singing bird or the unfolding flower.

Every individual belonging to the human race affects mankind, enmass, with the breath that goes forth from him. No one lives unto himself, but THE VIBRATION, LIKE THE BEADS ON ONE STRING, FLOWS THROUGH THE ENTIRE HUMANITY WITHIN THREE SECONDS. The radio, the wireless and the television have proved the transcendence of time and space.

MAN'S THOUGHTS AND FEELINGS ARE BEING BROADCAST THROUGH THE UNIVERSE BY AN INVISIBLE HOOK-UP, AND THESE THOUGHTS AND FEELINGS AFFECT THE LIVES OF ALL THE PEOPLE ON THE PLANET, AS WELL AS THE ANIMAL AND NATURE KINGDOMS. Man, therefore, should endeavor to love more in accord with the principles expressed by Jesus.

One individual with a radiation of peace and harmony can affect the whole human race for good, and the Masters can use such individual as a conductor of their qualities and hand feed, so to speak, the inner bodies of the people.

But the Masters cannot use these individuals unless they are poised and at peace, for the same reason that the medical doctor does not allow a mother to nurse her child if she is subject to fits of anger, depression or distress, because the milk would poison the infant.

Inharmonious Energy an Atomic Bomb

The magnetic center of the atoms is the LOVE OF GOD, and an atom smasher, with all its powerful dynamic pressure, can only release the electrons in one atom, whereas the energy in the emotional body, passing through the atoms of the physical form, completely shatter the magnetic pole within the atoms that make up the body, until you have the disintegrated forms manifest by the human race, after thirty years of age.

When one comes to an understanding of the Law of Life, he or she must realize that EVERY ATOM IN THE BODY, revolving around a core of love, IS AFFECTED BY EVERY EMOTION which sets them off center and it delays the progress of the lifestream and more quickly brings disintegration and death. Harmonious energy strengthens the magnetic center and brings eternal youth, harmony and health.

THERE ARE NO INANIMATE OBJECTS**By the Beloved Maha Chohan**

The heart center of God "I AM" is in constant motion and fills the entire universe with a rhythmic vibratory action even as your body breathes in and out in a steady pulsation of life. The Godhead himself sends forth that radiation to the periphery of the universe, and the entire universe (being his body), every electron within that universe, feels every pulsation from his cosmic heart and should vibrate in like manner were it not for the qualification of that energy by the individual lifestream. To understand the power of radiation one must enter the fourth dimensional activity where the unseen but powerful rays are constantly vibrating from their manifestation of the God-life, "I AM."

THERE IS NO PLACE IN THIS UNIVERSE WHERE THERE IS NO MOTION OR NO VIBRATION, JUST AS THERE IS NO SUCH THING AS AN INANIMATE OBJECT. Each electron which composes every atom, visible and invisible, is pulsating with the heartbeat of the creator of all, and the vibratory actions of those electrons form what you know as radiation. Groups of electrons and atoms which are drawn together in a blade of grass, a tree, or a man, are constantly emitting a pulsation of energy which is the radiation of that particular object or being. The blending of these various vibratory rates in the divine scheme of things provides one great and natural whole.

The "atmosphere" is formed by the rhythmic pulsation of the Earth, Water, Sun and air. The radiation from the grass and the foliage is provided as a restful outpouring to accel-

erate the evolution of man. Every manifestation in the entire nature kingdom is governed by my lifestream and that of the intelligences devoted to this particular service, and all such radiation in itself is beneficial and constructive, or if temporarily destructive, requires re-education.

Man's radiation is the result of his free-will, and the quality of the release has fallen far from the original intent of the divine plan for the universe. The malefic radiation in the world today is the result of misqualified God-energy released through individuals who know not how or care not to permit pure energy to flow through their lifestreams for the benefit of all life everywhere.

You can readily see that, in order to manifest the divine perfection of the golden age, man must assume his proper place in God's kingdom and let the divine energy flowing through his bodies go forth to perform their cosmic service.

Be assured, each one, that your loving calls for the upliftment of mankind are heard by the Ascended Host of light, and our energy returns to bless you, making the calls, and to bless the Earth.

"DEAD" PLANETS**By Beloved Aries**

Whenever the directors of the air element and the sylphs under their command withdraw from a planet or star (according to the direction of Cosmic Law), you soon have a "dead" planet and even plant life cannot live upon it. IT WAS JUST SUCH A COSMIC CRISIS WHICH THE EARTH FACED WHEN BELOVED SANAT KUMARA INTERCEDED ON BEHALF OF THE EARTH AND ITS EVOLUTIONS.

All through the universe you can see drifting those "shells" which were once planets and Stars, from which have been consciously withdrawn the Directors of the Forces of the Elements and the elementals who serve under them. These "shells" of former planets and Stars finally disintegrate into cosmic "dust" and return to the universal. There, the electrons which made up the former planet or star may be repolarized and returned to the particular Sun from whence they originally came. From there they are sent forth again at a later time to help create and sustain some new constructive creation which will benefit the evolutions of the galaxy or system which has been chosen for such blessing.

ENERGY AND VIBRATION
By the Beloved Maha Chohan

VIBRATION AND RADIATION ARE CO-EXISTENT WITH FORM. EVEN A BLADE OF GRASS, A FLOWER, A ROCK, A TREE EMITS, UNCONSCIOUSLY, A RATE OF VIBRATION WHICH AFFECTS THE COSMOS AS A WHOLE, AND WHICH, MIND YOU, BY THE UNDULATION OF ITS ENERGY, REARRANGES THE ATOMS OF THE ENTIRE UNIVERSE. Thus, all life is constantly contributing to a changing of the actual center of the cosmos. This law applies to the Ascended Host as well as to men evolving on the Earth's surface, and even to the Godhead, itself.

The idea that the higher octaves are in a state of utter peace and rest has arisen from the fact that ascetics who have, through contemplation, temporarily loosed their consciousness from the moving sea of vibratory action of the lower realm and contacted the higher realms, found the contrast between the two so great that, in endeavoring to give worded expression to their experiences, they have conveyed the impression of a static state as against the low vibration which forms the atmosphere of Earth; thus often are truths falsely garbed through human misapprehension. The peace and quietude of the higher octaves is described by the mortal mind as a place where vibration does not exist because the vibration of the outer mind means noise and motion and confusion. Let it be here set forth, therefore, that the ecstatic bliss of Nirvana, which is the aura of the Universal First Cause, is a vibratory action and not a void.

THE UNIVERSE, ITSELF, IS FILLED WITH ELECTRONIC LIGHT, WHICH IS INTELLIGENT. THESE ELECTRONS HAVE THE

POWER AND CAPACITY, WITHIN THEMSELVES, TO RECEIVE DIRECTIONS, AND, BY THE EXERTION OF THEIR OWN INTELLIGENCE, PERFORM THE NECESSARY ACTIVITIES REQUIRED TO MANIFEST THOSE DIRECTIONS.

Within this universal light substance, which fills the universe from the heart center to its periphery, are self-conscious beings who alone have the power to set this electronic light substance into motion. THE INTELLIGENCE WITHIN THE LIGHT SUBSTANCE DOES NOT ACT UNTIL SET INTO MOTION BY A SUPERIOR POWER—A THOUGHT AND FEELING FOCUS ENDOWED WITH GOD-AUTHORITY. The electronic light would remain in the unformed state if some God-intelligences did not charge into it a direction for pattern and outline.

These individualized foci of intelligence, who are the motivating power behind creation are the God-Beings (Masters). Mankind also is endowed with the capacity to rearrange electronic particles; therefore every individual is a student in the classroom of life.

Any individual, no matter how ignorant or untrained, endowed with a thought and feeling principle, is a conscious or unconscious influence upon the distribution and arrangement of the electronic substance of the universe in which he finds being, and it is for the purpose that he may consciously cooperate with the design of the Godhead, that mankind is now being trained. This conscious control of the electronic substance, in accord with the God plan, lies within the evolution of both his intelligence, and his capacity to embrace the God-consciousness. Meditate, my children, upon the power

of the spark of God that lives within your hearts. Consciously place the problems that beset you in the Transmuting Flame of its Presence. Surrender your human will to its guidance, and say with Jesus, "Not my will, but Thine be done." Then you may also say, "Whosoever seeth me, seeth the Father."

If man could even partially comprehend the Law governing energy and vibration, he would be in a fair way toward self-mastery. As we have said before, there is no such thing as a being without vibration and radiation. Man is in training and he will come one day to a realization that the power to create vibration is not only a responsibility, but an *opportunity* by which mastery and divinity can be experienced through the individualized ego.

For millions of centuries, man, by accepting individuality, has created vibration, which moved from the center of his being to the periphery of the cosmos, and is constantly, throughout the entire course of his individualization, affected by every electron within that cosmic orbit, to some degree. JUST AS WHEN YOU DROP A PEBBLE INTO THE CENTER OF A POOL YOU SEE THE EDDIES GO OUT IN EVER-WIDENING CIRCLES UNTIL THEY REACH THE PERIPHERY, RETURNING AGAIN TO THE CENTER—SO EVERYTHING WITHIN THAT POOL IS AFFECTED BY THE VIBRATIONS CAUSED BY THE ACTIVITY AT THE CENTER. From the very moment man took being, the electronic light, in obedience to the decree of the Father, became his servant.

When the vibratory action that he set into motion reached the periphery of its circle, it began its return journey back INTO HIS OWN EXPERIENCE and the bombardment of

the returning light sent back from the sounding board of the universe became that which is known as karma—the more positive and intense the individual, the more powerful the vibration and its amplification back into the lifestream, whether the outgoing quality was good or evil.

As the vibratory action around him became more and more chaotic, desire for knowledge and a way and means of finding peace arose within the heart. Then the man became an applicant for Godhood, and it is at this point that the training of the lifestream began. The intricacies of vibration are such that I could spend a full week in illustrating the tremendous impact of one individual on the universe, each organism within the body vibrating and emitting certain energy waves that contribute to the light or shadow of the planet. Thus, the body elemental alone affects the passion or the aspiration of every incarnate soul. Then the soul has a vibration which, when awakened, is a powerful force for good, for every seeker—no matter how confused the search—affects the consciousness of ALL INDIVIDUALS.

Then the mind tunes in and vibrates, according to its choice of material, affecting in turn all the mind-stuff in the universe, and so we could go on and on in amplification of the powers of vibration— unconscious vibration, that is. Now, we come to the opportunity of consciously directing into the universal light a vibration that would be of beneficent interest to the universe. The mind, the heart, the intelligence can be incorporated into this experiment: Visualize electronic light—unformed—with every electron, receptive, obedient, alert, waiting for your message. Then set up a vibration consciously in your feelings. See the energy waves

pass out from you in ever widening circles and the obedient electrons start into motion. Choose, if you will, a particular quality or a blessing that would benefit the race.

It is a beautiful pastime for spending an hour of relaxation and is a wonderful treatment for the body, the nervous system and the soul. First, one must experiment with the mind, the heart, the feelings, and later the ganglionic centers can be trained to send forth these vibrations even when the conscious mind is busy with other matters. The untrained people of the world do this unconsciously in the sending forth of Christmas and Easter blessings.

RATE OF VIBRATION MAKES DIFFERENCE

By the Beloved Maha Chohan

Allow me to call your attention once again to your individual responsibility for that which comes into your life-experience and the absolute importance of controlling your thoughts and emotions.

The Threefold Flame in your heart is constantly pulsating into the universe the energy of life, and the quality imposed upon that energy by the outer self is the responsibility of the individual. ENERGY, AS YOU KNOW, TAKES ON QUALITY THROUGH THE CONSCIOUS DIRECTION OF THE THOUGHTS AND FEELINGS OF THE INDIVIDUAL. This energy or light substance animated by the Holy Spirit is the primal essence of pure divine love from which all can draw without limit.

When discord manifests in any facet of an individual's life, it means that the energy, which should be pouring forth harmoniously in love (which is the keynote of the universe), has been changed through conscious or unconscious effort into this discordant appearance. In other words, its rate of vibration has been changed, it has been lowered.

Energy is the same in love and in hate, in fear and in confidence. It is the rate of vibration that makes the difference in its quality. Therefore, blessed ones, not one of you can say that you are without love, without confidence, or without faith, for, by pouring primal light or love into hate, or fear or lack of confidence, you quicken the vibration of that quality and change it into a constructive expression. When these truant thoughts try to impinge upon your consciousness, call at once to the Master of your choice to pour

his light through you; your call will be answered; your light expanded through every cell of your body and you will walk in joyous freedom seeing the Christ in your fellowman.

You have been told that when you create a thoughtform you create a cup. This cup is then filled with the substance of the universe that vibrates at the same rate as the original thought pattern; so you see how your thoughts affect your individual life. Whether a student reads truth literature, gives his attention to what is said on radio or television, or reads a trashy book, immediately the process of creating thoughtforms takes place in the outer mind, for every written or spoken word contains within itself a mental picture and a corresponding thoughtform is exuded from that individual.

It would be wise, therefore, to consciously create thoughtforms either of the Masters, the angelic host, or any expression of beauty, as well as of abounding health, strength, and prosperity. These cups will immediately draw the substance of the universe from the hearts of the Perfected Ones and will become part of the enriching environment in which the student dwells. They will also be a tremendous protection around him and can be a great expansion of his assets of soul and body. They can also be intelligent messengers that will carry the consciousness of the Gods to other people.

THE SACRED FIRE
By the Ascended Master Kuthumi

CHELA—Beloved Master, what is the Sacred Fire mentioned so often by the Masters?

GURU—Blessed chela, THE SACRED FIRE IS LIFE CONSCIOUSLY QUALIFIED BY SOME GOD INTELLIGENCE WITH A SPECIFIC VIRTUE, RADIATION AND ACTIVITY WHICH IS BENEFICIAL TO MANKIND.

CHELA—Beloved Master, where is the focus of this Sacred Fire?

GURU—Blessed chela, within your own physical heart is a focus of the Sacred Fire, which is an intelligence, qualified by the God-parents who created you. Within this Threefold Flame within your heart is a spark of every God virtue, radiation and activity which you can develop, nourish, expand and utilize practically in your every experience. Also, there are foci of the Sacred Fire in the retreats of the Masters in this physical appearance world, at inner levels and, of course, in the hearts of all God-free Beings.

CHELA—Beloved Master, how can a student tune into the greater foci of the Sacred Fire which the Masters and angels have developed?

GURU—Blessed chela, an individual can tune into the FEELINGS, ACTIVITIES, VIRTUES AND RADIATIONS OF THE ASCENDED MASTERS BY TURNING THE ATTENTION TOWARD ANY ONE OF THESE BEINGS. Along the beam of your own life (attention) the momentum of the Masters and angels flows back into the Sacred Fire in your own heart and begins to

expand that same, virtue, quality, radiation and activity through your own physical, etheric, mental and emotional bodies. It is a splendid practice to develop the latent God-virtues which are within your own “Spirit Spark” (the Three-fold Flame of life within your heart).

CHELA—Beloved Master, can this Sacred Fire be contacted and seen in the physical world?

GURU—In times past, when mankind were purified, the Sacred Fire was visible to the physical sight of mankind. Various specialized, qualified foci of the Sacred Fire have been drawn into the physical world and the very sight of these magnificent flames gave faith, courage, confidence and strength to the devotee seeking added assistance through pilgrimage to the foci where the Sacred Fire was established. These days are to come again. They are a part of the new Golden Age, when temples of the Sacred Fire will be erected and certain dedicated lifestreams will magnetize and sustain the presence of the Sacred Fire so that all who so desire may have the blessings of their radiation.

CHELA—Beloved Master, presently, the Sacred Fire is not visible to the student. Why is this so?

GURU—Blessed chela, this is so because man has created about himself a shell (aura) of slowly moving energy and, looking through his own atmosphere, he is unable to perceive the glory of the kingdom of Heaven, which beloved Jesus said IS AT HAND. Also, the present students have not drawn through their flesh bodies the luminous rays of their own immortal Threefold Flame. This too will be done in the future and every chela and student will be a manifest temple

of the Sacred Fire through self-luminosity of the flesh and the glorious aureole of color in the aura. At present, mankind is so intent on leaning upon outer form, that the tendency would be for him to turn toward the visible presence of the Sacred Fire OUTSIDE HIMSELF rather than turning to the focus of the Sacred Fire INSIDE HIS OWN HEART. This would result in a delay to his individual progress made possible by his consciously and persistently turning back into the flame within the heart. This latter procedure stimulates the soul evolution which we seek to develop.

CHELA—Beloved Master, does the Sacred Fire have more than one form of expression?

GURU—Blessed chela, the Sacred Fire has many forms of expression, dependent upon the specialized virtue, activity and service which it is to render. It is one reason why our Lord Maha Chohan has been teaching you to create “forcefields,” specialize upon one activity of cosmic service and generally prepare yourselves to be guardians of a specific focus of the Sacred Fire, whether it be protection, healing, mercy, illumination, faith, comfort, love or any other God-virtue and God activity.

CHELA—Beloved Master, how can a sincere student find his way into the Sacred Fire within his own heart?

GURU—Blessed chela, again, I repeat, THROUGH ATTENTION UPON THIS FOCUS, acceptance of its reality, invitation to its presence to act through the outer self and sincerity in invoking the Masters and angels who are specialists in that particular virtue which the student or group desire to magnetize and radiate for the blessings of all life.

CHELA—Beloved Master, is the focus of the Sacred Fire within us “the Secret Place of the Most High” referred to by King David in the Psalms and is it the “kingdom of heaven” which Jesus taught is within us?

GURU—Blessed chela, truly you have spoken. In all religions, the spirit of God is thus referred to, although perhaps it is in different terminology, that spirit is always spoken of as being anchored within the heart of each one's being.

(NOTE: A “chela” is *much more* than a mildly interested reader and seeker after truth. “Chela” implies an individual whose life is WHOLLY DEDICATED to the Masters' cause and service, and worthy to be entrusted with more than ordinary power and assistance from the Ascended Being.)

ATTENTION AN ACTIVITY OF THE SACRED FIRE
By the Beloved Maha Chohan

The faculty of your attention is an activity of the Sacred Fire, a power delegated to your use for the enrichment of your nature, to increase your capacity to serve God and man. Your attention then is one flame of that Sacred Fire, and if you visualize it as such, you can direct it with tremendous results toward your own God-Self, to any Cosmic or Ascended Being, or any place in the solar system from whence you desire assistance, illumination, peace or healing. That flame of your attention being part of the Sacred Fire connects immediately with the object to which it is directed. It forms a definite contact with all conscious substance, feeling and power of the Being toward whom you have sent the beam of your attention.

If you were to turn the beam of your attention into the physical sun, and spend undivided, thirty minutes or so, just contemplating the perfection that is there, there would ride back over that beam, light particles which would renew and rebuild your inner and outer vehicles into perfect health, vitality and well being. When the Master's attention is upon you, he is using the Sacred Fire. His attention is drawn to you the instant you think of him; therefore you have the Sacred Fire in action during the time of your contemplation. This forms a perfect connection over which his gifts and substance may ride.

If you will experiment with this you will be amazed and delighted at the physical and emotional results and relief that such treatment will bring. The Master treats not only

the physical but the inner vehicles, sweeping off into the Sacred Fire the heavy substance in the emotional vehicle particularly. If you could visualize sheets of flame passing through the emotional vehicle in soft delicate pink and gold, you would find the ease and peace that would make the acceptance of physical assistance much easier than when you are taunt and tense which often happens in personal application.

MIND LIKE A MIRROR
By the Beloved Maha Chohan

Examining the emotional bodies of my chelas, who now have an understanding of the Cosmic Law beyond the point of theory, I find by checking and balancing the mental and emotional bodies, one with the other, that there is little belief that the hopes of the heart and mind may become fact. This shows a little discrepancy in the application of the earnest chela, FOR THE VARIOUS VEHICLES SHOULD WORK TOGETHER AS DOES A TEAM OF HORSES, following the desired God design of perfection into the physical substance of the Earth plane, and thus release the manifestation prayed for and desired by the heart.

The mind is like a mirror in which is reflected the beauty and goodness of the world around you which you have seen and accepted as part of God's glorious kingdom. The mind was created to be impressed upon by the I AM Presence and Holy Christ Self with that part of the divine plan which should manifest at a specific moment.

Often when the outer mind has received an inner God impression the intellect says, "it is impossible." Therefore you have an almost constant rejection of that part of God's kingdom which is ready to manifest in the physical appearance world. The Holy Christ Self has the entire blueprint of the lifestream, or as you call it, the divine plan. The major duty of the Holy Christ Self is to produce the divine plan through the individual lifestream. When the chela has purified his vehicles through the Violet Transmuting Flame, portions of the divine plan are released for the benefit of the

individual and the world at large. Some individuals have received great and beautiful visions for their country and for the future world, but for the most part because of certain weaknesses in holding the God vision, they have failed to bring these into manifestation. HOLD THE VISION, that perfection in which there is no selfish intent. Seize on the inner vision, dear ones, and make the application, without tension but with intensity, until that which you have gazed upon within your heart is manifest as easily as we choose to manifest flowers on the Earth's surface.

THOUGHTS ARE THINGS
By the Beloved Maha Chohan

Energy forms pictures. Every utterance makes a picture at inner levels. If you speak the word “book,” immediately there is outpictured the type of book you had in mind. Each person who speaks the word “book” sends forth a different pattern, for the externalization is made up of the energy of the transmitter, carrying the pattern of his electrons.

If an individual has a chalice, a flower, or any of the myriad forms which are the electronic pattern of his energy, that pattern will compose the form of the uttered expression.

Now we know that the mental vehicle formed the picture, but it was the feeling, or emotional vehicle, which actually propelled it forth. Thought must be coupled with feeling in order to express. Since the form which is sent forth is clothed in the feeling of the sender, if there is anything of an inharmonious or destructive nature in the expression, that will add to the mass entity of imperfection, for there is no separation, each seeks its own level, good or otherwise.

Perhaps you can now better understand why we continually admonish you to hold the harmony and clothe your energy in pure divine love, so that there will not be all manner of tiny patterns flowing into the universe which add to the accumulation or imperfection which you, and we of the Spiritual Hierarchy, are devoting our energies to remove from this Earth. Remember “Thoughts are Things.”

THE BEAM OF YOUR ATTENTION**By the Beloved Maha Chohan**

Oh, how the mankind of this Earth has misused the gift of free will endowed upon them by the Father-Mother God for the expansion of the kingdom of heaven. This improper use of the electronic substance, given so freely to man, has resulted in the unhappy manifestations and chaotic conditions in the world today.

At the time an individual becomes conscious that he is an intelligent creative being and has within his own being the magnet by which he may draw the universal light and mould it into form according to the dictates of his thought and feeling processes, at that moment he becomes a conscious co-creator and worker in the establishment and maintenance of God's kingdom on the Earth.

The universal light substance, as you are aware, must be obedient to a command of an individualized facet of the Creator, and even when the lower self is at the controls, it must outpicture what is stamped upon it. All light and life is in the process of evolution and when the universal substance is molded into something of beauty and perfection, it proceeds to quickly fulfill the edict and thus furthers its own evolution, for all life must expand in dignity and perfection to carry out the plan of the Father-Mother God.

Now, here is a point where your individual consciousness enters, for what you entertain in your thoughts and feelings outpictures in obedience. How much more rewarding it is to you, personally, to rise on the beam of your attention and bow to the God Power Almighty residing within you, and

there in adoration, dignity and harmony mould the perfect patterns which are required for the expansion of the kingdom of heaven on Earth?

Thus you become a precipitating power of all good which is the divine edict for your individual lifestream to fulfill the plan for the perfection which shall manifest upon this dear Earth. You are doing exceedingly well at this stage in your evolution and I counsel you to be ever on the alert for what you entertain in your consciousness.

EVERY INDIVIDUAL A QUALIFYING POWER**By the Beloved Maha Chohan**

When a man chooses to enter the schoolroom which would enable him to become master of energy, through his conscious will, he must understand that the electronic light substance which fills the universe is intelligent and endowed with power to respond to the cohesive vibrations set up by the individual through the qualifying power of his own life. Every individual, divine and human, is constantly using this power of qualification to color the magnetic powers focused within his lifestream. The natural magnetic power within life is sensitive to the conscious or unconscious qualification which the consciousness of the individual places upon it, as it flows through his spinal column and energizes his world.

Because the general thoughts and feelings of the individual form the natural tenure of the qualification, the electrons that are being drawn toward the lifestream correspond to the quality of the magnetic power within the individual's world. As no individual lives in a vacuum, he is surrounded by and indeed embodies electronic light. This light is not quiescent, but in constant rhythmic motion is flowing in and out of the lifestream and his aura.

The tremendous and rapid motion of this infusion and expulsion of electrons makes each individual a battery of centripetal and centrifugal force. The electrons that are thrown off from the individual represent his responsibility to the universe, and the electrons that are drawn into his individual orbit represent his life experience, his environment and his world.

Until man is absolute master of the qualifying power within his magnetic center, his world experience is subject to many changes, and is spasmodic in its happiness and depression. But, when the magnetic power within him is qualified to draw only that portion of the substance in the material world that vibrates with harmony, beauty, symmetry, health and peace, the selective power within this magnetic force automatically repels the vibrations not in sympathy with it and it can attract electrons from other stars which will complement its vibration.

THE SPOKEN WORD
By the Beloved Maha Chohan

THE SPOKEN WORD IS THE CREATIVE POWER OF GOD, THAT MOULDS THE UNIVERSAL LIGHT SUBSTANCE INTO FORMS SIMILAR TO THE CUP which the spoken expression creates, whether it refers to persons, places, conditions, or things.

The Holy Breath is within the word. The consciousness of the individual is charged and surcharged with distorted forms through the misuse of God's energy in speech. In the same manner, if the spoken word is peace-giving and harmonious in its expression, the consciousness takes on an added glow of light, and the individual becomes a comforting presence to all he or she contacts. DECREES WERE CONSCIOUSLY PRESENTED TO MAN'S INTELLECT AS A BALANCE FOR THE MISUSE OF THE SPOKEN WORD, AS WELL AS FOR THE IMPURE SILENT THOUGHT, PRODUCED THROUGH THE CENTURIES OF EMBODIMENT.

In order to shatter these distorted cups, one needs energy vibrating at the same rate, but constructively qualified. In other words, it is policy to "break a cup" created by wrong speech by a vibratory action of correct speech rather than by mental force. Secondly, the constructive decree, which is always an invocation to a member of the Ascended Host or to your own Presence, becomes a cup that the Masters or your Christ Self can fill with their light substance, which creates a pulsating vibration in your consciousness of a quality and activity for manifestation that will bring more of the divine plan into expression. Thirdly, the spoken word,

vibrating at the low rate which can be heard by the physical ear, is more easily conducted through the mental and feeling worlds of incarnated spirits, setting up forms of a constructive nature in their bodies and auras, whereas the finer ethers of mind substance would, by reason of the bodies' density, pass around them unfelt and unnoticed.

ONE OF THE RULES OF THE GREAT WHITE BROTHERHOOD IS NEVER TO PICTURIZE AN INDIVIDUAL IMPERFECTLY. Every lifestream is endowed with the birthright of perfection. God, the Father, created everyone in HIS OWN IMAGE AND LIKENESS, and decreed perfection as the natural law of their beings. When an individual recognizes imperfection in any other lifestream in the universe, he is dishonoring the will of the Father, who created all. Every person, through thought, feeling, and the spoken word, emits energy and substance from his lifestream, and when the substance and energy is charged with a picture of imperfection, driven against another individual through the channels of thought and feeling and intensified by the spoken word, it forms a film or coating around the one to whom the force is directed.

This seeks to cover up the divine image which God intended, and makes a tremendous karmic link, which can only be obliterated by powerful decrees or the use of the Sacred Fire by the sender of the destructive energy. All mankind are condemned by one another, but when an individual becomes a conscious chela, he must learn to think as the Father does about his creation.

ENERGIES OF I AM PRESENCE ACCESSIBLE**By the Beloved Maha Chohan**

The great energies from the Mighty I AM Presence of every lifestream are as accessible as is the water in the faucet, which by a certain motion of the wrist is turned on to serve its purpose, and which gives the fullness of itself according to the nature and requirement of the moment.

From the heart of the great Presence of Life streams that electronic beam of light essence into the human form which animates the body, supplies the intelligence in the brain by which all outer activity is maintained, and which provides sufficient life in the various organisms for the soul to secure certain life experiences required in the world of form. But the great abundant energies of the God-Self may be drawn on without limit by anyone aware of the Presence and by tuning into it in silent contemplation. This Presence can open the flood gates of light which will flow in and around the body in a steady stream of electronic force and bathe not only the physical form, but the inner bodies in a radiant bath of energizing, healing, life-giving force, which is far more potent and lasting than any temporary stimulant of the third dimensional plane.

It is the wonder of the host of heaven that earnest and sincere chelas utilize so little of the electronic substance which is an actual stream of pure life and light, which can be released at will, just as if you threw open the doors into a brilliantly lighted room and stood in the streaming light that would pass from the room through the silhouetted figure on the threshold.

BECOME A LORD OF THE FLAME**By the Beloved Maha Chohan**

The living Threefold Flame which beats your heart is the motivating agent of the primary substance of life which creates within you the Sacred Fire of creation. In your meditation stand reverently before this holy tabernacle within which this flame abides.

This Sacred Fire which you use so freely (and often unthinkingly) in your thoughts, feelings, your worded expressions and actions, understanding and reverencing its presence, is not mystic nor magic. Your human creation is qualified life imperfectly qualified through thought and feeling. The Sacred Fire of cosmic and constructive creation is the same life qualified with harmony, wisdom, healing, peace and supply unlimited.

Each student must become a Lord of the flame through the use of the flame in his own heart and learn to send forth constructively qualified energy to fill his aura, and then the world around him with light.

You have individually, dear hearts, made such excellent progress in the time during which we have been so closely associated in these recent years, that today I feel I can talk to you intimately. I suggest that you ask yourselves, what are you contributing to the universe, depression, confusion, shadow or harmony, wisdom, healing, peace and supply of every good thing? Start each day resolved to bring peace and harmony wherever you move. Remember the power to do this is given you by the father of all and anchored within your own heart. Let this loving life flow in, through and

about you as easily as you turn the electric light switch to illumine a room. God, through you, has chosen to express some particular manifestation of himself on this Earth, to release a perfume from your being as a comfort to others in need, some sacred manifestation of love which only God and your own I AM Presence know can and should be externalized. Remember, some part of the divine plan is hidden within you, which has never been fully expressed in this evolution; for all is one, yet all different in expression.

Let us now be practical in the application of this knowledge. Every electron which enters your heart through the silver cord from your own I AM Presence becomes your responsibility. It flows out through your four lower bodies into your world and eventually returns on the Law of the circle to you. Therefore, let every thought, feelings, word and deed be bathed in love and in the faith that, through the power of God's life within you, you can do all things well. Renounce all doubt, stubbornness and false appearances, and know that you are not alone and that you are or can be master of the conditions affecting your life on this earthly plane. I call to Sanat Kumara and all the Lords of the Flame to help you to cognize and utilize the God power now!

In the name of love, life and faith I thank you for your endeavors and I bless you for endeavoring to utilize this instruction for your own mastery and the ascension of the planet Earth at this time!

EXPRESSING THE LAW OF HARMONY**By the Beloved Maha Chohan**

When a chela takes a real interest in the vibratory action that he allows to pass through his bodies, a state of great harmony and beauty will be expressed within his lifestream.

The garments of the Ascended Masters, the angelic host, the cherubic and seraphic guard are ever growing finer and more beautiful as the energy pouring through the electrons is ever charged with more light, love and balance. The Master Jesus, who ascended many centuries ago, is a far more majestic figure than at that time.

As above, so should it be here below, and the lifestream who has attained to maturity should be more beautiful and exquisite in face and form as the years go on, and so shall it be in the days that are to come. For an individual with a conscious knowledge of this law, it would be a glorious experience and manifestation if even a few would choose to experiment with the law of harmony and allow us freedom to create bodies such as have never been seen on this Earth since it was created.

The Holy Christ-Self of each lifestream is as beautiful as the most perfect angelic being that you could conceive of, and the individual Christ Self will duplicate that beauty through any flesh form who so desires it, with a little cooperation and conscious study by the personal self.

ONE HEARTBEAT
By the Beloved Maha Chohan

As all the mankind of Earth share one air, one sun, one light, one water and one Earth, so do they share in a mystic manner a pulsation which forms the heartbeat, both of their I AM Presence and their outer self.

When the Great Central Sun and Helios and Vesta established a humanity upon the Earth, a great expulsion of energy was sent forth which formed a stream of rhythmic pulsating fire which, like a cosmic bellows, fanned every beat of the human heart. This is why it is said that mankind has but one heartbeat in common.

The natural cosmic rhythm of life which flows like the bloodstream through the human body is tapped by every human being who wears a garment of flesh and so long as the universal rhythm moves through the inner realm of life, so long will such a lifestream have an opportunity to draw upon the limitless life and pass through the experience which will one day result in victorious mastery.

As the pulse of the human body is disturbed at various times by fever and disease, so does this cosmic pulse beat on certain grave occasions begin to weaken in its flow and at these times of cosmic crisis, the Hierarchy dedicated to the service of mankind perform a cosmic "transfusion" wherein they give of their own pure essence of energy to re-vitalize the cosmic energy current lest the entire race perish by reason of its own self-created iniquity.

The presence of the great Sanat Kumara and all suc-

ceeding Avatars, including the Master Jesus, gave tremendous assistance to the sustaining of this universal mystic current. Today, as we come to the final initiation of the planet Earth, we are again faced with this “cosmic fever” which affects the rhythm of its current in a very serious manner. Every unascended being who draws on this current may also feed it, if they will, by pouring back through it the substance of their own life, love and faith and light, which makes it flow stronger.

This is the service that the Hierarchy is rendering at this hour and to which we call the assistance of all sincere and earnest students who are desirous of working in the establishment and sustenance of a kingdom akin to the heavenly realm of the Ascended Masters' State.

YOU ARE CONSTANTLY RADIATING**By the Beloved Maha Chohan**

Radiation is a marvelous subject for contemplation! Every manifest expression in the entire universe, from the smallest molecule to the Great Central Sun, itself, is a radiating center of one kind of vibration or another. When you stand near a heat radiator in the winter, you feel the heat, although your physical sight, as a rule, does not see the substance that makes up the heat waves. You have felt the light and warmth from the physical sun in summer, and have enjoyed the fragrance of flowers, as well as the pleasing aromas that radiate from the food being prepared in the kitchen. All this is an activity of radiation.

ALL PEOPLE RADIATE CONSTANTLY AND THE SUBSTANCE THAT IS EMITTED FROM THEIR VARIOUS BODIES AFFECTS ALL OTHER PEOPLE, EVERYWHERE ON THE PLANET. We are endeavoring, now, to bring every man, woman and child to a place where the radiation from their bodies is harmonious, restful and peaceful, so that their lifestreams, when they are in contact with each other, are uplifted, balanced, and enriched.

If you will remember that what passes from your body in thought, spoken word or feeling, affects all parts of life on the planet—men, women, children, animals, plants and vegetables—either for good or evil, you will, I know, endeavor to express and expand only that radiation which is as comforting and which is as healing as the light from the sun.

THE PLANET, AS YOU KNOW, IS PASSING THROUGH A VERY DANGEROUS AND CHAOTIC PERIOD, AND IF WE COULD

DEPEND ON YOUR OUTER SELVES TO HOLD A CERTAIN HARMONY, WE COULD USE YOU WITHOUT LIMIT IN DELIVERING THIS BEAUTIFUL EARTH FROM DESTRUCTIVE ACTIVITIES AND EXPRESSIONS.

From the heart of the Presence of each one of you, beloved ones, comes a stream of electronic light, which finds anchorage within your physical heart and forms there a pulsation of flame, which has been referred to as the Threefold Flame of God.

From that flame within your heart there passes through all your bodies the electronic energy by which you live. That energy is the God-power that governs the universe, and that animates all living manifest form. Within that energy, which flows from the heart of your Presence, is the power of life eternal and the only healing force in the universe. THERE PASSES THROUGH YOUR BODIES, EVERY SECOND, ENOUGH OF THIS ELECTRONIC FORCE FROM GOD'S HEART TO HEAL AND COMPLETELY FREE YOU AND ALL MANKIND FROM EVERY MANIFESTATION AND EXPRESSION OF DISTRESS. You must, beloved children, like the rest of mankind, learn the power that is within your own life. When that power is allowed to unfold it will manifest through you in the fulfillment of your every heart's desire, and you will find yourself to be a perfect expression of the Godhead.

PROPER USE OF LIFE'S ENERGY**By the Beloved Maha Chohan**

You have heard and read of the Cosmic Source of all life, and have contemplated that source as your I AM Presence. You have felt that source surging through you as the breath of life.

The Holy Spirit of God is the animating principle of life, and as representative of the Holy Spirit of the Earth, I stand as the cosmic dispenser of every atom of electronic energy which fills this universe in cosmic rhythmic waves. There can be no interference with this rhythmic pulsation, for all that lives depends upon the careful and steady release of this life energy through my own body.

Man cannot comprehend the tons of cosmic energy which are released into this universe hourly, and freely dispensed through the lifestreams of mankind. THIS ENERGY IS THE LIFE OF GOD! It is my joy and responsibility to draw that life and send it forth in rhythmic pulsation through mankind, the nature kingdoms and the planet itself.

My concern is to teach man the proper use of this life in thought, word, and deed that he may unfold according to his divine plan. As he must render an accounting for his use of life, so am I responsible to the Father for all of the energy that is used on this planet, and I MUST RETURN IT ONE DAY IN THE SAME PURITY WITH WHICH THE FATHER GAVE IT TO ME.

You can realize, therefore, how eager and desirous I am to have these chelas in physical embodiment become con-

scious co-workers with me in the “Cosmic Powerhouse” of the universe. My service is manifold and unlimited, and my gifts without number and without price. I can offer without limit the substance and energy for those who will be constant, ceaseless, peaceful, radiant physical expressions of my life and love.

As you attend to your mundane affairs, by your every loving thought and kindly word or deed you render my service amongst men. When you speak, “In the name of the Holy Spirit which is within my heart” the life-energy of the Father rushes forth to fulfill the God-command which you are issuing for the benefaction of the race, or any part of life!

CONSCIOUS CONTROL OF ENERGY

By the Beloved Maha Chohan

The spheres of activity where all self-conscious life finds a dwelling place, are determined by the voluntary use of the creative power of the God-flame which, in its very breathing, sets up vibrations or, in other words, moves the electrons of the universe and sets them into a motion, which was not present in their original, all-encompassing but quiescent state. As the motion of the musician sets the energy of the universe into vibration through the means of the physical instrument on which he plays, so does the very breath of the Sacred Fire play upon the great cosmic energy of the universe, and the universal light undulates according to the initial impulse of any particular focus of the Sacred Fire within the universe.

The universal cosmic light is like a great organ, and every man, woman and child in embodiment have access to its great pipes through the individual keyboard of their own mental and feeling worlds, each one playing into it his or her own harmonies or discords. The conglomerate sound forms the tones emitted by the planet into the universe around it, and it is truly said that the sound arising from the Earth is a cry of pain, uncertainty, weariness and questioning.

When a lifestream is individualized, he becomes an immediate factor in the vibration of his planet, and his own keyboard is never silent again while he maintains a thought and feeling body, whether he be in control of it or not.

The universal light is constantly set into motion by each lifestream's pressure, conscious or unconscious, and that is

the reason for the present chaos and confusion, as all live within this soundless sound, dissonance and chaos of the broken rhythm of the unawakened Gods.

When a lifestream considers that he cannot possibly disassociate himself from the responsibility of pressing some chord and key in the universal harmony by every breath and word, thought and feeling, he will begin to understand his responsibility to the whole, and the importance of contributing to the best of his ability some constructive and progressive notes that will be felt alike by the masses and be a welcome release and relief from the contributions of the many.

You have heard or read how Kuthumi spends the hour of noonday playing the beautiful melodies of his own heart on his organ from a certain mountaintop, but far more important than the physical tones that are carried into the universal light are the inner vibrations that he is directing consciously, steadily and without interruption into the chaos and discord of mankind's composite creation.

In an individual service and meditation, any one of mankind can sit at the cosmic keyboard, visualizing the universal light, while awaiting from his Presence the pressure of thought and feeling, and then SET INTO ACTION A VIBRATION THAT WILL ENCIRCLE THE PLANET IN LESS THAN A SECOND. Thus he can project peace, light or purity into the universal song of the people of Earth which will have a tangible and raising effect upon their natures.

And so, my conductors of cosmic harmony, I leave you now and shall await your individual master pieces.

TREATMENT OF FOUR LOWER BODIES**By the Beloved Maha Chohan**

It is always my pleasure to present to you ways and means by which you may expand your light and that of the planet and I believe the following will be of assistance to you.

The drawing of the light substance which are actual sheets of flame from the individualized Presence of God from the temples of light around the physical Sun or from the heart of some Master into the lower bodies of mankind, is a most marvelous service in easing the pressure of the tension that results from the instability of the “modern day.”

When peoples' inner bodies are at peace and ease, it is so much easier for them to accept the light of illumination and the directions of the Christ Self, which, when fully accepted, interpreted and manifested, would bring in the “new day.” Almost all peoples' emotional bodies are in such a state of tension and turmoil that it is difficult for the Christ Self to release any constructive impulses of a lasting nature.

You have seen the sheet lightning flash through and transmute the dense matter in the atmosphere, so does relief come from the Ascended Master into the inner bodies of the people, and they are washed just as the rainfall washes the atmosphere and the surface of the Earth.

While the outer selves of the majority of mankind are sleeping in the early hours of dawn, volunteers who have their consciousness awakened, could do tremendous cosmic work with them if they were to enroll themselves in a small

band of incarnate spirits who are desirous of drawing forth sustenance and expanding harmony, peace and good will. In this way you are treating your own bodies as well as the bodies of the people in your immediate environment and the bodies of a nation and a planet, and you can have a definite and positive proof of the power and powers of light released at your call in the externalized manifestations that will result therefrom.

DRAWING LIGHT INTO FOUR LOWER BODIES

By the Beloved Maha Chohan

Today we will study the mechanics that govern the inner bodies. Upon contemplation you will realize that the disintegration of the lower bodies begins to take place from the first uncontrolled thought and feeling that is allowed to break the natural harmony of the vehicles that are provided the incoming lifestream. Thus, you will see that harmony is a prerequisite to drawing light.

There is only one way for man to manifest that state which was enjoyed in the early golden ages, and that is to consciously draw the light into his four lower bodies, and that light will act similar to an electric charger as it flows into each electron causing it to spin more rapidly in its orbit and gradually accelerating the vibratory rate of the lower garments. If sustained by conscious effort this will bring the lifestream to a state wherein discord and imperfection will no longer register.

The purpose of drawing the light consciously into one's body is to increase the vibratory action of the electrons by an added charge of power. As each electron spins around the central core of the atom to which it belongs, its increased vibratory action charges the contours of the body and the processes of your thinking and feeling. When this acceleration has taken place to a certain intensity, the slower vibrations of discord, disease and disintegration can no more attach themselves to the set of vehicles attaining this state of acceleration than a turtle could mount a speeding car.

Before man comes to the place where he may join the

Gods, he must master the vibrations of his bodies to a point where they do not create dissonance in their own or another's world. If you will think before you speak and act and before you feel, it will enable the elements of your bodies to return to their original beauty, harmony and peace, because as soon as the pressure of discord is consciously controlled, the lifestream's natural state begins to establish itself, as the Holy Christ-Self returns the electrons to their natural orbits of majesty and harmony.

TRANSMUTING IMPURE SUBSTANCE**By Beloved Saint Germain**

One of the services of the Seventh Ray (The Violet Ray) is to help to sublimate and transmute the impure substance drawn into the forcefields around the electrons in the emotional, mental, etheric and physical bodies. Thus the individual redeems consciously all the energy he has drawn through the ages and used for experimentation. As in a carpenter's workshop, there are many shavings, much sawdust and other residue which result from his endeavors to produce a form of beauty, so there is in the aura (and the world at large) much residue which results from experimentation with the "tools of creation" (feelings, thoughts, spoken words and actions).

The good carpenter not only produces a beautiful piece of furniture but cleans up his workshop as well. The good, honest chela, in the process of ascending into his God-estate, has the use of the Violet Fire to clean up the residue of his experimentations with life while consciously developing his own divine nature. This is balance, spiritual integrity, and mercy to the rest of the universe. Too long have the nature kingdom and the Ascended Host continued to transmute this "residue" *for* man! Now, he has the way and means of making this personal transmutation of the energies for which he is accountable. At the same time, he thus qualifies to become an Ascended Being himself!

THE CIRCLE AND SWORD OF BLUE FLAME**By Beloved Astrea**

As I have told you previously, I chose to co-operate with the beloved Elohim of Purity, CREATING, SUSTAINING AND EXPANDING BY USE, THE ACTIVITIES OF MY CIRCLE AND SWORD OF BLUE FLAME WHICH I RELEASE AT YOUR CALL IN, THROUGH AND AROUND WHATEVER DESTRUCTIVE CONDENSATIONS OF ENERGY YOU DESIGNATE IN THAT CALL. Dear hearts, I just cannot express to you in words my gratitude for your having called to me through the years and having thus given me such freedom to act in the emotional, mental, etheric and physical bodies of Earth's people. Thus the "wedges" of impurity which have been allowed to lodge between the electrons within the atom, are being removed tonight and the purifying grace (electronic light substance) of my beloved Claire is taking the place vacated by the discord.

INTENSIFY THE ELECTRONIC CIRCLE**By the Beloved Maha Chohan**

We are determined to place before the chelas again, again and again the ways and means by which the connection and contact of the outer self with the Holy Christ-Self may be established and sustained in a manner that will make each one a complete unit of God-force.

In our early training we asked for the contemplation on the stream of light from the heart of the Presence into the human heart and we have endeavored to turn the consciousness again and again to a realization that from the stream of light, which is the energy of the Father-Mother God, and from that light alone, comes all peace, all beauty, all harmony, all love and all supply.

In this week's release I am endeavoring to bring to your attention the necessity of expanding the light and to establish the Electronic Circle, in greater intensity, which can be highly charged with whatever particular quality the individual is inclined to radiate to the people of Earth.

The Electronic Circle grows and expands and waxes strong, according to the intensity and fidelity of the call by which it is charged and sustained. It acts in the third dimensional plane as it lives around the flesh body. It is an accumulation of perfectly qualified energy, similar to the Causal Body around the Presence. The accumulated good of the lifestream standing in the Causal Body can be released by the call of the wise chela into this Electronic Circle and the rainbow rays, stored up in heaven, may become available for the use of the lifestream, while yet unascended.

Reach into the Causal Body and to draw that energy forth and CHARGE it into the Electronic Circle, building it carefully and visualizing it perfect and thus create a sphere of influence of the third dimensional plane that would be invaluable to the Spiritual Hierarchy in their service as well as for the chela's own peace, health, supply and illumination.

**ELECTRONS, ATOMS AND THE
FOUR LOWER BODIES**

Address by Beloved Jesus

The Causal Body (represented by the circles of color around the upper figure in the Chart) may be likened unto an enlarged electron. Many of those electrons, swinging around a central core, form one atom. Between each electron there is a great distance (relatively speaking). As the electrons swing within their atom, they are either expanding their light or they are closed in by the discord and substance of the astral and psychic realm, which is like forcing pie-shaped wedges between these points of light. Now, when your thoughts, your feelings and your etheric memories dwell upon imperfection, you slow down the vibratory action of your electrons and then the substance of the psychic and astral realm closes in around them, lowering the entire vibration of your four lower bodies. In this way you become an easy prey to depression, poverty, ill-health, to any number of the various negative aspects which mankind at large mirror and outpicture today.

Now, in order to quicken the vibratory action of your inner bodies, you must use that Immortal Threefold Flame within your heart and you must make CONSCIOUS EFFORT to accelerate the rate of the electrons as they move around the center of the atom. This is done through your decree work, through your songs, visualizations and applications, individually or in groups. It is done, also, by a constant vigilance over the type of feelings you allow to rest in your emotional world and the type of thoughts you dwell upon. This vigi-

lance is necessary ALL THROUGH THE DAY—not only during the hours while you are in class—at which time you are directed primarily by someone in charge, whose endeavors keep your attention above the consciousness of the mass mind.

The type of memories which you have and the type of physical environment, with which you surround yourself, also affects these inner vehicles. As you keep a vigilant watch over the activities of these inner bodies and you keep the vibratory action of each one of them up above vibrations of the psychic and astral realm, then there should be no difficulty in expanding the Christ Flame from within your heart. IF YOU ALLOW THESE BODIES TO DESCEND INTO THE REALMS WHERE DISCORD AND NEGATIVE CREATIONS ABIDE (THROUGH DISCORDANT THOUGHTS AND FEELINGS) THEN YOU HAVE AGE, DISEASE, LIMITATIONS AND DISTRESSES OF EVERY KIND AND DESCRIPTION.

Your physical body is interpenetrated by your etheric body. These are enfolded by your mental body and your emotional body. All of these are made up of atoms. Those atoms are composed of a series of electrons in constant motion, spinning around its tiny centripetal heart. Now, the quality of the atoms of every one of your bodies is constantly subject to change, to purification and etherealization, or to becoming more gross and more heavy. That is why individuals are sometimes very beautiful when they are young (around eighteen years of age). Their faces then are clear and unlined, their bodies are alive and buoyant, but after they have passed through the discordant experiences of some twenty or thirty years, you find that the vital flesh at-

oms have been lowered in vibration. This makes the flesh form less beautiful than it was before the discord was registered upon it.

Your emotional body is in a constant state of motion, as is even this seemingly inanimate lectern upon which I place my hand. Science has confirmed that THERE IS NO SUCH THING AS INERT OR INANIMATE MATTER. *Your* emotional body is made up of millions of tiny electrons in constant movement. These form the atoms.

Now, if that motion of the electrons is in accord with the rhythm of your God-Flame and is in accord with the constructive radiation of some Master, that is fine! Then your emotional body deflects all destructive feelings projected at you, as well as all the discordant energy which you contact. You are then the Master-control of all energy wherever you are! In other words, your feelings ride upon the surface of life, just as a cork floats upon the water and it requires no effort to sustain itself in that buoyant, happy state. However, if the vibrations of the emotional bodies are allowed to submerge that body beneath the buoyant poised happiness of the Master (uninterrupted harmony), the form of atom changes and you have a heavy and uncontrolled vehicle, which is part of the mass psychic and astral realm of mankind. IN ORDER TO REFINE AND PURIFY SUCH AN EMOTIONAL BODY, THE STUDENT HAS TO KEEP USING THE VIOLET FIRE THROUGH IT CONSTANTLY!

Beloved ones, you wear now consecrated garments of flesh, made up of billions of electrons, each and every one of which has known at one time such perfection in the inner

realms as the outer mind cannot conceive. These electrons are but awaiting opportunity to be invoked to give forth more of their light, speeding up the rapidity of their revolutions, as they make up each atom and then, with the assistance of beloved Serapis Bey and the Great Ones, I rendered that service in the experience of the Transfiguration. So shall it be and should be for you TODAY and every day. When those atoms and electrons are so accelerated they should remain in that state.

The “transfiguration” of the physical form follows a scientific law. It merely requires the surrender of the destructive use of one's free-will to the immortal Threefold Flame of God within the heart. At your conscious call, this flame (intelligent and all-powerful) will expand its light through the four lower bodies and, as the impurities of discord (which have been imposed upon the electrons) are sublimated by the use of the Violet Fire, the pure white light of the electron is then allowed to blaze its light freely, then meeting the blazing light so released from every other electron, the inner and physical bodies just naturally radiate light!

AN ELECTRON DESCRIBED**By Beloved Zarathustra**

Within that electron is the pattern of your life. That means that everywhere that electron goes, once it has been magnetized and directed through your Holy Christ Self into the use of your personal self and its vehicles, everywhere it goes it carries the brand and stamp of your self conscious invocation for use of light. **THOSE ELECTRONS, WHEN THEY ARE CLOTHED IN FORM BY THOUGHTS OF A DISCORDANT NATURE, WHEN THEY ARE CHARGED WITH FEELING AND MOVE OUT INTO THE PSYCHIC AND ASTRAL REALM, ARE PART OF YOUR RESPONSIBILITY AND MUST BE REDEEMED THROUGH DRAWING THEM BACK INTO YOUR OWN WORLD AND SENDING THEM BACK PURE AND PERFECT INTO YOUR CAUSAL BODY, WHERE THEY BELONG.**

Look at this electron. It is primal life, with your name written upon it. It is life you have applied for. It is life that you have drawn pure, shining, iridescent, magnificent from the pure heart of the Sun! Within that electron, even within a drop of blood of your body, within that electron is the pattern of the Godhead, of the White Fire Body, of the Electronic Body and all the power and powers of the Sacred Fire in this universe quiescent! It is like a beautiful drop of water, except that it is individualized by the stamp of your light **pattern**, which may be a flower, a glorious Maltese Cross or an open lotus.

The electrons magnetized by the I AM Presence are destined to be magnetized by the immortal flame within your heart. On their journey they should not be interfered with by

the motion of the emotional body, the mental body or the etheric body. Silence, silence, silence the vibratory action of the feeling world, the mental world, the etheric world and the physical body, giving back to God primal life, to use as it directs! Those electrons magnetized by the I AM Presence and entering the Holy Christ Flame within your heart, are your “rod of power,” your scepter of dominion and authority,

In the silence of those vehicles, you can visualize and feel the stream of electrons expanding the Presence of God within your heart, making that immortal Three-Fold Flame of Life grow, to mature and to become the Master Presence of primal life!

Then, then comes the activity of the priest or priestess of the Sacred Fire, in qualifying life, for the Sacred Fire is but consciously-qualified primal light directed forth for constructive intent, through the free will consciousness of the God within the heart! Is that so difficult? Is it mysterious, occult?

"CAUSES AND CORES" – LIVING ENTITIES**By Beloved El Morya**

Speaking on the subject of “causes and cores,” upon which you work so much here, individually and as a group, have you thought about the picture you hold in mind concerning this “cause and core” of anything? Looking at your inner worlds of thought and feeling as, of course, I am easily able to do, I see that, to most of you, that “cause and core” seems to you like a “dead” and “still” accumulation of substance. I see your picturization of such “causes and cores” looking something like charcoal, dark and dead. However, it is very, very different from that!

Actually, such “causes and cores” are constantly pulsating accumulations of substance discordantly qualified, which send out radiating energy all of the time. This is the “heart-center,” which gives life to the entity. When I say “radiating” substance, I did not say “radiant” energy; there is a difference. Let us be specific; I mean that THE “CAUSE AND CORE” OF ANY CONDITION UPON WHICH YOU ARE DECREERING IS A LIVING, MOVING THING, LIKE A WHIRLPOOL OF ENERGY, WITH DISCORDANT RADIATION PASSING OUT FROM IT.

When you call to the beloved Astrea to lock her Cosmic Circle and Sword of Blue Flame of thousands of suns from the Great Central Sun around such a “cause and core” and then “close in upon it”—what happens? Through the beloved Astrea's great assistance, THE MOTION OF THE WHIRLING CENTER WITHIN THAT “CAUSE” IS STOPPED, THE RADIATION OF THE DESTRUCTIVELY QUALIFIED ENERGY CEASES AND THE COHESIVE POWER WHICH HELD THOSE ELECTRONS TOGETHER TO FORM A FOCUS OF DISTRESS, THEN LETS GO. When

that lets go, those electrons immediately arise and return to the sun of their source, for purification by Violet Fire and re-polarization by divine love, so that they may be used again to fulfill some divine plan. We shall be so grateful when you are actually able to see what takes place at your call.

As the beloved Astrea moves into action upon that “cause and core,” with her Circle and Sword of Blue Flame, THAT CIRCLE OF BLUE FLAME COMPLETELY SURROUNDS THAT WHOLE ACCUMULATION AND CLOSES IN UPON IT. THE SWORD OF BLUE FLAME STRIKES DOWN FROM ABOVE, DIRECTLY INTO THE CENTER OF THAT “CAUSE AND CORE,” LOOSING THE COHESIVE POWER WHICH HOLDS IT TOGETHER. THEN THE ELECTRONS SEPARATE; THEY LITERALLY “FLY APART” AND THAT FOCUS OF DISCORD IS NO MORE.

Now, conversely, you have a constructive manifestation of a “cause and core” of light, in what you refer to as your “silver cord,” the stream of life (light-essence) constantly pouring from your I AM Presence into your physical heart and your Holy Christ Self which is anchored there. Of course, the radiation which pours out from these “causes and cores” is WHOLLY CONSTRUCTIVE and is a living, constantly flowing activity of light substance. There is really nothing static in this whole universe, beloved ones. Your individualized Presence “I AM” originally set up the “cause” of your manifestation here and then the “cause and core” of divinity was actually anchored within your physical heart. The radiation passing out from this “cause and core” is good and is the positive, constructive, vibratory action of your own individualization.

KARMA AWAITS ITS TRANSMUTATION

By the Beloved Maha Chohan

AS THERE IS PROVIDED FOR EVERY LIFE INTELLIGENCE BELONGING TO OUR UNIVERSE A HUNDRED THOUSAND TIMES MORE ELECTRONIC SUBSTANCE THAN SUCH A ONE COULD POSSIBLY INVOKE AND TRANSFORM, there is no possibility of the response of the universal light being limited, when the magnetic invocative powers of consciousness go into motion in the fourth dimension.

You will see then that in the course of the several millions of years during which man's consciousness has been functioning, how very much of the universal light clothed in garments of each one's making awaits redemption in the world of form, and it points to the necessity and responsibility of each individual to continually devote conscious application to the purifying, freedom, resurrection and ascension of each such electronic particle which through the doors of his thought and feeling left the realm of innocence and remains as a blanket of imperfect vibration which circles this recalcitrant star.

Even with all the grants and dispensations which have been given to the chela, removing much of the misqualified energy he has sent forth through the ages, HE MUST BE EVER ALERT FOR HE NEVER KNOWS WHEN SOME UNTRANSMUTED KARMA WILL BE PLACED ON HIS PATH FOR REDEMPTION. When the chela wonders why he does not have manifest some particular good which he has been calling for, let him remember that there is some obstacle in his lifestream, which he has created of his own free will, which requires transmutation.

MISQUALIFIED ENERGY TO BE REDEEMED

By the Beloved Maha Chohan

Let us turn our attention to the great reservoir of universal light. This mighty fount is unformed, just like containers filled with gold or bolts of cloth.

The individual I AM Presence of each lifestream draws the unformed at will, for God will never deny the Presence of any lifestream. As soon as the energy is accepted by the individual Presence, the responsibility of what is to be done with that energy is vested in the lifestream and that unformed energy is marked with the "stamp," the electronic pattern, of that one's individual identity, just as a trademark is placed on worldly goods.

Every Presence has a different pattern, so as to cause no confusion with the inner records of the universal law and of all the souls belonging to the human race no two are alike.

The energy drawn from the universal (which mind you is a voluntary thing) is stamped with your pattern. It then comes down into the use of the human personality, who dispenses that energy freely in thought, word and feeling.

The personal self does not see that energy, nor the mark of ownership upon it, and feels that it can send that forth indiscriminately, without rendering an account thereof. However, every thoughtform, every feeling form and every activity of the outer self carries that stamp which undeniably identifies the energy with the person who drew it forth, qualified it and expanded it. This moves in a circle and returns to its source for redemption, bringing with it more of its kind. If

it went forth for a good purpose, and harmoniously, it brings back its like, and vice versa.

Blessed is the individual who sends forth his energy qualified with good, for on the return current shall his world be filled with the gifts which are of heaven's realms.

QUALIFICATION OF LIFE ESSENCE

By the Beloved Maha Chohan

Every lifestream belonging to the planet Earth has the same life force flowing through it, and is the recipient of the multiple blessings of the Father-Mother God. It is the qualification of the life essence, which flows through the individual, which changes the vibratory action and makes each one a radiating center for the different gifts of the One Supreme Source, according to the ray or rays to which he has an affinity. This is all on the positive side of the ledger.

But, man through his free will choice in his experiments with energy has chosen through the ages to misqualify that sacred life force with imperfection, stamping the energy flowing through him with negation. If you do not permit the energy to outpour into the universe as God intended, you are imprinting it with a negative or imperfect pattern. Anyone who does not constructively qualify the God-energy is rejecting the gifts of the One Supreme Source and adding to the mass effluvia of the planet.

You cannot put a reel of film which you took on a trip to say Hawaii in your home movie camera and expect to see outpictured an excursion which you made to some other place, that reel of film has recorded the events upon which you focused the camera during that specific time. It is the same with the essence which is constantly flowing through you, you imprint upon it that which you are thinking and feeling at a given moment, and this is recorded on your inner vehicles.

However, through the merciful action of the spiritual law

you can transmute previous misqualification from being recorded over and over in your lower vehicles and become a conductor for the gifts of the Father-Mother God and fulfill that part of the divine plan, which is to be your gift to the universe.

I counsel you to now qualify the sacred essence of life with perfection at all times and add to the storehouse of your glorious Causal Body, by building daily, hourly, a momentum of the virtue of the Godhead.

THE QUALIFICATION OF ENERGY

By Beloved Archangel Zadkiel

Realize that the qualification of energy is a natural power within your heart. Practice on your own subtle feelings, practice on your own reactions to life, and keep in the silence that which you are doing. It can be such a pleasurable experience to feel the change within the energy of your own feeling world and the happiness that comes as you qualify that energy harmoniously when it has chosen, because it has been so long your master, to distress you.

You are the intelligence. You are the God-power that drew that energy from the Sun. Nobody asked you to do it. You volunteered to come into being and to draw that pure, primal energy from the Sun, which anchored into your beating heart. That energy responded to your call and became your servant in that response. The fact that you have a beating heart is proof that energy has responded to your will. You have willed to be here, and energy and life, in answer to your invocation, beats your heart.

Now why, when energy coming from the Sun responded to your will, should it immediately, when it gets into your world, turn around and be the master of you? It is ridiculous on the face of it! Think it through! The energy that came from the heart of God pure and perfect has come in response to your will to incarnate and to fulfill some portion of God's plan. Refuse to allow that energy (when it has come through the open door of your being into the world of form) to turn then and become master over your peace, over your harmony, over your supply, over your service to mankind. Bless it before it leaves your aura.

It is so simple. Think where the angelic host would be if energy were their master. We are the embodiment of quali-

fied energy, which we hold in a radiation of peace, of harmony, of healing, of purity, of beauty. What we have done, you may do! We are willing to give you our fully-gathered cosmic momentum of fiery God-control, and thus you build a quality of energy around you. After you have experimented with your own energy, then you can master the energy in the people you contact and in the life which comes to you in the course of a day for redemption and purification. You know the life within an unkind word comes to you to be redeemed and set free. The life within an unkind look or gesture comes to you, that you might bless it free.

LET US NOT PERSONALIZE ENERGY! That which comes into the compass of our daily thoughts and experiences—let us not rebel against it or feel unjustly treated if circumstance is such that energy qualified with discord comes within the compass of our aura. It comes because there are few foci in this unascended octave that know how to redeem it, to raise it, to purify it, to set it free. Do you see?

Where there is a focus of the Sacred Fire, where there is a lifestream who has a knowledge of the Violet Flame, there that energy has an opportunity of being redeemed and returned to the Universal First Cause. Oh, what a joy to move in the universe, freeing energy, loving it free, and standing in the serene mastery of your own Godhood! It will be a magnificent thing for the men and women of this Earth (through your example) to see how this application will raise the attention of mankind and they too will want to learn how to master energy, to change its qualification and, through it, to know God-freedom. May the Holy Amethyst be a reminder to your lifestreams always to move forward as a transmuting power of energy wherever you find it manifesting less than God perfection!

THE POWER OF FEELING, A QUALIFYING POWER
An Instruction by the Maha Chohan

The visualizing faculty of the mind creates the pattern or the thoughtform when is held within the consciousness, unwaveringly, with the certain knowledge that the thoughtform within the consciousness must reflect upon the screen of life as a physical manifestation. But no thought ever becomes a thing until it is filled with the substance of FEELING, and the controlled energy of the lifestream, harmoniously qualified, poured into that form, fills it with the life essence of the universe and lowers it into manifestation as a harmonious expression of direct precipitation.

Here is where the mental scientists and occultists find the stumbling block. They know that thought is a creative process and does affect manifestation. But they have not learned that FEELING IS THE QUALIFYING POWER of the vibratory action of the thoughtform, giving it quality.

REMEMBER: THOUGHT IS THE FORM—THE OUTLINE AND THE CUP. FEELING IS THE INITIAL VIBRATION THAT PASSES THROUGH THAT THOUGHTFORM AND SETS UP THE RHYTHM OF THE ELECTRONS WITHIN THAT THOUGHTFORM, WHICH THEY FOLLOW OBEDIENTLY, UNTIL MANIFESTATION OCCURS.

PRECIPITATION AND ETHEREALIZATION**By the Beloved Elohim of Purity**

Beloved ones! As I come into the atmosphere of Earth tonight, I bring the fully-gathered cosmic momentum of my purity to you, to all mankind and to all the elements which have served Earth's evolutions all through the ages. DO YOU KNOW THAT THE ONLY DISCOMFORT IN THE WORLD COMES FROM THE LACK OF THE SUBSTANCE OF PURITY IN ONE OR MORE OF THE FOUR LOWER BODIES? Misqualified energy, changing the ratio of the speed of the electrons which form the atom, causes pain, limitation and distress of various kinds. The vibration of the substance of purity quickens the vibratory action of the electrons, helping them to expand their light, throw off the substance by which the individual has surrounded them by discordant thought, feeling and spoken word and restores them to the rhythm and harmony of the I AM Presence, in whose divine and perfect image each individual was originally created.

PURITY IS A SUBSTANCE. IT IS A RATE OF VIBRATION WHICH IS CONTAGIOUS IN THE EXTREME! Please accept my purity today! Consciously open your emotional, mental, etheric and physical bodies to me today that I may pour into them that quickening radiation of Cosmic Christ Purity which I AM!

PURITY IS ALSO ESSENTIAL TO ENABLE ONE TO CONSCIOUSLY ETHEREALIZE SUBSTANCE WHICH HAS FULFILLED ITS PURPOSE, releasing the magnetic pull which has held the form together and allowing the electrons which have made up that form to return to the Sun for repolarization.

CREATING THE PERMANENT ATOM
An Instruction by the Beloved Paul the Venetian

I beg you to take my notes in consecutive order, for they are like the scientific steps in a chemical process, none of which may be omitted in order to have a successful achievement. They represent the action of the Holy Spirit and must not be considered as entertainment or mere accretion of useless knowledge.

I expect every student to study and make this instruction a part of himself that the hue and cry about precipitation may be stilled and this law be utilized to the fulfillment of the divine plan. Neither breathing nor walking nor any other process of living can be accomplished in a haphazard manner, nor can the laws that govern the universe be applied by mere wishful thinking or wild ejaculations or incomplete application of cosmic principle. Please get that straight.

Preliminary Definitions

1. THE PERMANENT ATOM—a nucleus of the physical form.

Some time back Kuthumi mentioned the projection of the permanent atom into the mental form of the desired precipitation. This permanent atom is the nucleus—the cohesive power—around which the electronic substance is drawn to create the perfect physical form required.

2. THE ELECTRONIC LIGHT—the universal light substance unformed, but intelligent. The electronic light to which we refer, which fills the universe, contains within itself a central

core of blue-white flame.

3. THE CREATIVE POWER—the Godhead, the Threefold Flame.

The GODHEAD is the creative activity of life—the Threefold Flame, the triple activity: the Father, Son and Holy Spirit, and this is the ONLY creative power in the universe.

PLEASE RE-STUDY the above paragraphs until you can differentiate between the CREATIVE POWER and the LIGHT SUBSTANCE, which is the ESSENCE that OBEYS and BECOMES THE CLOTHING OF THE CREATIVE FLAME.

4. The great THREEFOLD FLAME may multiply itself without limit and form points of consciousness anywhere in the universe. Whether it is the Godhead direct (the Solar Logoi) or whether it is a spark from the Godhead—the mighty I AM Presence in the individual—this makes no difference. The fire of creation is equally powerful whether it is in the heart of the Great Central Sun or in the heart of the man in the gutter.

The Electrons and the Fire of Creation

As the electrons flow down the lifestream from the mighty I AM Presence into the physical heart, they contain the fire of creation, and each electron may become the nucleus or cause of whatever form the individual decrees into existence—thus, the electron may become the body of a child, the seed of a spiritual idea, the nucleus of a great international movement, the heart of a novel or a celestial symphony.

The electron which enters the heart and becomes part of the lifestream of a self-conscious intelligence, may be CONSCIOUSLY PROJECTED into the electronic substance and around that minute particle of the fire of creation the universal substance is drawn.

Without the permanent atom, the universal substance remains unformed. The PERMANENT ATOM IS THE COHESIVE POWER and the divine will that draws the electronic substance into *form*.

The electronic light descends through your lifestream into the heart, which is the *cup* that receives the light, and then, ACCORDING TO THE DIVINE PLAN, THE ELECTRONS ASCEND AGAIN THROUGH THE THROAT INTO THE HEAD. (The sub-normal expression is when the electronic light descends BELOW the heart and becomes sexual depravity.)

When the electronic stream of energy reaches the heart and begins again its upward ascent, the inner eye can see that stream of light pour downward and another ascend, in such rapid succession that it looks like the shading of the same stream, but if you interpenetrate that stream of energy, you will see that half is descending and half is ascending.

Four Steps To Create The Permanent Atom Of Your Desire Or Plan

FIRST STEP: Make a mental picture of that which you wish to precipitate.

SECOND STEP: Know and feel that the fire of creation flowing through you is ONE with that which created the uni-

verse.

THIRD STEP: You absolutely withdraw all power from the personality (outer self) as the doer.

FOURTH STEP: From the three centers, the HEART, the THROAT, and the HEAD, you consciously project a stream (ray) of electronic substance into the mental picture.

RESULT: The formation of the permanent atom of your picture is formed. As the rays coalesce, they become the THREEFOLD FLAME—THE PERMANENT ATOM—which draws the substance of the universe around it, and your precipitated form is completed.

How To Project A Stream Of Electronic Substance From Your Three Centers

FIRST: We use the pink ray, the cohesive power of love. Let me show you. From the heart, the electronic substance flows in a PINK RAY, which is the cohesive power of LOVE, the MAGNETIC FORCE that draws the blue light of the electrons into form.

SECOND: Using the gold ray, the mental picture is outlined in golden light. From the head comes the GOLD RAY, which is the MENTAL PICTURE of the divine will, which has projected the divine plan into a mould or matrix. Thus your mental mould is usually outlined in golden light.

THIRD: The blue ray is the focus of power. From the throat goes forth the BLUE RAY, which is the focus of power, which gives to the precipitation its strength, endurance, and ability to stand against the disintegrating powers of the outer

world.

This is as simple an accomplishment as breathing, but it must be worked out in orderly succession.

THE HARMONY OF CREATION

By Beloved Paul, the Venetian

All creation, in accordance with the divine plan, consists not only of perfected forms, but harmonious sounds. Cosmic creation takes place in a symphony of exquisite melody. When the Godhead or the Solar Lords create a universe and a humanity, you may liken them to a composer creating a glorious symphony on a cosmic organ. Every individual sent forth from the heart of the Creator has a particular note or tone, which is established by the consciously-created wavelength of the cosmic energy flowing into the Threefold Flame of that Individualization. That cosmic tone, emitted by every electron in that particular lifestream, flows out continually as a conscious part of the Music of the Spheres. As the electrons swing around the central core of love, their speed determines the note which may be used in any number of blends, and thus creation is a cosmic harmony of sound.

There is no such thing as a false note, for the will of the Creating Intelligence establishes each tone and half-tone, and every succeeding electron flowing from the Godhead carries to its particular lifestream that same harmony and flow of musical beauty.

The electrons, as they flow from the Presence through the personal self, carry this same natural harmony within them and take up their place as atoms of the flesh body—each electron moving in a harmonious motion, emitting the sound decreed into being by the Godhead for that lifestream. The cosmic note is sounded when the first atom of the physical body is brought forth and the builders of form

and the devas of birth coalesce the substance of earth, water and air around this permanent atom in absolute harmony to that inner note. Thus, the flesh body, in its natural state, is a constant radiating center of uninterrupted harmonious sound and color, as should be the etheric, mental and emotional bodies, for the same color and sound follow through in their particular element.

The life-experience has shattered this natural harmony by constant shocks, irritation, annoyances, anger—and changed the speed of the electron around the core of love, changed their natural wavelength and put them out of harmony with their divine plan, thereby creating a discord and broken rhythm.

UNINTERRUPTED HARMONY IS ESSENTIAL FOR PRECIPITATION because the electrons drawn from your Presence as they sweep into your feeling world, are immediately thrown off-center, and as creation can only take place through harmony, any precipitation drawn forth without this harmony, is likewise off-center and unbalanced. THE MORE UNINTERRUPTED HARMONY THERE IS IN YOUR INNER BODIES, THE PURER AND MORE PERMANENT AND MORE BEAUTIFUL WILL BE YOUR PRECIPITATION.

THERE IS NOTHING THAT WARRANTS THE BREAKING THE HARMONY OF YOUR LIFESTREAM. This is the reason that silence and peace and “no human opinions” have been stressed, for *most* of you do not even know your note and *none* of you are expressing your cosmic tone.

You have heard the broken rhythm of your modern music, and when you step into the atmosphere of another hu-

man being, the jangle and discord of their atoms is more pronounced than even this distorted music. As a matter of fact, this distorted music is but a copy of the emanation of the lifestream of the composer!

The music of the Bridge Activity, or any harmonious melody, will assist you in rearranging the electronic substance of your body, and the heart of the Silence will pour through these electrons their cosmic note again. THE MIGHTY BEING HARMONY WILL GIVE YOU INESTIMABLE ASSISTANCE AS YOU CALL FORTH, COMMAND, DEMAND AND INSIST UPON UNBROKEN HARMONY FROM YOUR OWN LIFESTREAM. No person, place, condition or thing is important enough to destroy your harmony, because THE INDIVIDUAL ONLY CONDEMNS THAT WHICH IS OUTSIDE, WHEN HE HAS NOT MASTERED THAT WHICH IS WITHIN!

Having seen the very smallest electron projected forth from the Godhead (the Universal I AM Presence), we know that within even one of these electrons is all the power and potential creative activity of the Deity. It is our endeavor to draw forth from the individual who is ready for such assistance, the gifts that are inherent within the life so freely and constantly given into his use and governing power. As uncountable numbers of these electrons pass into the being of every member of the human race every minute, if an individual were to utilize the talents, gifts and creative power within even one such electron, he would be amazed at the perfection and generosity of the gift of life itself.

MUSIC, IN THE UNIVERSAL SCHEME OF CREATION

Address by Beloved Serapis Bey

Music is, in itself, an effort of stirring the universal light substance into motion through the creative powers of thought, feeling, action, or the spoken word. Yet, although it is an effect resulting from the vibrations of energy waves, it can be used mightily as a cause when properly understood, directed, and interpreted.

Music is synonymous with activity in the realms of God's perfection, for every thought and feeling of the Godhead creates a glorious sound and emits a beautiful color, clothed in exquisite form. Creation takes place to the accompaniment of such beautiful music as would make the heart of man stand still. The rhythmic motion of the planets around the sun contributes to the cosmic symphony and the forward motion of the galaxy is a processional of such magnificent splendor that words could not attempt to describe its inspiring, uplifting, energizing power.

Every Ascended Master radiates an individual keynote, woven into a beautiful symphony of sound; and as they move through interstellar space, the mingling of their cosmic tones is an inspiration. N to all who are privileged to have access to the faculties of the inner ear.

These natural songs of the sun, the planets, the angelic host and the Ascended Masters are like the perfume of flowers, the radiation of those beings contributes to the music of the spheres, without the self-conscious cooperation of the faculties of the lifestream, because each one may concentrate and focus the gift of song through his own vocal chords

as the girl of music through the particular talents evolved by his self-conscious intelligence.

When the Masters, the devas, or the angelic host choose to concentrate the music of the spheres through cosmic concerts, then truly do the highest heavens ring.

Every lifestream who belongs to this universe who has attained the victory of the ascension, and every Cosmic Being and Master Presence, is a contributing factor to this sea of music which, like light itself, forms the atmosphere of the octaves of light. The I AM Presence of every unascended being also pours forth its particular keynote and universal melody in the realm of which it functions prior to the ascension of the outer self.

It is from this sea of light that the masters draw the music which is the general property of the entire heavenly host, and focus it through music temples under the direction of angelic beings who amplify it by their own life and direct it toward composers who are worthy of more than ordinary inspiration and assistance.

When an opera is sung, the quality which is its predominant theme is greatly amplified by the music temple and its attendants, from the central focus where such music is presented, angel devas and cherubim and seraphic hosts carry the rays of that opera into the city, state, nation, and earth. Great buildings that have housed the musical genius of the race are, of course, overshadowed by devas and builders of form who cooperate with the officiating cosmic temple in this service. We hope to secure the conscious cooperation of certain students in receiving these currents, amplifying them

and directing them forth with the added impetus which comes from conscious understanding of the mystic inner activities connected with so-called outer world presentations.

All of the electrons spinning around the central core of every atom in your emotional, mental, etheric and physical bodies ARE INTELLIGENT. Furthermore, these electrons have taken a vow TO OBEY the mandates of the individual and create forms of beauty or otherwise. Standing upon this premise, surveying the condition of one's own vehicles, the wise decide to speak to these intelligent electrons and their composite whole and ask for their cooperation in throwing off the substance of impurity collected through the ages. These electrons are most eager to obey this command "Be ye perfect, even as your Heavenly Father is perfect." With the conscious use of the Violet Fire, the substance thus thrown off by the electrons is sublimated (refined) and the world of form and experimentation is thereby wholly freed from any and all residues of impurity from the ascending lifestream.

KEYNOTES**By Werner Schroeder**

All creation takes place accompanied by a symphony of exquisite melody. Every individual sent forth from the heart of the creator has a particular note or tone, which is established by a consciously created wave length. That cosmic tone, also called keynote, is emitted by every electron of that particular lifestream and flows out continually as part of the "music of the spheres." As the electrons swing around the central core of love, their speed determines the note, which may be used in any number of blends.

Every Ascended Master and every Ascended Master Retreat also has his and its own keynote. This keynote may be contained in a known musical composition. By playing a tape or record containing the keynote, the student may attune to the radiation of an Ascended Being or that of a retreat. During the "Bridge to Freedom" activity of the 1950's, many melodies, containing the keynotes of Ascended Masters and retreats, were given.

The most powerful way to attune an Ascended Master is by use of his picture. The second most effective way of forming a bridge, thereby connecting with the consciousness of the Ascended Master, is the use of his keynote. The Ascended Master Mary explained to the students that whenever Jesus approached, the melody "Joy to the world," his keynote, was heard by her and some of the disciples. Mary stated the melody was so distinctive, she wondered why all of the disciples could not hear it.

The following excerpts are from dictations of Ascended

Beings when addressing students on this subject:

“The keynote of my own lifestream flowing through the song so kindly dedicated to me has brought great numbers of the angels of resurrection into the atmosphere of this room tonight.” (Archangel Gabriel, April 15, 1954)

“Every planet of this solar system vibrates a different rate. It has a different vibration as well as music, which represents the keynote of that planet as it swings around the sun.

“The body is created by the body elemental, devas and builders of form around the keynote of the lifestream. Every electron swinging around the core that makes up the atoms in organs, and every organ as they are set into motion, all follow the same rhythm and pattern of the keynote. When discord and disharmony break that rhythm and one or more organ is thrown off the natural harmony of following its keynote, there is disintegration of various organs and disease.” Elohim of Purity, November 7, 1954.

“Sanat Kumara and those who came with him from Venus have been called, “Lords of the Flame.” In his descent into the heart of Shamballa, he brought with him a concentration of the flame that had never been known on the planet Earth, because it represented the vibratory action of Venus. This flame he externalized at Shamballa, and it has expanded and intensified through those millions of years since that time, pouring out the keynote of Venus and the vibration of this superior star into the atmosphere of Earth and the consciousness of its peoples. A stream of light from this cosmic flame is anchored into the heart of every human be-

ing who embodies on earth. This ray of light has sustained the flame in the heart of each one evolving on earth.

“The action of the flame of Shamballa was primarily designed to create self-conscious, generating centers of light through the life intelligences inhabiting the Earth. The sole purpose and reason for Sanat Kumara’s presence is to create these self-conscious light bearers. This is the only way and means by which the planet can fulfill its destiny and contribute to the universal solar song. El Morya, March 17, 1956.”

In order to make a powerful connection with the consciousness of the particular Master or with an Ascended Master retreat, the following suggestions are given:

- 1) Do some Violet Flame decrees.
 - 2) Read a dictation from the Master.
 - 3) Listen to the keynote of the Master
 - 4) Give your attention to the picture of the Master, become still, and radiate love to the Master. Feel the outpouring from your heart.
- 3) Accept and experience the radiation from the Master on the returning current.

THE CONSCIOUS QUALIFICATION OF ENERGY

By Beloved Mother Mary

As warmth entering into a room changes its atmosphere into a more pleasant one, raising the vibratory action of that atmosphere into comfort, so does the radiation of grace and pure, impersonal divine love carry through the lifestream of an unascended being, the transmuting action of the Sacred Fire to energies which have been solidified through many bitter experiences in the course of the ages. These are the causes of all "hard feelings."

Beloved ones, I have been asked to present to you the inner pattern of this week's activities in their very simplest form. They are the creation by conscious application of a spirit of grace, kindness, tolerance and understanding by which true world brotherhood is expressed. This spirit of grace is a substance! It is a radiation and a pressure of energy! Just as the pressures of discord, the whirls of anger and those various discordant qualities entering into the world of another lifestream can cause distress, so do pressures of a constructive radiation bring peace and healing.

The mastery of your own energies becomes the path for your own individual ascension. The mastering of those energies is the process which has been referred to as the "darsham" of the East, as the "grace" of the Christian Dispensation and as the Violet Transmuting Fire of freedom of the New Era under the Ascended Master Saint Germain.

Those of you who have studied through the years well know that energy is powerful; that there is no beating heart (from the tiniest infant lying in the cradle to the most elderly

lifestream awaiting the summons of the Karmic Board through so called death) who does not draw energy (life). The magnetic center within the heart, drawing the electrons from the I AM Presence, creates a focus of energy enabling the individual to have thoughts, feelings, etheric memories and physical acts.

You are dealing primarily with energy. In fact, you are “energy centers, vibratory centers” sending out into the universe that which is a blessing to life or that which adds to the distress of the world. You chose, as did every man and woman who is upon the planet today, to use life to experiment with energy. You chose to learn through trial and error what energy could do. The returning circle of that energy which carries the stamp of your lifestream (the electronic pattern which can bring you either blessings or distress in the experiences of your world, according to the feelings with which you qualified it when you sent it out.)

Now, beloved ones, we come to a point where we desire some members of the race to understand just the simple principle, that ENERGY DOES NOT ACT EXCEPT UNDER THE DIRECTION OF SOME SELF-CONSCIOUS INTELLIGENCE. If you are going to let the bodies which were fashioned for you by the great builders of form direct your life, you will have to handle the return of the indiscriminate qualification of the energies which the etheric, mental, emotional and physical bodies have catapulted forth into the universal.

INSTEAD OF THIS, YOU SHOULD GIVE THE DIGNITY, AUTHORITY AND POWER OF DIRECTING THAT ENERGY BACK INTO THE GLORIOUS THREEFOLD FLAME OF GOD WITHIN YOUR

HEART. Your vehicles were fashioned, blessed hearts of light, as instruments through which you might create as the Godhead himself creates, through which you might pour forth into the mental, emotional, etheric and physical realms, the perfection of your own I AM Presence. THESE BODIES WERE NOT CREATED TO BE INDEPENDENT, INDULGENT, REBELLIOUS, GLUTTONOUS VEHICLES WHICH STEAL THE ENERGY OF THE GODHEAD AND SEND IT FORTH TO DISTRESS LIFE!

Within the contemplation of your own blessed heart, within the “closet” of which Jesus spoke, you find the “center” of your being, that “center” which has been referred to in previous terminology as “The Secret Place of the Most High.” It is the immortal Threefold Flame of God which lives within your heart. THERE is enthroned your divinity, era after era, age after age, patiently choosing to inhabit and sustain your form, hoping for the opportunity of fulfilling itself through the vehicles which it holds in form by the very magnetic power of its divine love and keeps it from dissolution.

When you find that “center” within your heart, when you enter deep within that immortal flame and you can accept the mastery which is there, then in dignity and firmness you can put your house in order. You know, you are afraid of your own bodies! You are afraid of what you will do under stress and strain, of how your thoughts and feelings will act and of how the etheric memories will surge forth. Therefore, you are not fully master in your own home! Can you not give to this Threefold Flame (this I AM Presence within you), the confidence to control the servants of your household? Can you not release yourself from the tensions which are so evident, and allow the Lord of Life (the very God of heaven!) to

assume the mastery of your vehicles? Holding your mind up to your own I AM Presence, use it to receive its divine ideas, use your emotional body to radiate forth whatever constructive quality is required in your homes at any given moment, in your group activities, in your nation or in the world.

The emotional body was created primarily in a very pliable and elastic form so that it could be expanded until it becomes planetary in size, if it is a good “conductor” of that which mankind needs. All of the world, beloved ones, is your schoolroom. There will not be a day pass in which you will not meet energy from the consciousness of individuals who have no idea of mastery and control, which will either change your energy into a like turmoil or which you will sublimate and transmute, NOT BY WILL BUT BY LOVE!

When you are dealing with individuals who require instruction on the Law, when you are dealing with people in pain and distress, in fear or in anger, the very first thing you must have is some capacity to utilize the activity of “darsham” (grace) and draw from your Causal Body God-qualified energies which fill the atmosphere of the room and are the master control, BEFORE you attempt your service. When you come to the service of handling great numbers (and who knows, in the days and years ahead, how many lifestreams may be saved or otherwise, according to the development of this particular activity within you), are you going to be able to connect your emotional world with mine, your mental world with Lord Maitreya, your physical bodies with Lord Michael? Are you going to be able to plant your feet firmly upon the rocking surface of the Earth or the rushing tides of the sea as Jesus did, commanding and securing

PEACE? Are you going to be a comfort, a balance, a protection, a healing “conductor,” or are you going to be swept into the chaos of the uncontrolled?

Beloved friends, this is a very serious and important activity. Somehow we must reach your outer mind to a point where the holding of your emotional balance, the holding of your peace, the holding of that spirit of good-will and tolerance becomes important enough to you so that you will relinquish the rights of self (if necessary), and learn to be the outpost of ourselves which you profess and decree that you wish to be.

Cosmic moments come and go! I have lived through many! In those moments, if you are not prepared and at peace, you are temporarily cut off from the Brotherhood as a channel for their outgoing controlled force which would but energize your chaos, were they to pour it out to you when you were in distress.

Every one who enters that Brotherhood gives his all to it. It is enriched by each one who has ascended and becomes a part of it. That total momentum of light is accessible and available at the moment of any cosmic crisis. The Great Cosmic Silent Watcher, may see certain vortices of destructively qualified energy. He then notifies local Silent Watchers of this situation. These individual Silent Watchers in turn often use the bodies of harmonious chelas as a conductor to funnel constructively qualified energy into these destructive vortices, transmuting their cause and core. In this case, the fully gathered momentum of the Great White Brotherhood may be channeled through the mind, feelings, etheric body

and physical body of a harmonious chela.

IF THE PARTICULAR CHELA WHO HAS BEEN SPONSORED BY SOME MEMBER OF THE ASCENDED HOST IS IN A CONDITION OF DISTRESS, THE GREAT SERAPHIM HAVE TO LOOK ELSEWHERE TO FIND SOME HARMONIOUS LIFESTREAM, PERHAPS ONE WHOLLY "UNCONSCIOUS" OF THE ASCENDED MASTERS AND THEREFORE NOT AS GOOD A "CONDUCTOR" AS A STUDENT WHO HAS USED THE PURIFYING VIOLET FLAME. Through such an "unconscious conductor," a thread of benediction flows, whereas a conscious chela would be A GREAT CONDUIT of light. Do you see?

The "unconscious conductors" have served us often through the ages and they are blessed indeed! However, just as the inside of a pipe becomes corroded and filled with impure substance, so does the consciousness of the average individual become filled with impure thought, feeling and etheric substance, unless there is conscious use by that individual of the Violet Fire which compels the purification of their individual lifestreams. Therefore "unconscious conductors" do not make as wide an open door for the Masters' service as do conscious chelas who have used the Violet Fire of purification. IT IS A TRAGEDY INDEED FOR ONE TO HAVE WORKED TWENTY YEARS WITH THE VIOLET FIRE AND, AT A COSMIC MOMENT, BE UNFIT TO CONDUCT THE PROTECTION WHICH MIGHT SAVE A CITY! Preparation, application and purification are magnificent, because, through the forcefields of your groups and through your individual selves, they create a wider and wider conduit of light. The radiation and pressures of the Great Ones, flowing through them are a great blessing to mankind.

Remember my words! Do less if you must, but hold your state of grace, hold the harmony, hold the peace, hold those feelings of love and tolerance so that you may be ready when you are needed to serve. You are going to deal with great numbers of people in the near future, particularly when you learn to become a “conductor” of the light and gifts of your Causal Body. Your radiation will be different from that of any other person because the creation of your Causal Body has been an individual accomplishment. Your Causal Body has been builded from the day you first received conscious life. All through the ages which you have lived, your Causal Body has grown like a beautiful flame flower, an aureole of living color. The services you have rendered, whether they have been patriotic, educational, philanthropic, artistic, scientific, or religious, have become your gifts to the Earth. This momentum of good awaits release through your vehicles as a radiation of light which can benefit the Earth and her people.

Now, why let the glory of that Causal Body function only in the inner realms while you are in limitation, while you are experiencing age, disease and distress down here, when it is so easy to consciously call forth from your Causal Body into your magnificent tubes of light, the qualities of perfection which you require to bless life? Why do you not externalize for the blessing of the race that which you have prepared yourselves for centuries? Why do you not this day, entering into that “Secret Place of the Most High” (deep within the Sacred Fire in your heart) begin the release of your own harmoniously qualified energies of life which abide within your Causal Body, awaiting your call?

When you master that “art,” when your aura is very comfortable to others, when it conducts instantaneous healing power, when you can give mankind that which they seek, you will need the strength to stand and continue to pour out your gifts to life and not be “smothered” by the greedy and frightened energies of those who will come to you for help.

Build today, my friends! Build today! Those of you who are Group Directors, use this activity in your class work. Use it! Where you have a group of harmonious students, there is no limit to the activities which can be released from the Great White Brotherhood to benefit the Earth at your call. Before you begin the services of your group, silently call through the energy in the room those Flames of Purity, Peace, Comfort and Understanding and then you can more easily accomplish that which should be done.

THE ESTABLISHMENT OF FORCEFIELDS

By the Beloved Maha Chohan

When it was perceived that my beloved sons, El Morya and Saint Germain were going to endeavor to again present certain truths to interested people upon the planet Earth, I conceived the idea of developing (outside the retreats) certain specialized foci of harmoniously qualified energy which could be used for the expansion of the nature of God through the emotional, mental, etheric and physical worlds of man. These foci would depend primarily, upon the interest, sustained enthusiasm and inspiration of those who desired to contribute to the impersonal welfare of the planet.

In the Ascended Masters' Octave, all beings chose to specialize in the magnetizing, qualifying, expanding and sustaining of some specific service by which the race as a whole might benefit. It was thought worthy of the time and energy expended to try to obtain such an interest in groups of unascended beings and thus accelerate the progress of the entire evolution in, through and around the Earth.

Each Ascended Master retreat is dedicated to the EXPANSION of some such divine blessing. In time, with patience, harmony, constancy and love, unascended beings will create and sustain some divine blessing which is a power that can be invoked at will by any and all other interested lifestreams in times of crises.

A FORCEFIELD USUALLY TAKES ON THE FORM (PATTERN) OF THE ACTUAL ACTIVITY WHICH A GROUP OF INDIVIDUALS DESIRES TO MAGNETIZE AND RADIATE FORTH FOR THE IMPERSONAL BLESSING OF ALL LIFE. This forcefield is as power-

ful as the interest, enthusiasm, faith and CONSTANCY OF ENDEAVOR of its component parts (students). A forcefield will take on the shape (form) of the service to be rendered, without the conscious use of the mental faculties of the students, but this form becomes more powerful, more clearly cut out of universal light and more enduring, if the mental faculties of the leader and the students help to sustain it in a certain definite pattern.

If the pattern is constantly changing, according to the whim of the leader, it is more ephemeral and the responsibility for its sustenance lies primarily with the invisible builders of form. If, however, the leader and the students work together to create and sustain a particular forcefield, energizing it by their life (in visualization, song and decree) it gradually becomes more distinct, powerful and efficacious in the emotional, mental, etheric and physical worlds, wherein the greatest requirement for assistance presently lies.

In the early Golden Ages, these forcefields were well known to the priests and priestesses who officiated in the various temples dedicated to certain specific God qualities, i.e. protection and healing. The mass of the people often made pilgrimages to such foci of specialized blessing and benediction, bathing in the fully gathered momentum already established there by those dedicated to this service of magnetizing, sustaining and radiating their gifts of life for the impersonal blessing of all mankind.

Again, as we enter the gates of the Golden Age of Freedom, we are endeavoring to stimulate the desire within the hearts of the "few" to establish such forcefields. Thus, each group becomes a radiating center of certain God-virtues,

also learning the power of concentration and impersonal service.

Mankind en masse suffer from many limitations and the range of possible services is limitless. Usually, in the unascended state, one individual strongly impressed by a desire to help his fellowman, will catch a glimpse of one particular service and then, in turn, through the power of persuasion, gather around himself others who are interested in a similar project. These forcefields are like beautiful flowers upon the person of the Earth. In time, all chelas will know what specialized activities are magnetized at certain points upon the Earth's surface and they, in turn, may ask for the assistance of such already established forcefields to assist them in particular local crisis.

The purpose of the establishment of such forcefields is not to exploit the personality nor the efficacy of any individual or group but to so magnetize and sustain certain God-qualities, so that they are always available for the use of all. It is so with the Ascended Host who offer all of their momentums of perfection to any one member, when universal progress will result from such selfless service.

The Transmission Flame Classes were also instigated at my humble suggestion, so that the individual forcefields might magnetize into their momentums the already gathered cosmic momentums of the Ascended Master Retreats. This is done, primarily, through the inbreathing of the substance of the flame and virtue of the retreats. Then, the sincere and selfless students (using the magnetizing center of their forcefields) expand these virtues into their localities (through the expansion and projection of their breath). Thus, unas-

cended beings are learning to work with and expand the service of the Ascended Masters' Retreats.

We are very, well pleased with the sincere interest in this endeavor and the kindly cooperation with it by so many individuals across the face of this dear Earth. The forcefields in time can be made permanent and will remain long after the original leader and his group have ascended into the realm where we abide. I RECOMMEND MOST STRONGLY THE NECESSITY FOR EXAMINING THE MOTIVE BEHIND THE ESTABLISHMENT OF SUCH A FORCEFIELD, as well as recognizing the need for absolute unity, cooperation, constancy of endeavor and true loving desire to impersonally help the race in its uphill climb back to its God-estate. The projection of the consciousness of the students into the actual retreat does not neutralize the activity performed by their physical bodies which are actually breathing the flame from that retreat into and out of their bodies. It rather increases the capacity of each such a one to be a "conductor" of the light and power of that retreat into their local orbit.

If you have not yet decided upon the type and quality of your group and individual service, I strongly recommend that you soon do so! The world and its people require health, peace, illumination, financial freedom, faith in God, liberation from the many "woes" that spring from conscious or unconscious allegiance to the "shadow-world!" Become a forerunner of an era and age wherein the temples of the Sacred Fire will again be manifest in this physical appearance world. All large activities have a "small beginning," from the embryo to the seed idea of a planet, a universe or a galaxy! The importance is in BEGINNING NOW!"

FORCEFIELDS

By the Beloved Maha Chohan

I would like to speak briefly on the subject of “forcefields.” As you know, I am the representative of the Spirit of Nature for the planet Earth. All the species of flower, shrub and tree are held in embryo within my consciousness and released freely to the spirits of nature, the directors of the planetary and localized verdures, flora and fauna.

As every manifest gift of nature is primarily an idea (from the great oceans and mountain ranges to the smallest violet tucked away amid the moss of the forest), so each forcefield in this exquisite garden of spiritual foci which I AM sponsoring and nourishing, first comes as a “seed idea” into the consciousness of some receptive individual.

If welcomed in enthusiasm, the idea takes form in the mind of the chela (sponsor in the unascended realm). The chela then builds that form out of the thought force of his own lifestream and the cooperative energies of any group of individuals with whom he shares the design. The feelings of the chela and his group determine the size, efficacy, quality and cosmic service which can be rendered by that particular forcefield. The constant rhythmic feeding of the pattern keeps it from dissipating into the unformed ethers and, of course, the “ensouling” of these forcefields by the angel devas has given much greater strength and radiating power to them.

For instance, besides loving the elemental kingdom there must be a strong positive current that governs their activities in time of crisis. Energy which fills human hearts and elemental hearts as well, surges under extreme pres-

sure. One who has stood in earnest contemplation upon the seashore and looked upon the powerful essence in the undines can grasp the truth that the forcefield of an individual and a group would have to be extremely positive to govern a raging sea.

Now, the perfume of the forcefields, as they are nourished and expanded, is an actual "essence" of spiritual light. This impersonally flows over the Earth and through the sensitive elements of the souls of men. I am the gardener endeavoring to create a beautiful garden of victory for the Earth. The specific service of each forcefield becomes a powerhouse which can infuse its momentum through the other forcefields in time of crises. No one forcefield can do the work of another. The generalized forcefields of the churches and metaphysical units lose some of their efficiency because they do not specialize. It is my desire to have such specialization.

SYMBOLS FOR FORCEFIELDS**By the Beloved Maha Chohan**

I have been asking for forcefields for years and for a simple symbol which can be used as the center figure of such forcefield with which the students who belong to that sanctuary are familiar. THAT SYMBOL SHOULD GIVE THOSE STUDENTS A SPECIFIC IDEA OF WHAT THEIR GROUP IS DOING AND WHAT PARTICULAR SERVICE OF MAGNETIZATION AND RADIATION IS GOING FORTH FROM IT. IF THE GROUP MEMBERS HAVE A COMMON SYMBOL, IT BUILDS STRENGTH. Through unity of mental concentration, the students cut out of universal light substance a good, clear pattern and fill it with the feelings of joy and Christ accomplishment as they continue to release their energy in decrees, songs and so on.

THEN, THROUGH PROJECTED CONSCIOUSNESS, THEY CAN “TRAVEL” IN THAT SYMBOL which is a real form created of light substance, sustained and expanded by the energies of the groups. THROUGH THIS PROJECTED CONSCIOUSNESS, THE STUDENTS CAN VISUALIZE THEMSELVES TRAVELING ANYWHERE THEY WISH TO GO AND THERE, GIVING THEIR DECREES RIGHT INTO THE ACTIVITIES WHICH NEED HELP. For instance, you can go to the Middle East, into areas devastated by destructive climatic conditions, or wherever there is a need for your service.

The center of your forcefield can be any constructive pattern. Some of those who have complied with my request, have used the Maltese Cross as their center figure. Several have used a large, pink rose and one is a large grail of blue flame. As you have seen in your “Bridge,”(Journal of the

Bridge to Freedom) THROUGH THEIR CALLS AND DIRECTING OF THE ENERGIES IN THEIR "FORCEFIELDS," SOME OF THE GROUPS HAVE BEEN DISSOLVING ICE FLOES, STOPPING STORMS AND RENDERING SERVICE IN PREVENTING AND REMOVING FLOOD CONDITIONS.

Therefore, again I point you humbly to this idea and ask, if it is at all possible, that you decide upon and consciously create just a simple symbol which you wish to use as the central pattern for your particular forcefield in your local groups, wherever you live. Beloved sanctuary and Group Directors, please explain to the people in your groups that the Thoughtform of the Year (the Sacred Heart) is not a "toy." IT IS A MESSAGE. It comes from the Heavenly Host and each student who looks upon it is supposed to use it practically to heal, prosper and illumine his own being and world as well as the lives of all with whom he comes in contact. Much of this is done through radiation alone. I challenge you tonight to see what you can do with this Pink Heart and your group forcefields for the rest of the year, in the name of God!

GROUPS FORM MAGNETIC FIELD
By the Beloved Elohim of Peace

Your group activities form a magnetic field of energy which draws intelligences and beings from the realms of light above the human octave, who have fully developed their own God-mastery and who are willing and able to have their fully-gathered momentums of that perfection to you and to all who will ask for and accept it. Through the release of the energy in definite visualization, as well as through the spoken word released in invocations, decrees and songs, there is formed this magnetic field of energy (forcefield) just referred to, which connects with the energies of the higher octaves, into which those energies are directed. This makes a sort of “funnel,” cutting right through the shadowed substance of the astral or psychic realm into the realm of perfection. What then flows down through that “funnel?”—electronic fire from our octaves. That fire is the purity and power of the feelings of masterful perfection from the Ascended Beings. At your call, one or more of the great ones in our realm whose attention you have drawn by that call, directs his consciously qualified light substance to you here.

For instance, when you magnetize the beloved Archangel Michael, just what happens? First you draw his attention and consciousness to you by your call to him, with your thought and feeling thus fixed upon him. The moment your attention goes to any perfected being, that moment his “virtue” automatically flows out from him (or her) to you. That energy is sent to you in the form of a ray of light, made up of what we shall call for simplicity and clarification, “electrons.” This sending forth of the ray by the Ascended Master

is a DESCENDING ACTIVITY. Then, when that ray reaches the world of the one who has called for assistance, what happens? That same ray, qualified with the blessing necessary to answer the call for help from the supplicant, immediately begins ITS ASCENT back to its sender as LIVING FLAME. The very nature of the flame is always to rise and so, this ray of perfected light energy passes as flame up through the four lower bodies of the supplicant (physical, etheric, mental and emotional), as well as through the atmosphere around that one.

This activity of the rising flame then completes the law of the circle—the ray which the master sent forth, returning to him with the added blessing of the service rendered to the supplicant. Such returning flame then adds to the glory of that Master's Causal Body. Whatever purification and blessing has taken place in the world of the unascended one is a permanent gift from the master to that one. HOWEVER, THROUGH THE EXERCISE OF HIS OWN FREE-WILL, THAT UNASCENDED ONE, BY ALLOWING MOMENTUMS OF CERTAIN DESTRUCTIVELY QUALIFIED ENERGY FROM THE PAST TO ACT THROUGH HABITS OF THOUGHT, FEELING, SPOKEN WORD AND DEED, MAY RE-CREATE ALL OVER AGAIN THE SAME DISTRESSES FROM WHICH HE HAS BEEN SET FREE!

In the case of the beloved Michael, he directs his attention to the supplicant through that “funnel” and adds his gift of faith, confidence, enthusiasm and positively qualified energy into his world, the worlds of all you contact and into the general atmosphere of Earth. If you are holding your world in a state of sustained harmony and peace at all times, you then become a living “conductor” of the fire of God-

perfection into this physical appearance world and this “fire” purifies and raises in consciousness everyone and everything it touches. Thus can you make of yourselves a constantly radiating center of light's perfection.

TRANSMISSION OF THE FLAME
Excerpts From Maha Chohan's Instructions

March 23, 1952

Every activity and every individual has a forcefield around them. I have chosen to call this, "the sphere of influence," beyond which the directed vibrations are not potent enough to become the master activity. In other words, the farther from the body pass the rays of an individual or a sanctified flame, the less strength they have. After that, some other creative center dominates the energy from the periphery of such a sphere of influence. For instance, to explain it in a homely fashion, a radio or television transmitter can only send a program for a certain distance and individuals who have receiving sets will find that if there is a powerful station nearer to them than the one in which they are interested at the moment, the predominating power station is the one most likely to come in over their radio, despite their choice.

In cross country or international transmission of programs, for example, subsidiary stations take up the original vibration which has exhausted its transmitting power, revitalize it and send it forth again to a new and further point which can be benefited by such a transmission.

The Masters of Wisdom, through the cooperation of the chelas, have used this means of transmitting vital forces and directing them for many centuries, but it is expedient in this New Day that the "Receiving Station" who becomes part of the lifeline be alert enough to regenerate the blessing and then direct it on its course to a new portion of humanity.

Through the energy of another trained individual or group who is waiting by pre-arranged signal to receive the projected will of the Master as well as the radiation, they pass it on until it arrives back again at the original broadcasting center, after encircling the planet.

If the stations from New York to California did not immediately relay the vibration they carried of a national program, it would be impossible for a New York concert to reach say Los Angeles, or vice versa.

In the case of the retreats, more especially the one that is active for the month, those nearest to it are most powerfully influenced and benefited. It is particularly difficult to project radiation across large bodies of water, like oceans. The number of generating centers combined, effect the power of transmission, of course, as well as their individual capacities, but in this new activity wherein spiritual foci are opened for world benefit—if we could establish groups of conscious chelas in KEY POSITIONS particularly along the sea coasts, and on the rocky outcroppings of the various continents, they could, at set hours, RECEIVE the directed force from the active retreat and then, as mechanically as the radio company, TRANSMIT that blessing through the very energies of their bodies to waiting groups in each continent who, in turn, would project the force, without the loss of its efficacy.

This, in reverse is what the tom-tom drums of Africa do which excite the passions of war, but which shows the power of conveyed vibrations. It is also the method used in sending mystic messages through the length and breadth of

India in a split second. However, our method would depend on conscious, reliable and responsible "Way Stations" who are always (not when they feel amiable only) both receivers and transmitters.

To be a RECEIVER without being willing to be a TRANSMITTER is a grievous fault.

Every active retreat is dedicated to a special quality necessary to the evolution of the race as well as to the individual and the procedure the Masters observe in the transmission of this quality, its radiation and benediction is as follows:

Around the central focus of flame representing its God-quality stand a number of liberated beings of light who consciously draw into themselves the essence of this flame in a rhythmic breath. They hold this breath for a given time and then breathe it out again in unison, holding it outside themselves and mentally projecting it to the periphery of the retreat's sphere of influence. They consciously add their own light and life to the essence of the flame during this transmitting process and the whole procedure is carried out with mathematical exactness, both with regard to the time and place of the receiving and transmitting stations as well as the breathing process itself.

Heretofore, as stated above, the subsidiary work has been carried on by chelas in the retreats not active, but now it is hoped that in the outer world sanctuaries, there will be found those students who will submit to the training of thought transference and thus become active partners with the members of the Great White Brotherhood, whose service

includes this activity. The timing of the activity as well as the placement of the individual or groups could be determined when we find enough students willing to cooperate with us in this world-wide benediction of the One God Flame.

Let me not forget to emphasize the importance of directing the soul (etheric body of student) towards the active retreat, consciously before entering sleep. For the impetus behind the directed will, like the power driving the engine, carries the consciousness toward its objective like a rocket, whereas those who are drawn hither through the magnetic pull established for this purpose, without the individual's application of self-conscious direction, proceed like a feather in the wind or a lazily drifting cloud in the sky and reach only the periphery of the active benediction.

The transmission of the flame is accomplished through the breath. The awakened student is taught the value of deep and rhythmic breath and it is through the conscious participation in thought, feeling and rhythmic breath that this cosmic blending of ascended and unascended consciousness takes place.

The opening of each retreat is attended with great pomp and ceremony at inner levels. For days before the great celebration, the brothers connected with the retreat draw forth all the beauty and artistic development that their Ascended Master Consciousness has at its command and it is always a surprise and a delight for the Masters to see the exquisite decorations that these blessed ones draw forth from life and yet there are never any two alike.

**TRANSMISSION OF THE SACRED FIRE THROUGH
FORCEFIELDS**

By the Beloved Maha Chohan

There are presently embodied those who had aligned themselves with one of the temples of the past and who have a background of spiritual training along specific lines of religious worship and service all through the ages. From time to time, these unascended lifestreams build as best they could from memory, the glorious temples in which they served and worshipped on Atlantis.

In our octave, we are constantly looking for opportunities to utilize the energies of great numbers of people when they are drawn together and their attention is focused upon some constructive activity.

It was so that Serapis came upon the idea of utilizing certain musical activities to draw the prayers and aspirations of the human race all together and then by the power of God-beings, raise that energy out of the realm of hopeless supplication into the positive demand and command for a return of the blessings of divine love which would be of specific benefit to the race.

The heaviness of most prayers and the hopelessness of most heart-cries so qualifies that energy that, as you know, they seldom are able to rise out of the lower atmosphere of Earth and would not, if it were not for the intercession of the angelic host, who are particularly, under the direction of Lord Michael. These angels are dedicated to literally gathering up these prayers in receptacles which they carry to the throne of grace in the realms of Light, for answering. The

service of the angelic host is not only to bring the God-virtues earthward, but to carry the aspirations of mankind heavenward and they are constantly working on the ascending and descending rays to this end.

The individual lifestream accepts the responsibility for the qualification of energy in each of the seven spheres, in each one of which one of his bodies functions. There is a heart-focus in the Electronic Body, the Causal Body, the Higher Mental Body, (Christ Self) the emotional body, the mental body, the etheric body and the physical body. Each of these seven bodies is constantly contributing, by the qualifying power within its own intelligence, to the activities and the actual atmosphere of the sphere in which each one of these bodies functions.

When the ray from the Presence passes through the seven bodies, the essence of life which it carries is in its natural pure and unformed state and the responsibility for the qualification of that energy is voluntarily assumed by the incarnated lifestream, knowing full well that, under the Law of the Circle, everything that is sent out will return with more of its kind.

For a Master to assume the responsibility of keeping any of the bodies belonging to an individual from qualifying energy according to the dictates of that one's own consciousness, would be to create an automaton and contradict the actual purpose of the Father in allowing (through experimentation) the individual's right to draw and qualify energy and in so doing, to develop control and mastery through love in all the seven spheres.

The inner bodies and consciousness of each lifestream are always subject to the qualifying power of the consciousness, therefore the energy voluntarily released in any of these spheres is bound to be colored by the consciousness and development of the seven instruments which form the creative centers for the lifestream. There are certain tendencies within the nature of the individual which act almost automatically and the energy passing from the Presence through the hearts of the seven bodies is literally catapulted into the sphere in which that body dwells, creating form, color and sound simultaneously.

Our project has drawn the interest and co-operation of intelligences who, for countless aeons of time, have occupied themselves with the drawing of the primal life essence into their consciousness, then qualifying it with the particular God-virtues which form the nature of divinity. Thus primal life, magnetized through love, becomes the Sacred Fire of Purity, of peace, of healing, of supply and so on, indefinitely, through all the God-virtues. THIS SACRED FIRE IS ALREADY QUALIFIED GOD-LIFE AWAITING USE THROUGH THE CHANNELS OF UNASCENDED INCARNATE LIFESTREAMS WHEN CALLED FORTH!

Do you see the opportunity herein? An individual may call forth primal life essence and, through the agency of thought and feeling, endeavor to qualify that life with power and efficacy to manifest perfection. True! However, such an individual can have the full use of already qualified life, if he will connect with us by his attention and accept our momentums of the Sacred Fire already prepared and awaiting claiming.

It was my idea to create strong forcefields made up of individual lifestreams drawing together in co-operative endeavor and when they have proven themselves by constancy of service and sustained enthusiasm, use these forcefields to conduct the qualified powers of the Sacred Fire through them into the world at large.

These Transmission Classes are now ready for this experiment. The breath of the students forms the forcefields, the energies incorporated in the meeting determine the size of the periphery of the field (smaller or larger according to the directed co-operative energies of the group). The quality of the consciousness determines the invocative power to magnetize the Sacred Fire and the ability of the leader to hold a concentrated picture of the actual flame and service in the retreat, determines the projective power of the group. Naturally, the Ascended Sponsor does much to assist as yet, but we are endeavoring to concentrate the responsibility and opportunity for God-expansion through leaders and students themselves.

**THE FIRST WORLD-WIDE
TRANSMISSION FLAME SERVICE**

By the Beloved Maha Chohan

When the Lords of Karma revealed that the plan for the progress of mankind would allow us to open the retreats of the world to the consciousness of interested students, it became my particular desire, to interest certain dedicated spirits at various points on the earth's surface who might, at a given moment, receive the consciously directed radiation from the retreat that was active during that 30 day period, and by the power of their own light, re-create the sphere of influence in their locality, forming a transmitting center for the powers, gifts and radiations going forth from that retreat, and then redirect these powers to a further point wherever waiting chelas would accept it and duplicate the process.

On October 18, 1952, we put this plan into action for the first time on a world-wide scale, various members of the brotherhood volunteering to take the places of unascended beings until such groups could be interested in the activity and assume the responsibility of being transmitting stations themselves. The light circled the planet round in a rhythmic pulsation from the heart of the Retreat of the Brotherhood at Suva.

From the Retreat at Suva, the golden flame of cosmic love was directed to beloved Saint Germain and the Brotherhood at Mount Shasta, who in turn redirected it to Philadelphia and New York. Beloved Lord Maitreya and the beloved ones in New York directed the currents to Transylvania, and

from there they passed to beloved Serapis Bey and the Brotherhood at Luxor. From Luxor, they were directed to beloved El Morya and Kuthumi at my retreat at Ceylon, and these two brothers completed the circuit by returning the currents to the Brothers at Suva.

At the instant when the great Surya asked those of us who were present in Suva to in-breathe the flame, which formed the full gathered cosmic momentum of Suva's service to life, each of the Masters drew that golden flame into his own body, which immediately became so brilliant with that concentrated essence that their very auras throbbed with a pulsation of power which has been increasing there since the day of Mu's greatest glory. We all held this flame within us, adding to the momentum, quality, color and tone of our own lifestreams, gained in God's service. Then, at a given instant, we all breathed that flame out across the Pacific Ocean into the retreat and the loving presence of beloved Saint Germain and the Brothers at Shasta.

The picture as seen with the inner eye looked like sheet lightning, that lit up the pacific ocean as with a golden flame, and through that lightning a clearly defined blue ray connected the brotherhood at Suva with the Brotherhood at Mount Shasta. When the blue ray connected with the heart flame of Saint Germain and his Brotherhood, it produced what seemed like an inner explosion at Mount Shasta, the rays from it running north and south, up through Alaska and down the western coast of the United states, and on down the South American continent as far as Cape Horn.

The light from this flame emitted from the heart of Shas-

ta, then spread out eastward, again with that blanketing activity similar to sheet lightning, and the directed blue ray forked off at Chicago into Philadelphia and New York, where again a similar blue ray explosion sent a direct current up through Newfoundland, Greenland and Iceland, and southward along the eastern seaboard of the United States into Cuba, the West Indies and the eastern coast of South America. The beloved Lord Maitreya in New York and the beloved Victory in Philadelphia, again directed the blue ray to the Brothers in Transylvania, and the same sheet lightning swept across the Atlantic Ocean, suffusing the British Isles, Norway and the western coast of Europe and Africa.

The Brothers at Transylvania again redirected that explosive action of the electric blue ray northward through Russia and the Near East, and the blue ray was sent down into the Retreat at Luxor. Beloved Serapis and the Brotherhood there again formed the nucleus of a light explosion which filled the entire African continent and the Indian Ocean with this blue sheet lightning. The blue ray from beloved Serapis' retreat was directed to beloved Morya and Kuthumi in India and the light explosion there directed the flame up through Siberia, China and Malay, from which point the blanket of light passed again into the heart of Suva, completing the circuit and giving Australia, Antarctica and the eastern sea coast of Asia the beneficence of its light.

In the course of the half hour during which the beloved students provided the nucleus of unascended beings, which made this magnificent experience possible, the globe was encircled 30 times. At the final time the momentum had risen to such a point that there was no longer distinguishable

any separation in the rhythm by which the light was transmitted, the entire globe being held in a golden flame, the axis resting upon a blue lotus and the atmosphere up to the 10,000 foot level completely permeated with the powerful fiery breath of the cosmic flame of the cosmic light, which shall be its redemption.

It is always most difficult to transmit light energy waves across bodies of water. I thank you, each lifestream, whose breath formed a part of the initial pulsation for a cosmic event, whose records will remain on the pages of akasha as a permanent memorial to your presence with us and the voluntary contribution of your breath to this service.

CAPACITY TO SERVE
By the Beloved Maha Chohan

Let us turn our attention to the God-qualities and their expressions. You will realize that those qualities and expressions of virtue are relative. In other words, they are determined by the capacity within the lifestream to release constructively qualified energy from its own momentum of the quality accrued through the ages to enrich the universe.

As an example, the light released by the Sun is of tremendously greater volume than the light of a star. The law governing creation, however, requires of man that his virtue fill the universe according to his capacity. The capacity to serve, to send forth light, is the determining factor by which the Higher Self and the Spiritual Hierarchy measure the progress, or the retrogression, of the individual God-focus within man.

Neither God nor highly developed man would expect more from any lifestream than his innate capabilities and capacities will allow. Thus the very timid soul light of one person might be the best that lifestream can offer, whereas a much larger outpouring of light from another more evolved and responsible lifestream might fall far short of the minimum requirement of the universal benefit which that lifestream could offer to the universe to return the balance for good received.

No man should try to serve beyond his capacity, for when the balance of the spiritual nature is disturbed, the individual should seek that balance before expending his energy on the altar of humanity. The chela, of course, real-

izes that it is his personal responsibility to hold that balance and poise through application, thus increasing his capacity to serve.

The world of form does not require of an infant the balance to life in the form of some constructive service to enrich humanity's cause that is expected from an individual, who has achieved his majority and certain benefits of education and mercy have enriched his consciousness. As the adult has expanded his consciousness, he has increased his capacity to serve.

A moment's introspection will show you that any individual who has received the instruction, radiation and blessings of the Masters has, BY ACCEPTING SUCH INSTRUCTION, INCREASED HIS CAPACITY TO SERVE AND SUCH A ONE BECOMES RESPONSIBLE TO LIFE FOR A GREATER MINIMUM OF SERVICE THAN MANKIND EN MASSE.

UNSELFISHNESS THE KEY
By the Beloved Maha Chohan

My chelas have now reached the point of acceptance of the creative power of every thought and feeling. By their self-discipline and awareness, I rejoice today to say that they are close to the doorway of eternal mastery, or high consciousness.

This Ascended Master consciousness has been attained by every Being who has passed through the world of form into the octave of all encompassing light. It is not attained by a passive attitude, but, rather, by an ever-present watchfulness over the thought and feelings.

IF, HOWEVER, AFTER THE DRAWING OF THE PRIMAL ESSENCE, THE ENERGY IS PRESSED BACKWARD THROUGH ANY SELF-INTEREST, IT IS AN INVERSION OF THE LAW AND THIS IS WHAT HAS CAUSED ALL DISEASES OF MIND, BODY AND AFFAIRS OF MEN. Through contemplation upon the law of truth and of life the chela has lighted the lamp of his own consciousness, and by every thought, deed and aspiration, he will now bring light into this world darkened by ignorance and self interest. He shall cultivate in himself and others the capacity of again enjoying and understanding the gifts of God through conscious pressure of his own God-feelings. Every little loving word, a kindly deed to smooth the passage of other wayfarers is noted in the book of life.

CHELAS NEEDED TO TRANSLATE GOD'S PLAN
By the Beloved Maha Chohan

In every age, through the mercy, the grace and the love of God there have been provided chelas whose service to the people of Earth included the translation of God's plan through their consciousness, in a manner which the outer intelligence of the aspirants, and the unawakened, might understand and accept. The work of the spiritual Hierarchy is hindered because the Ascended Masters can present their plans to such a limited number of embodied spirits by reason of the fact that the consciousness and spiritual development of the people inhabiting Earth-bodies are not always fully receptive to the impressions of the divine will.

YOU, MY FAITHFUL CHELAS, HAVE BEEN AMONG THOSE SO CHOSEN AT THIS TIME, TO BE THE CABLES THAT HOLD THE BRIDGE FROM THE DIVINE TO THE HUMAN OCTAVE. Your great privilege is not always fully understood by your outer selves. Remember always, that to help open a way and means by which the spiritual Hierarchy may show the divine plan to the people, is a great responsibility. When the spiritual Hierarchy can contact a group of people and give them conscious and personal instruction; it aids the evolution of the planet (as well as those so privileged), tremendously.

If the wayfarers upon the pathway can realize that every ounce of God's life-energy used to fulfill the divine plan (after it has served its good purpose in energizing the planet) returns to the individual's storehouse as a conscious magnet which draws the outer self higher in its own evolutionary scheme, they would continue to pour out good deeds and fill

their storehouse, as one would pour helium into a dirigible which would lift more than its own weight at the point when the balloon was full. When the Causal Body is charged with enough of this kindly God-qualified energy, its own magnetic power will raise the human self as easily as the great dirigible rises above the magnetic pull of the Earth, into the ascension!

ELECTRONS FOSTER TEAM SPIRIT**By the Beloved Maha Chohan**

WHEN A GROUP OF INDIVIDUALS GATHER TO COMBINE THEIR ENDEAVORS TOWARD THE PROMOTING OF A GOOD GOD-CAUSE THERE IS A TREMENDOUS RELEASE OF ELECTRONIC PARTICLES FROM THOSE WHO WILL BE PRESENT INTO THE CONTEMPLATED ASCENDED MASTER'S ACTIVITY. THIS WILL HAVE A GREAT DEAL TO DO WITH ITS FINAL VICTORIOUS OUTCOME. The nature of the participants (as well as their feelings during the process of preparing and actually executing the plan) will determine the type of manifestation that will occur.

If men could see the beautiful conductors they can be of cosmic energy, and how electronic particles literally fly from the fingertips, the feet, and from any part of the body which is consciously dedicated as a concentrated focus of an Ascended Master activity for the Ascended Masters' service, they would be startled and amazed.

Although the entire four lower bodies (emotional, mental, etheric and physical) are constantly sending forth substance belonging to God, "I AM," qualified by their outer consciousness, the tremendous radiation sent forth of the cosmic particles is concentrated where the attention is focused. THIS ENERGY PASSES FROM THE HAND IN A HANDSHAKE, FROM THE EYE IN THE PROCESS OF READING OR LOOKING AT OBJECTS, FROM THE FOREHEAD IN THOUGHT AND FROM THE LIPS IN SPEECH AND SONG. The quality of the energy, of course, is determined by the feelings of each individual and the entire congregation. To have the inner

sight opened just one half hour by an Ascended Master dispensation would so transport the chela into a world of light, he could see the reality behind all action.

WHERE A DOZEN OR A HUNDRED INDIVIDUALS GATHER TOGETHER FOR A SPIRITUAL ACTIVITY THERE IS A COMBINED OUTPOURING FROM ALL PARTIES CONCERNED. All of this tends to precipitate itself upon the leader, he or she being the center of their combined interests. This is why tremendous assistance must be given to any individual who forms the focus for such concentrated interests, even of a high and exalted nature, for the nature of the students will determine the type of energy which will be catapulted toward the leader even though their interests and motives are towards the highest possible unfoldment, for themselves.

ESTABLISHMENT OF CAUSES FOR GOOD

By the Beloved Maha Chohan

There is a saying “In unity there is strength” and there is a beautiful cosmic meaning behind this statement, because from the “Cosmic Heart” flows the energy which is the motivating power of all service and activity in life. This is even true of the physical heart, for the energy by which the body is moved, flows from it and the resulting action is dependent upon that flow.

When any part of life, ascended or unascended, by the free will of the intelligence, chooses to dedicate the flow of his life-energy to a given service, a stream of energy begins to flow from the Great Central Sun into his heart and then from the heart, like a river, toward the certain goal or objective.

This stream of energy is made up of countless billions of electrons, the pressure and intensity of the flow determined by the one-pointedness and tenacity of the being engaged in that particular activity. If the lifestream has chosen cosmic service, such as healing and remains faithful through the course of many hundreds of centuries, a tremendous river of electrons, proceeding from his heart and focused at some place in space is representative of his momentum gained in that service and those are temples of light. Great foci like the “Love Star,” established and sustained by the individual intelligences, can arouse the interest of every phase of life and for volunteers from every heart.

One may understand a more powerful momentum of the statement “In unity is strength,” as the Master Saint

Germain, Jesus and other beings who are representative of the Hierarchy, have gathered around themselves countless numbers of the angelic host and many volunteers from the human race. Their cosmic service has gained in momentum and power and efficacy through the combination of the light from the various heart streams. Any chela, then, who has contributed to this momentum and who, by his own heart desire, has become a sympathetic co-worker with the Master, can draw on the full power of that combined momentum at any time to help his cause at any given place. The cause is ONE and the cosmic momentum gathered is at the disposal of any member who desires, at any time, to give added assistance in the establishment of the causes of good.

RADIATION CENTERS
By the Beloved Maha Chohan

The solar system is sustained by consciously directed rays of energy, as a home or other building is wired for heat and light.

At certain points in the universe there are foci or radiation centers similar to your lamps and heating units in a physical home. These radiating centers are DISPENSERS of the flowing currents that surge constantly through the atmosphere. You might have all the necessary electricity in your home or all the heat in your heating system, but unless you have an outlet, your home would yet be in darkness and unheated during the hours when such energy is needed.

In the same manner is the universe filled with light and the "outlets" provide the open door through which this light is expressed. The great Cosmic Constellations, the Elohim, beloved Helios, Venus and all other such foci represent mighty God-Dispensers of Light. Among the lesser "outlets" are the angelic, cherubic and seraphic beings, the Ascended Masters, and leaders of sanctuaries and the chelas. All represent God foci for the light, with the difference, that they do not remain static as do the instruments of radiation in the physical world, but they grow and expand and, by the power of contagion, result in additional foci.

You, beloved chelas, are such foci and it is well for you remember that there are many, many lifestreams dependent upon the radiation of your light. In fact, in this hour of cosmic import the chela should consider himself a necessary outlet through which heaven's light may flow and join in with

the expanding light in other locations protect this planet in this, her hour of crisis.

I lovingly send this message to you from cosmic heights, believing that you will endeavor to remain in a state of harmony so that the light may flow from your beings in ever-increasing intensity.

YOU CAN BECOME A RADIATING CENTER OF LIGHT**By Beloved Ascended Master Harmony**

As individuals pass from a state of unawareness of the beauty and majesty of life, they gradually become cognizant of the tremendous privilege it is, to be the recipients of the countless millions of electrons that are directed through the channel of their own lifestreams, in the journey of the universal life substance from the fourth dimension, into the world of form.

The outer self has to still itself, repeatedly, during the process when the personality first becomes aware of the tremendous responsibility that comes with the dispensation of light through the lifestream, because the outer self has, for so many centuries, used life so freely and accepted it as so much a part of the personal property of the soul, that it takes quite a time for the aspirant and chela to re-orient his mind and feeling world in order that he may receive each electron that is passing into his keeping for safe convoy into the universe around him with the same reverence, humility and respect accorded the sacred host on the altar in many churches.

The mankind of Earth are in a constant state of communion and should be in a constant state of grace, because every electron passing through them contains the body, the spirit and the consciousness of the father of all life, from whence it flowed, and as these countless millions of electrons flow through the lifestream during the course of one day, we see that a magic and mystical experience is constantly taking place, wherein the spiritual essence of the Father is actually visited upon his children, not only on great feast days or at long intervals, but *constantly*.

TRAINING ASPIRING LIFESTREAMS

By the Beloved Maha Chohan

At the present and in the near future, many of you will be training aspiring lifestreams in the fundamental principles of the spiritual law. I believe the following is a good lesson to be given them.

When the Godhead created the Mighty I AM Presence of every lifestream, he focused within the “Unfed Flame,” which was the individual's identity, a perfect and complete picture of that which the lifestream would one day express. I use the term “Unfed Flame,” for many will not have had sufficient spiritual training in the world of form to expand that flame to a point where the term “Immortal Victorious Three-fold Flame” can be used. In other words, an unawakened lifestream.

When the I AM Presence projected the Unfed Flame into the physical form, that divine idea was anchored within the physical heart, which is the actual part of love from God's heart. This is a constant magnetic pull to the electronic substance from the Godhead which flows through the lifestream and forms the forcefield around the individual.

Every person is a radiating center and the natural flow of the electrons as they pass through the heart, takes on the quality and love and the color of that one's divine plan. And if allowed to pass harmoniously into the physical substance of earth, the forces of the four elements would quickly coalesce around that divine idea and the divine plan would be made manifest.

But, through discord and disharmony, the color and tone of the electrons are constantly distorted and you have a radiation which is not true or accurate, any more than a dissonance due to wrong chords on the piano.

Some of the apparent annoyance and human qualities in others are really constructive qualities of that one's lifestream that have been played up a note or down, and accordingly the discord is manifested as disharmony. Thus the power of God becomes arrogance and the love of God, sentimentality. Through music we can harmonize each one to a point where his own emanation becomes the perfect tone for that lifestream.

While the above is elementary to the chela, it truly applies to all lifestreams upon this planet who are just putting their feet upon the path of light.

THE MASTER'S ATTENTION
By the Beloved Maha Chohan

I thought perhaps you might be interested to know what takes place when I turn my attention to you. Since my radiation is naturally filled with pure divine love, a small thought form like a pink ball with wings on it flows down the stream of my life energy into your world.

EVERY TIME YOU THINK OF ME AND YOUR THOUGHT CONNECTS WITH MY CONSCIOUSNESS, I SEND BACK HUNDREDS OF THESE LITTLE THOUGHT FORMS AND I DIRECT THEM TO STAY WITH YOU TO HELP YOU WHENEVER YOU REQUIRE ASSISTANCE. THEREFORE, THE MORE YOU DIRECT YOUR ATTENTION TO ME, THE MORE OF THESE LITTLE LIGHT, HAPPY THOUGHT AND FEELING FORMS GO INTO THE CIRCLE OF YOUR EXPERIENCE. THIS, OF COURSE, APPLIES TO ALL THE MEMBERS OF THE SPIRITUAL HIERARCHY, AND WE DEEM IT A PRIVILEGE TO GIVE ASSISTANCE TO YOU, AND TO ALL LIFE.

When these thought forms are released from the Master, they are usually asked to remain to serve you and thus they become prisoners of love, who but live on whatever crumbs of attention you choose to give them. They are the living, breathing body of the Master, anchored into your world by his kindness. Will you try to acknowledge them every so often ?

CONNECTION WITH THE MASTERS HEART

By the Beloved Maha Chohan

When an individual thinks of an Ascended Master, the light ray, (which is his thought), proceeds immediately to the heart center of that Master's presence, with the same degree of accuracy that a telegraphic beam is directed from the wires to a distant city, or to a boat in mid-ocean. From the heart of the aspirant there flows forth a steady stream of electrons without number, and these form a beam or current, which connects the thinker with the Master's heart, and so provides a natural current over which the Master's assistance and radiation ride back into the life, the experience and the consciousness of the student. Thus, often, in times of stress or strain, when one has not the time to phrase a specified request or requirement, the chela, by directing his attention to the Master, CAN SET UP THIS CONNECTION WITH JUST A SIMPLE PRAYER OR INVOCATION, AND THE MASTER'S LIGHT WILL RETURN ON THAT CURRENT OF ENERGY TO GIVE THE PROTECTION, THE ILLUMINATION, OR THE RADIATION REQUIRED.

If the student could realize how instantaneous is the connection established with the Master by his call, and the return of protection offered, he would truly know that the statement of the beloved Jesus, "Lo, 'I AM' with you always," was more than a mere paraphrase of the words "I AM."

Once an individual, unascended, has the privilege of becoming cognizant of any group of Perfected Beings, the angelic host or the Spiritual Hierarchy, HE IS NEVER ALONE AGAIN, because he knows that every time he requires defi-

nite guidance or assistance, the response to his call will bring immediate help, and the Master's radiation will flow into his life and out through him, into the condition requiring assistance (if he is making the call on behalf of someone else).

If the students were to practice making this contact with the presence of the Masters more often, they would find themselves much less influenced by the appearance world, and free from the terror and uncertainty that the outer world creates in the feeling nature, when they allow their thoughts to dwell on discordant expressions.

Many people have felt the instantaneous release of light by the use of just the NAME OF JESUS, and the ancient members of the human race were in constant communication with Sanat Kumara through the reverent repetition of that august title. The use of these holy names later became degraded into curses, but we are hoping now that the use of the words representative of the sacred titles and names of the Ascended Host may come again to mean a powerful and potent force in the lifestream choosing to experiment with this portion of the Cosmic Law.

Beloved ones, in traveling life's pathway, upon which are found many obstacles due to past karma, it is a wise student who accepts the advice and guidance of those of us who have trod the same highway and successfully finished our journey. As one joyfully anticipates the visit of a well-loved friend, SO DO WE LISTEN FOR THE SOUND OF OUR NAMES VIBRATING THROUGH THE ETHERS, WHICH TELLS US THAT SOME BELOVED FRIEND STILL ON THE EARTH PLANE IS EITHER SENDING US THOUGHTS OF LOVE OR ASKING OUR ASSISTANCE, TO BOTH OF WHICH WE INSTANTLY RESPOND.

HOW THE MASTER CONNECTS WITH A CHELA

By the Beloved Maha Chohan

When a Perfected Being focuses his attention on an unascended member of the race, there flows from the consciousness of the Master a steady stream of pure, electronic substance, which is filled with the feeling, the thought, and the very being of the Master directing the light ray to his attention. If you could, with the inner eye, watch the process when the Master chooses to pour his consciousness into the aspirant, you would see passing from the Master, waves of light and color, which flow into the four lower bodies of the individual, enlarging each one of those bodies, and also changing the color and tone of the energy released by the chela. During this process, MUCH OF THE PSYCHIC AND ASTRAL SUBSTANCE IS WASHED OUT OF THE LOWER BODIES OF THE STUDENT, AND NEW HOPE FILLS HIS INNER BODIES.

If it were not for such a spiritual connection between Master and chela, the weight of the individual's accumulation of psychic substance would soon draw him back into the mass mind, because the heavy pressure of human creation around the Earth plane at present is more than the strength of any unascended being can pierce through unaided. It is this spiritual transfusion (so to speak) of the Master, that gives the added impetus of courage, inspiration, strength, and love of the light to the imprisoned soul, which enables that soul to hold the pathway open before him.

THAT IS WHY OUR DESIRE IS SO GREAT FOR PEOPLE TO PLACE THEIR ATTENTION UNDIVIDED UPON THE ASCENDED MASTERS' OCTAVE, THE OMNIPRESENT HOLY SPIRIT OF GOD,

THE ANGELIC HOST, OR ANY MEMBER OF THE SPIRITUAL BROTHERHOOD, AS OFTEN AS POSSIBLE—BECAUSE IT FORMS THE LINK OR BRIDGE OVER WHICH MAY BE CARRIED THE SPIRITUAL FOOD which sustains the interest of the soul and makes that soul a radiating center of inspiration to others. WITHOUT SUCH A LINK, DEAR ONES, THE SOUL-SLEEP OF THE CENTURIES WOULD AGAIN ENGULF THE PEOPLE OF EARTH.

The particular service of the Ascended Master is to intensify the light in the heart of the seeker, that its more powerful and expanded voltage might throw a greater radiance upon his path. The amount of light within the chela will determine his capacity to perceive and cognize truth, and the constant increase of that light, through the consciously-projected rays of the Ascended Master, represents the way and means by which the seeker's light may have sufficient intensity to enable him to find the object of his search, which is the realization of his own oneness with the Eternal Father of All.

As the traveler can proceed with greater ease when the light of the noonday sun illumines his pathway than during the night hours, when every crevasse and stone is shadowed over, so can the wayfarer upon the spiritual path ACCOMPLISH HIS JOURNEY WITH GREATER EASE AND SAFETY, WHEN THE COMBINED FOCUSED AND SUSTAINED RAYS OF THE ASCENDED HOST MAKE FOR HIM A SPIRITUAL LIGHT ON HIS PATH, WHICH SHOWS UP THE HURDLES, THE OBSTACLES AND THE STRAIGHT-WAY.

The individual who seeks to proceed without the assistance of the Masters may do so, but then it is only his own

soul-light that can guide him—which may be likened to one traveling through a forest in the dark with only the flickering, uncertain light of a penny candle—whereas one may proceed in safety with the light of the noonday sun.

CHELAS' EFFORTS ARE APPRECIATED**By the Beloved Maha Chohan**

I address you thus because your intelligent understanding of our explanations of cosmic activities has been of such great help to us, and because YOUR CALLS AND YOUR TRANSMISSION CLASSES HAVE DONE SO MUCH IN FORWARDING THE EARTH'S EVOLUTION.

Expansion and unfoldment of beauty and glory is the cosmic spiritual Law which governs every galaxy of creation. There is no such thing as a static expression of life. The stars and suns and planets, with every beat of their cosmic hearts, expand their auras and spheres of influence to a greater extent in the solar system. Just as an infant stretches his limbs to insure growth, so do these cosmic planetary Lords, expanding the cosmic substance by their breath, intensify and increase the luminosity of their particular foci in the galaxy in which they are expressing themselves.

The great minds that create a universe know no time nor space. These great God-foci seen in the sky are fluidic because the expansion of the whole solar system knows a certain elasticity in unfoldment, and the corresponding system automatically unfolds and cooperates in like proportion so that there is no such thing as accident or confusion in its spiritual growth.

Coming back to the smaller sphere on which you now dwell, dear hearts, you have evidence today in man's strivings to overcome the hazards of living in outer space of what your calls are doing for the Earth's expansion. The electronic light which has been sent forth through your calls has

caused an acceleration in the reaching upward and outward of the great scientific minds of Earth; has caused the bursting of Earth's imprisoning bonds, and has done much towards helping her assume her proper place in our solar system. My gratitude and blessings are yours. As you have been told, there is not only a balance to be met in the universal record, but there is a service that the Earth must perform to universes yet unborn which can only come as the whole planet pours forth more and more light. The sum-total of electronic light substance required to be released from the Earth can only be met as each lifestream using the Earth as a schoolroom gives of the maximum of its outpouring.

Again I pause here to say, thank you, to each one of you (a small handful as compared with Earth's population) for what you are doing for this planet.

As you know, countless hundreds of thousands of tons of the primal essence of God (pre-ordained to be the light of the Earth) have passed through each one and have been misused. Every electron of this substance must now be redeemed. Your good work towards redeeming this substance is seen and appreciated not only by the Ascended Masters but by the other members of this solar system and entire galaxy, who are patiently awaiting the obedience of the Earth to the cosmic fiat to give forth more light.

ASCENSION, JUST RAISING OF VIBRATIONS**By Beloved Lord Gautama**

The words “ascending” and “descending,” “higher” and “lower” are more descriptive of rates of vibration than they are of motion through space. However, because the beloved people of Earth are so accustomed to dealing constantly with form, THE WORD “ASCENDING” JUST NATURALLY DEPICTS TO THE OUTER MIND AN UPWARD MOTION OF FORM, WHEREAS, IN TRUTH, IT IS MERELY AN ACCELERATION OF THE VIBRATORY ACTION WHICH MAKES UP THE ATOMS OF THE VEHICLE. The word “descend” as mankind's outer mind visualizes its action, is merely the slowing down and lowering of the vibratory action of the electrons which make up the atom.

Now, beloved ones, let us take the visible presence of the great El Morya, for instance. You speak of his “descending” into the sanctuary to address you through your “contact” and, WHEN YOU COME TO THE POINT OF ENOUGH PURIFICATION AND CLARIFICATION OF YOUR PHYSICAL SIGHT, HE WILL BE QUITE VISIBLE TO YOU. Why? Because his “descending” is simply the SLOWING DOWN of the electronic rates of vibration in his vehicles and the ACCELERATION of the vibrations of your power of sight UNTIL THE TWO MEET. Then you have your visible, tangible presence of any Ascended Being.

Now, during these years which are being given to us to help you, we are in the process of gradually accelerating the vibratory action of your four lower bodies by speaking to you, encouraging you, and by giving you those spiritual exercises, songs and decrees which have accelerated all of your senses and, to a degree, open your inner sight and

hearing. At the same time, we are lowering the rate of vibration of our own bodies of light of course never below that rate which compels and sustains perfect harmony, but slowing our vibrations down in spoken word and radiation so that we may establish a communion between your outer minds and that consciousness in which we all abide. When the acceleration of the student body has reached its apex, THEN WILL BE THE MANIFESTATION WHICH SO MANY DESIRE.

It is simply a matter of the control of energy. Of course, we are always in absolute control of all energy and, as Lord Maitreya himself has said, we could so lower the vibratory action of the electrons which spin around the atoms of our light bodies to a place where we would be perfectly visible to your physical sight RIGHT NOW! THIS WOULD BE A TREMENDOUS DISPENSATION OF THE COSMIC LAW BUT IT WOULD NOT CAUSE YOU TO DESIRE TO FURTHER ACCELERATE YOUR OWN VEHICLES. You see, once the gift is received, almost without fail, the invocation and application of the chela ceases, unless, of course, that lifestream has come to the place of mastery.

THE ASCENSION PROCESS**By Beloved Hilarion**

The awakening consciousness of the individual who desires to fulfill his divine plan, cognizes the truth that the immortal Threefold Flame within his heart *can* and *will* expand to direct the activity of every electron and atom in his four lower bodies (physical, etheric, mental and emotional). This is done by the acceleration of their speed as they move around the central core of their own atoms. This acceleration causes the impure substance in the forcefields around the electrons to be thrown off and allows the electrons in each of his four lower bodies to expand their light until the emotional, mental, etheric and physical bodies become self-luminous. This is the process of *conscious* ascension.

The ascension is not so much a “mystic” experience as it is a scientific one. In the beginning, electronic light (which is the actual intelligent body of God) took a vow of obedience to respond to and become that which any of God's children directed it to become. Therefore, the very electrons which compose the atoms of the inner and physical vehicles of the individual, vibrate at the speed at which the self-conscious intelligence has directed them to do. The SLOWER THEIR VIBRATIONS, the more vulnerable do these atoms become to like vibrations which fill the lower atmosphere of Earth. The QUICKER their vibrations, the more sensitive and receptive they become to the grace and perfection of the higher realms. Thus, when a chela prepares for the ascension, he is taught how to quicken the vibrations of all the atoms in his four lower bodies, throwing off the discord which has wedged itself between the electrons which make up such

atoms and, as surely as the sun shines in God's heaven, the quickened vibratory action of the atoms of each vehicle magnetize the heavenly vibrations from the Spiritual Hierarchy.

Each tiny electron, moving around its central core of love, forming the atom, has to be released of the accumulation of discord, self-created, until those electrons are free to raise the human body into a sphere in which such a one has become fitted to dwell. This can only be done through the free will of the individual, who, desiring such freedom from limitation, calls to us, as well as his own Holy Christ Flame and I AM Presence, to so raise the vibratory action of these electrons and *sustain* them, each one, in a state of harmony, peace and love.

Spasmodic raising of the electrons through proximity to divinity and its messengers often does temporarily raise the consciousness of the chela, but until that chela can and does sustain that divine consciousness within himself, he cannot remain aloft, nor enter those spheres of perfection toward which he aspires.

Throughout the centuries, some chelas have quickened the vibrations of one of their four lower bodies far beyond the development of the other three. Here, we must emphasize that each chela should examine himself and ascertain which of his vehicles requires assistance the most. Then, scientifically, without stress and strain, he should endeavor to cultivate a positive and powerful vibration through the recalcitrant vehicles and bring his four lower bodies into alignment. This, of course, we help every chela to do in an

Ascended Master Retreat and, when such an individual applies for the privilege of becoming a “candidate for the ascension,” beloved Serapis Bey, looking over the four lower bodies of such a one, prepares a schedule of events and conditions to be experienced by the chela which will enable him to completely purify and redeem those bodies which as yet have not been brought under the full control of the individualized “I AM” Flame of the lifestream.

Let us warn the sincere chela, that one will always feel some resistance from the vehicle which is not yet under control. Centuries of that body's having had its own way have made it stubborn and resistant to God-direction. In the name and authority of your own beloved I AM Presence, lovingly command such a vehicle to co-operate with you in the redemption of your world. This would be wise, indeed!

EARTH MUST BECOME SELF-LUMINOUS**By the Beloved Maha Chohan**

Every manifestation, whether it be in the unseen or outer world (that of physical appearance), is the result of the use of God's pure energy. We know that the limitless energy with which the creator has endowed his children is within the electronic light flowing from the Supreme Source into the individualized I AM Presence. However, when that light reaches the consciousness of the lifestream yet abiding upon the Earth and in its atmosphere, the manifestation takes on the qualification of the consciousness in which the unascended lifestream is dwelling at a given time.

Every minute particle of the resultant effect of man's use of energy is written in the book of life, and before he attains his full freedom in the ascension, there must be an exact balance of a constructive nature on that ledger.

We are at the end of a cycle, and in order for the Earth to take her rightful place in the cosmic progression of the planets in the system, she must emit more light. The shroud which she is now forced to wear is the result of mankind's imperfect qualifications. This is elementary, and you are aware of this fact, but the effluvia and the weight of the impure substance which man has forced upon the shoulders of beloved Virgo must be transmuted by the Sacred Fire. Then the rays from beloved Virgo and Pelleur's kingdom of light can infiltrate the Earth by reason of a more porous substance comprising her garment.

Along with the transmutation of the imperfect energy of others abiding on the Earth, the wise chela knows that there

is no unascended lifestream who can by-pass the responsibility of balancing his own misqualified energy. I bring this to your attention today, for I counsel you not to weary in well doing, and every decree which you are so generously making, pierces through Earth's shroud of negatively qualified energy and readies her to take her rightful place in this system.

The cosmic law has signified that the Earth must become self-luminous, and I appeal to you to continue in your calls for those who are not aware of the Sacred Fire and its efficacious use. There is a cosmic moment for the fulfillment of every edict of the spiritual law, and every chela will do well to keep this in mind.

EARTH ASSISTED BY VENUS
By the Beloved Maha Chohan

From the heart of the physical Sun Great Beings have always come to a planet and its evolving mankind to give of their love and light and wisdom during the infancy and youth of new souls. These Beings carry with them all the knowledge which is within the Father-Mother of the system, and it is for the use of the young souls if they should choose to accept it.

In the case of Venus, these Sun Gods established a pattern and plan which the evolving souls followed closely, and they never fell from the grace of harmony and peace. In the case of the planet Earth, I need not describe her present state, and it is the love of her sister planet Venus which has sustained her place in the solar system. The Earth herself was not able to give forth enough light to make her place a necessity in the cosmic chain.

A planet's light is composed of the heart flame of its people. The light of the world is an expansion of the heart flame through the souls of men. When the heart flame is smothered under an accumulation of human emotions, the planet upon which such a humanity lives becomes duller and dimmer until in time there would be no radiation or emanation from it at all.

Beloved Sanat Kumara and the Beings from Venus created an aura of light around the planet Earth which made her continue to have a radiance and a reason for being in the solar chain. They knew that it was the duty and responsibility of their great consciousness to show men how to con-

tact their own heart flame, and how to expand that flame to a point where they might be contributors to the radiance of their planet. This is the primal service of the Brotherhood.

Thus it has been from the beginning and when beings like the Master Jesus, Lord Gautama and others are called, "The light of the World," they are truly described, because it is their illumination through the conscious expansion of the heart flame that provides the radiance which the cosmic law demands to sustain a planet, a star, a Sun, in the solar system.

And now in the cosmic push of the hour, the beings not only from Venus but Uranus and Mars are lovingly giving of their light to assist the Earth to sustain her position, and we can truly say that the Earth is living on "borrowed" light!

YOU MAY BECOME MORE BEAUTIFUL**By the Maha Chohan**

Before man can come to the place where he may join the Ascended Masters, he must master the vibrations of his bodies to a point where they do not create dissonance in their own world or in the world of another.

IF YOU WILL THINK BEFORE YOU SPEAK AND ACT, AND ALSO BEFORE YOU FEEL, IT WILL ENABLE THE ELEMENTS OF YOUR BODIES TO RETURN TO THEIR ORIGINAL BEAUTY, HARMONY AND PEACE. As soon as the pressure of discord is consciously controlled, the lifestream's natural state of being begins to establish itself as the Holy Christ Self returns the electrons to their natural orbits. That is why individuals who have come to the place of mastery and peace, attain great beauty, and why all the Gods and Goddesses (the Ascended Masters) are expressions of majesty, dignity, beauty, glory and harmony.

Old Age And Disintegration Not Natural

THE APPEARANCE OF YOUR PHYSICAL BODY IS DETERMINED BY THE AMOUNT OF LIGHT THAT IS USED WITHIN THE FOUR LOWER VEHICLES—THE EMOTIONAL, MENTAL, ETHERIC, AND PHYSICAL BODIES.

The natural emanation of light through these lower bodies forms the protecting wall referred to in your instruction as the Tube or Pillar of Light. When the electrons move more slowly in their particular organs and cells, they draw less light from the Holy Christ Self and the natural resistance of the lifestream grows weaker.

WHEN THE RACE BECOMES HARMONIOUS AND THE ENERGY RELEASED THROUGH THEIR BODIES IS NEVER QUALIFIED DISCORDANTLY, THERE WILL BE NO SUCH THING AS OLD AGE, DISEASE, and the vehicles, when abandoned at the close of that phase of life's experience, will be in as perfect a condition as when they were designed by the builders of form and the Higher Self.

Grow More Beautiful As You Grow Older

When mankind will take a real interest in the vibratory actions that they *allow* to pass through their bodies, a state of very great harmony and beauty will be expressed within their lifestreams. The bodies of the Ascended Masters, the angelic host, as well as the cherubic and seraphic guards, are ever growing finer and more beautiful as the energy through the electrons is ever charged with more light, love and balance. Thus, the Master Jesus, who ascended many centuries ago, is a far more majestic figure today than at that time!

AS ABOVE, SO SHOULD IT BE HERE BELOW! THE LIFESTREAM WHO HAS ATTAINED MATURITY SHOULD BE MORE BEAUTIFUL AND EXQUISITE IN FACE AND FORM AS THE YEARS GO ON, and so shall it be in the days that are to come! IT WOULD BE A GLORIOUS EXPERIENCE AND MANIFESTATION IF A FEW INDIVIDUALS WHO HAVE A KNOWLEDGE OF THIS LAW, WOULD CHOOSE TO EXPERIMENT WITH THE LAW OF HARMONY AND ALLOW US FREEDOM TO HELP CREATE BODIES SUCH AS HAVE NEVER BEFORE BEEN SEEN ON THIS EARTH!

The Holy Christ Self of each individual is as beautiful as

the most perfect angelic being that you could conceive of, and the individual Holy Christ Self will duplicate that beauty through any flesh form who desires it, with a little cooperation and conscious study by the personal self. I am willing to assist in this experiment with any or all who choose to make the necessary effort at self-control.

You would then be a marvelous example which Saint Germain could set before the whole world, which would “SELL” the kingdom of heaven far more rapidly than the precipitation of gold would do.

You have full authority to build this same perfection into the children and young people you see around you. The Elohim of Peace, the powers of harmony and purity and the builders of form will join you in this, and it will be a very great privilege for your lifestreams to render such a service.

PEACE OF PERFECT SLEEP AND REST**By the Beloved Maha Chohan**

Few individuals ever think to make calls for the peace of perfect sleep for every soul on Earth. The quieting of the mental and emotional bodies of the peoples would give the Ascended Host tremendous assistance in our endeavors to revive them spiritually. The sleeping bodies of the mass of mankind are in every sort of depravity, and the mental and emotional bodies never cease motion even while the physical body is temporarily unconscious in sleep. YET THE FAR GREATER PART OF OUR SERVICE TO MEN IS DONE WHILE THEY ARE IN THIS CONDITION OF SLEEP, FOR WHILE THEY MAY NOT BE COMPLETELY STILL, AT LEAST THE CONSCIOUS MIND FOR THE MOMENT IS INACTIVE.

While the people sleep, we pour light from the Presence into the heart, thus it is not so distorted and milked dry by the various activities of the mental, emotional and etheric bodies by the time it reaches the physical form. This is the power of the healing in the deep, refreshing sleep, sought by men, but seldom attained.

It has been said repeatedly that in order to have health, harmony and peace of mind are essential, because all the electrons in the universe carrying those qualities must pass through the mind and the feeling nature before they can find expression as health-giving, potent powers in the physical form.

The chela knows that the pure electronic light is the animating power of his every action. He can grasp the passage of the shining light from the heart of all-life to the heart of

his I AM Presence. He can visualize it within the heart of his own Presence, but he is confused as to what causes the change in its efficacy in the split-second consumed from the moment it leaves the Presence until it enters the physical heart.

The physical body is the smallest of the four lower bodies and represents the center or kernel of the complete set of lower vehicles. THE ETHERIC BODY INTERPENETRATES THE PHYSICAL, THEN IN SUCCESSION THE MENTAL AND THE EMOTIONAL BODY (WHICH SURROUNDS ALL THE OTHER THREE).

Peace of mind and harmony in the feeling world must be maintained in order to keep the consciousness of the four lower bodies receptive for the light and God-Ideas to reach the heart and then to flow forth as perfect manifestations in the world of form. A perfect example of this attunement was the beloved Ascended Master Jesus, who was ever at one with the Great Central Power of Light, hence his great works while he humbly walked the Earth.

For encouragement, may I add that many of my beloved and faithful chelas today are so close to the great awareness of the presence of light that they, too, are channels for its wonders!

THE DAY OF JUDGMENT
By the Beloved Maha Chohan

That which people call “The Day of Judgment” is an individual affair, as I shall try to explain to you.

When the lifestream chooses to finish with the human will, and return the outer vehicles and outer man to the use of the God-identity, he, by that act, signifies that he has found himself unhappy in his self-chosen path of separate-ness, and wishes to identify himself with the God-principle that governs the universe, and which lives by the Law of Harmony.

Students of the Law of Life are people who have signified their willingness to relinquish these stolen vehicles back to the God-identity that has sustained them through the long centuries. This noble gesture immediately brings the individual to the attention of the Hierarchy, and the book of life, or the book of judgment, is brought out and his account is read therein.

Every electron that the individual has taken from the unformed light in the Heart of God and sent out into the universe stamped by the light pattern of his lifestream must be accounted for. If the electrons went forth in harmony, for a constructive purpose, to fulfill at least a fair proportion of that person's reason for being, those electrons are released from the debit side of his “ledger” and become a part of the storehouse for good in the Causal Body. But, the countless hundreds of thousands of tons of energy that the individual has so boldly drawn forth from God's heart, where it was resting in ease and peace and sent forth discordantly quali-

fied by the willful and selfish thoughts and feelings of the personal self, must be returned to the individual in one form or another until that lifestream redeems that energy and sends it forth in love, FOR IT IS THE LAW OF LIFE THAT ANY ENERGY SENT FORTH WHICH DOES NOT COMPLY WITH THE LAW OF HARMONY, MUST BE CLEANSED AND PURIFIED BY THE DISPENSER.

Now, when I say "returned in one form or another," I mean that OFTTIMES THE ENERGY SENT FORTH QUALIFIED INHARMONIOUSLY THROUGH THE INDIVIDUAL'S OWN FREE WILL IN ONE LIFETIME WILL COME BACK TO HIM IN SOME PARTICULAR TRAIT OR CHARACTERISTIC IN SOME PERSON AROUND HIM, WHICH IS PARTICULARLY ANNOYING OR DISTRESSING. THAT ENERGY COMING FROM ANOTHER LIFESTREAM WHICH "BAITS" THE TEMPER MUST BE LOVED INTO HARMONY, or it will appear again in another lifestream some place on that individual's path. No two people are annoyed by the same traits, habits and characteristics of people, animals, or circumstances. Why? Because each one is only prodded by the energy which corresponds to his own "failing" in some lifetime, and which life, in mercy, brings back to him in order that he may redeem it and so set both himself and the other one free.

WHEN AN INDIVIDUAL COMES TO THE PLACE WHERE HIS ASCENSION IS IN VIEW, THE RETURN OF THIS ENERGY IS GREATLY ACCELERATED, AND CONDITIONS AND INDIVIDUALS SEEM TO POP OUT OF THE VERY EARTH THAT CAUSE EVERY CONCEIVABLE TYPE OF ANNOYANCE. If one could only realize that this "bombardment" is but the return of one's own energy which is "called in" by the Cosmic Law ere one can pass

through the portals of freedom, that one would not feel so resentful and rebellious. A realization of this, beloved ones, would save you from depression and doubt, and you would know that in that very pressure and stress of circumstances there was a promise that the Hierarchy knew you were ready to “handle” the energy, and to have the glory of the ascension—so every moment becomes an OPPORTUNITY TO “BALANCE YOUR ACCOUNT” UNTIL THE “RED INK” RUNS DRY.

THE SEVEN PLANES
By the Beloved Maha Chohan

We know that every realm of the seven kingdoms vibrates at a different rate. The earth kingdom and the water kingdom have the slowest vibratory action, and the air and etheric kingdoms are of a higher vibratory action. Then we enter into the three inner kingdoms of the Sacred Fire, the Holy Christ Plane, the Causal Plane and the Plane of the Pure Presence.

As the divine light descends from the heart of God, it passes through and nourishes each place, takes on the form of the substance of the plane IN WHICH IT FIRST VIBRATES, and then is transmuted into a lower vibratory action to enrich the plane below. Each plane clothes the pure light essence with the atoms of its own sphere, and the orderly descent of the God-light thus proceeds into the manifest forms of the earth, water, air and the fire.

In the evolution of a humanity, hand in hand goes the evolution of the nature kingdom. Man in his descent into seven planes, by identifying himself with the elemental substance composing them in accepting and molding garments made up of the essence of those planes, was intended to be the radiating power to raise the entire stratum into the fire element. This has been done by the beings on the Sun and on Venus, the electronic belt, representing like a closed accordion or a folding drinking cup, the purified essence of each plane drawn up into the fire element. You have seen the picture of the ring around Saturn and that is the ultimate halo of the planet. As the seven bodies of the perfected man

are drawn into the Electronic, the same is done on a smaller scale.

To recreate mentally, and actually mould out of the substance of the water element, the etheric, the earth and the air, garments as near like your comprehension of the I AM Presence as possible, and then to mentally practice the Presence of God through you, radiating like a sun the divine light of purity, love, healing, mercy and peace into these seven spheres, is to recreate the etheric pattern of the divine plan. This will disconnect you from the influence of the lower planes, and make you the influence through them.

"KNOW THYSELF"**By the Beloved Maha Chohan**

How often have members of the human race heard those two important words "know thyself." Allow me now to help you, each dear one, to know yourself and, in this knowing, to bring healing, harmony, and the lightness of joy into your life.

THE PHYSICAL BODY IS MADE UP OF VERY TINY PARTICLES OF LIGHT SUBSTANCE WHICH THE WORLD OF MEN HAS CHOSEN TO CALL "ELECTRONS." THESE ELECTRONS ARE EMITTED FROM THE BODY OF GOD AND ARE LOANED TO THE INDIVIDUAL LIFESTREAM TO CREATE A GARMENT OF FLESH IN THE "IMAGE AND LIKENESS" OF THE HOLY CHRIST SELF.

The Holy Christ Self projects a light pattern of itself into the universal light substance of this physical world, and into the center of that pattern the Holy Christ Self projects the cohesive power of love referred to as the Threefold Flame. Then this Threefold Flame, from the universal light substance around it, draws the electrons to make the flesh body or physical form.

The electrons are in constant motion, swinging round and round in the body, and if you had a high enough type of microscopic vision you would see that what appears to be a leg or arm is a constant sea of moving light encircling in an orbit, and, like the tide of the sea, being "allowed to go so far and no further" than the periphery of its particular border. These circling electrons form what we refer to as the "members" of the body.

The marvel of man is the cohesive power of love that keeps the electrons year after year circling in their individual orbits and the composite whole making the hand or the head or the arm or the organ, no electron losing its identity or getting caught into another member.

The vibratory action of the whole body is determined by the keynote of the lifestream.

Mankind's vibratory action is away below its natural harmony, and the electrons in all four bodies are moving a great deal more slowly than is their natural expression. The slower they move, the denser the body and the mind. The quicker they move, the lighter the body. In the Ascended Masters' vehicles the electrons vibrate so rapidly that they are like the propeller of a rapidly moving plane, invisible to the physical sight.

THE PROCESS OF EVOLUTION THROUGH ATTENTION TO THE LIGHT QUICKENS THE PACE OF THE ELECTRONS in every atom and cell of one's being, and when one's attention is on the light, the whole harmony of his individual solar system is increased beyond all outer measures of speed.

In the case of an injured or diseased "member," the more light consciously directed into the electrons of that "member," the more rapid will be the healing. A broken member, for instance, means that the natural orbit of the electronic life in that member has been temporarily shattered, and a new core of love must be established through the main shaft of the bone, when the electrons are again drawn in harmony around this core.

You would be surprised, dear ones, what singing in love

to these little lives in a broken bone or diseased member would do for you.

Know, children of my heart, my understanding and my healing and my love are yours forever to draw upon.

YOUR RESPONSIBILITY IN THE USE OF LIFE**By the Ascended Master Kuthumi**

Watching the descent of the radiant energy of the lifestream into the individual's conscious use, we see the tremendous responsibility that every individual has in being the dispenser of life. THE GLORIOUS PURE ENERGY OF GOD, EACH ELECTRON OF WHICH CONTAINS THE FULLNESS OF THE DIVINE PLAN, NOT ONLY FOR THE INDIVIDUAL, BUT FOR THE SOLAR SYSTEM OF ALL THESE PLANETS, CONTINUES TO FLOW INTO THE INDIVIDUAL'S USE UNDER THE CONSCIOUS DIRECTION OF THE PERSONAL SELF, AND FOR EVERY ELECTRON LOANED TO THE INDIVIDUAL SHALL HE RENDER AN ACCOUNTING!

When you call to the Holy Christ Self and ask to have released into your conscious use ALL the powers of your being, the Holy Christ Self takes note of your use of God's energy in a twelve-hour period. The energy you use daily is only about ten per cent of the allotment of your lifestream. How many of you can say that even one hour of the twenty-four, these electrons, this radiant energy, the spiritual essence of divinity has flowed through you clean and uncontaminated, and qualified only with divine love? How then can you be considered fit to be the conscious custodian of more of that precious life essence?

**SPIRITUAL KNOWLEDGE RESULTS
IN RESPONSIBILITY**

By the Beloved Maha Chohan

ALL OF THE ENERGY IN THIS UNIVERSE IS CONSTANTLY EMITTING RADIATION. The quality of the radiation really represents the whole problem of human redemption, as far as the Ascended Masters' service to man is concerned. There is not an electron in interstellar space that is static or immovable, and the so-called "inanimate" objects of the physical world are in a constant state of motion, as the scientists have discovered.

The degree of evolution of each self-conscious individual determines the intensity and the length of the rays of radiation that pass from him. The higher the lifestream goes upon the spiritual ladder, the greater is the area covered by his outgoing energy waves, and the more life, power, and love which is directed to such a one by the Ascended Brotherhood, the greater is his responsibility in the solar system to which he belongs, because of the EVER-INCREASING CIRCUMFERENCE OF HIS ELECTRONIC CIRCLE.

That is why the responsibility for spiritual knowledge and unfoldment is far greater than is comprehended by the student, who is so eagerly desirous of knowledge, of powers, and the full use of the activities of the Sacred Fire. As in the physical world greater responsibility rests upon the shoulders of those in positions of trust and authority, so does all spiritual knowledge carry with it an obligation to serve life selflessly. It carries with it the far more important obligation of controlling and pouring out through the radiation of such an

one's being only those qualities which will enrich the universe through the greater scope of the increased aura.

If people could see how the unfoldment of spiritual knowledge affected their auras, and how much greater was their personal ability to affect the entire universal scheme, some would hesitate, due to the personal responsibility involved, before accepting this outpouring.

When individuals have been under the direction of the Ascended Host for several years, as you have been, dear ones, every time one of us has come to present the Law, COUNTLESS TONS OF ENERGY HAVE FLOWED INTO EACH ONE OF YOUR AURAS, REMAINING A PART OF YOUR LIFESTREAMS, greatly enlarging the sphere of influence of all the Seven Rays. IT IS, THEREFORE, EXPEDIENT THAT YOU BEGIN TO INCORPORATE INTO YOUR VERY BEINGS THE ASCENDED MASTERS' PEACE, POISE, SERENITY, KINDLINESS, TOLERANCE, UNDERSTANDING, LOVE, AND GENTLENESS, BECAUSE THE REPERCUSSIONS FROM THE SLIGHTEST IMPERFECTION UPON THE LAW OF HARMONY ARE MUCH GREATER WHEN THE AURA IS EXPANDED TO SUCH A LARGE EXTENT, FOR THE REASON THAT IT AFFECTS A GREATER PART OF LIFE.

The activity of anchoring the Ascended Masters' energy into your own bodies, setting up new patterns of thought and feeling, coupled with YOUR OWN CONSCIOUS ENDEAVOR to hold your lower bodies within a harmonious expression, will do much to assist you. When your outer consciousness is constantly aware that its most essential duty is to MAINTAIN AN UNDISTURBED STATE OF HARMONIOUS RADIATION—in full knowledge of the effect it will have on the lives of oth-

ers—your consciousness will become like a sun, and your sphere of influence can be used cosmically, to set up a like energy pattern in the lives of all those whom the Masters will see fit to draw into your environment. Besides this, it will have a beneficial effect on every expression of life—plant, animal, and elemental—that it touches.

Watch your thoughts and feelings, beloved ones, because these affect your radiation, and can diminish your usefulness in the Ascended Masters' present endeavors to raise and redeem a planet and its people.

DECREE—EXPAND THE LIGHT PATTERN

In the name of my I AM Presence I call on the beloved Elohim of Purity, I love, bless and thank you for your great service to me and to all mankind.

Expand, expand and forever expand the light pattern within every electron of my four lower bodies unto the fulfillment of my divine plan! (3 times)

In God's most holy name, I AM!

PART 2
The Elemental Kingdom

AN INTRODUCTION TO THE ELEMENTAL KINGDOM
By Werner Schroeder

The elemental kingdom of our planet consists of the Seven Elohim, nature devas, the Planetary Silent Watcher, other Silent Watchers, the Directors of Elemental Life (fire, air, water, and earth), nature spirits, builders of form, and the body elemental. The Maha Chohan has a leading role in governing the affairs of the Nature Kingdom.

Elohim create the planets of a galaxy. The seven Elohim are mighty beings of love and light who responded to the invitation of the Sun of this system to create this planet. Nature devas create and sustain the beauty of nature such as gardens, mountains, valleys, and lakes.

It is the task of Planetary Silent Watchers to maintain the original divine plan for this planet in their consciousness. The name of the Planetary Silent Watcher for the Earth is Immaculata. There are other Silent Watchers keeping in their consciousness the spiritual affairs of nations, states and local communities.

The Directors of Elemental Life govern each element of nature (fire, air, water, and earth). The Sun-God Helios, together with the Cosmic Being Astrea, Princess Diana and Prince Oromasis is in charge of the fire element. Aries and Thor govern the air we breathe, Neptune and Lunara supervise the water element and Pelleur and Virgo the earth element.

The builders of form create the bodies of mankind. They perform this service together with beloved Mary (mother of Jesus), who forms the heart. Silent Watchers may guard the

original blueprint for an entire planet or a galaxy. The Maha Chohan works closely with the elemental kingdom.

It is the task of the body elemental to keep at all times the four lower bodies of mankind in a good state of repair, and, in all ways, to make the physical body a habitable temple (see "Body Elemental").

When the Earth was first created, it was made beautiful by the nature kingdom. Under the supervision of beloved Virgo (Director of the Earth Element), Amaryllis, the Goddess of Spring, and the Maha Chohan (great Lord of Rays), beautiful flowers, shrubs and trees were brought forth. Mighty Neptune (Director of the Water Element) created the crystal-clear waters; beloved Aries (Director of the Air Element) brought forth the air which the children of the Earth breathe. The angels came as guardians of the God-virtues, and the divine plan was for the three kingdoms—the elemental, angelic, and human kingdoms—to serve together, each one evolving ever upward into greater perfection.

Elementals were created to SERVE MANKIND THROUGH THEIR OWN PARTICULAR ELEMENT; the salamanders through fire; the undines through water; the sylphs and fairies through the air, and the gnomes through the earth element. Some are called nature spirits and nature devas. Elementals are the workers of nature. It is through the effects and use of their life that these little beings supply man with the garments of flesh which they wear, the water they drink, the food so abundantly supplied, the air they breathe, and everything required to sustain him on the Earth.

The divine plan was for man to be served in love and in

turn mankind was to pour love and gratitude and blessings back to the elemental kingdom.

If you were to stand an elemental, a man and an angel before the chalice on your altar, this is how it would appear to each consciousness: the elemental would see all of his little friends right in the glass that makes up that form—their shining faces, their tiny bodies sustaining the outline of the cup and the stem; the man would see the glass and judge its worth, wondering if it were crystal or otherwise, and the angel would see the powers of the Sacred Fire, drawn by your invocation and decrees, flowing through the cup. The activities of all three kingdoms are necessary to have a perfect manifestation in this world of form.

Earth represents the density—the physical body, the form. Water represents the emotional body. Water is the greater part of the Earth; the emotional body encompasses the greater part of your energy. Air is your freedom; fire is the power of purification and immortality.

Young children often see and even play with fairies and other beings of the elements, for which (if they let it be known) they are usually chastised by their parents.

Elementals range in size from less than one-eighths of an inch to eighty feet. There are some large undines of that size in the oceans. Elementals, in their natural state, act only in divine love. Their nature is to mimic or outpicture that which they see. They are primarily mental beings (elemental meaning “mind of God”). Elementals may become Elohim, the builders of our universe.

ADDRESS BY OUR LORD, THE MAHA CHOCHAN

INTRODUCTION

Our love and gratitude extends to the beloved Maha Chohan, in his cosmic capacity as director of the elemental forces in, through and around the planet Earth, and to the Great Beings who serve with him in governing and controlling the energies of the earth, air, fire and water for the benefit of the human race.

It is time that imprisoned elemental life be freed from the bonds imposed upon it through mankind's misuse of thought and feeling through the centuries. It is decreed by the Cosmic Law that mankind shall come to a greater understanding of the service, cooperation and consciousness of the elementals who have vowed to give obedience to the will of man.

May the study of the words of the beloved Maha Chohan develop an interest in the elemental kingdom and a desire within the gentle reader to assist that kingdom back to its purity, happiness, freedom and perfection once again.

Thomas Printz (The Ascended Master El Morya)

WORKING WITH ELEMENTALS

Beloved Lord Maha Chohan

September, 1953

Beloved children, beloved friends, how well known you are to my heart! The very first breath breathed into your nostrils came from my own life. In this embodiment, as your infant forms entered into this world of manifestation, above each one of you stood a beautiful white dove, visible to the inner sight of any who had developed their consciousness to the point where they might see the beauty that is all around

the world of form.

Do you know what that dove signifies to me, to the builder of form that stood with your own Holy Christ Self, to your sponsor? It signifies the fact that it would be possible in the course of this Earth life for you to complete your cycle of evolution and pass from the wheel of birth, of death and pain, consciously, into the glory of your ascension! What a magnificent thing!

When you look down the course of millions of years, millions of nice new bodies provided for you, millions of opportunities to use the pure and primal substance of life to weave for yourself garments of immortality—and finally through your own individual endeavors century after century, you come to the point of birth when the dove stands manifest that all who know may read, “This child may be among those whose names are written on the pages of the immortals within the compass of this Earth life.”

You know, in many of the great religions, the Holy Spirit is referred to as a mother, and I do—in times when the call for comfort rises within your hearts—feel much like a mother in my desire to give you comfort. Oh, not to give a sentimental release of energy which would do not good except for the passing moment, but to provide a way and means by which your own consciousness might grasp the possibilities of controlling the energies of your own life through your mind and your feelings, until you become Master of every electron allotted to your lifestream for the sole purpose of creating and expanding perfection—then, I try to be a comfort to your life!

We are a comfort, one to the other, only when we enable the lifestream, the friends, the associates, the aspirants,

the children, to learn within themselves to be self-sufficient and to gain self-mastery, to cease to lean upon externals, even upon the Perfected Beings. They are merely the wayshowers, merely the guides upon the path, merely the teachers by which you, each one, may grasp the full significance that lies within your controlled thought and feeling, and know the comfort of being able to stand alone in the dignity of your own Godhood, externalizing the electronic substance from the heart of God, as you require it. That is the comfort which we desire to bring. That is the comfort I desire to give to you, my lovely, shining, blessed spirits of God.

When I see the dove manifest above the infant form, at that moment, in my Office as Maha Chohan to this system, I am required to provide for each one a Guru and a sponsor, a member of the Ascended Host or the angelic host, who will give the required assistance to the lifestream so that he or she may be enabled to take full advantage of every opportunity offered and, whenever possible, manifest the magnificent victory of the ascension. I gave you, each one, your guardian angel and assigned to you your Master and I wrote your names in the book of life. I have watched you carefully all through the infant days, and the growing days—through the days of groping, the days when you sought the pleasures of the world, as well as the days when your heart began to respond to the pressure of the Master, and the angel, and the Holy Christ Self. I rejoiced when you began again to walk upward on the mount of attainment toward the shining summit, from whence one day you will hear the summons of your own God-self, “Come home, my daughter—it is finished.”

Remember, children, in service do not neglect your own

individual application, for it is your soul that must become white as snow. It is your feeling world that must become non-recordant to discord, and it is your mind which must be cleared of all human concepts—for you cannot take soiled garments into the realm of eternal perfection. When the clarion voice of your Presence speaks and you must rise, it is the application that you have made through the energies of your own world that will determine the condition of your soul when you stand before the Lords of Karma.

The Karmic Board is a merciful activity of life, but those above whose heads have stood that dove of light, those who have been given the privilege of incarnation where the ascension was a possibility, are measured by a strict code. It is not lightly that the final earth body is builded, into which the soul is placed at the time of incarnation. It is not lightly that the soul is judged at the close of the earth life when opportunity has been given and neglected!

Children, it has been a long journey! Ages and ages and ages have passed since you looked on the Father's face. Cycles of time have come and gone since the shining presence of the angelic host walked with men, since the devas and elementals in tree, in flower, in shrub, were visible, and man knew angels and elementals as friends and fellow workers on the path of evolution when he (man) was a bridge connecting the kingdom of the angels and the elemental kingdom, in harmonious balance and love.

We have come to the point now when religion and everyday life will again combine the three evolutions which, by the veil of maya, have been separated for countless centuries and are so little cognizant one of the other.

I am one through whose body, through whose temple,

comes the primal essence which represents all the energy used upon the planet Earth, both by the nature kingdom, as well as mankind, through the silver cord that passes through their (men's) minds and bodies.

The opportunity has been assigned to me to present to you the part the elemental kingdom plays in your life, and the part it will play in the worship of the future.

You have not heard too much about the activities of the Silent Watcher, yet the Silent Watcher is the first being who is drawn into action after the Sun of a (planetary) system decides to create a universe. Into the consciousness, into the mind and body of the Silent Watcher, are projected, by the Father-Mother God of the system, the entire pattern for every planet. It is upon the ability of the Silent Watcher to hold that pattern, plan and blueprint completely unchanging, that the final victorious manifestation depends. The Cosmic Silent Watcher received into himself a complete picture of the seven planets of our (planetary) system—the rivers, the lakes, the trees, the mountains of each one, each designed according to the requirements of the evolution that was to inhabit it. From this Cosmic Silent Watcher, seven lesser Silent Watchers were sent forth who, in turn, embodied the design of just one planet. The Silent Watcher is something like an architect, except that he holds a living and breathing activity of love and light, and not merely lines on a blue-printed page.

The Elohim are the builders of form. They (the Elohim) have constant reference to the design held within the consciousness of the Silent Watcher of each planet, lowering into form and building around the rays which form the cradles for the planets the necessary elemental substance.

Over our Earth is a planetary Silent Watcher. The Elohim

drew from his consciousness the exquisite perfection of our planet, fashioned it according to the size designated in the divine plan and, drawing the universal light from the heart of God by the magnetic pull of love, made this little planet to be the home of about six billion lifestreams.

The elemental kingdom works upward from the tiniest intelligence (so small that millions of them would not take up a quarter of an inch of space) into the builders of form that create bodies for mankind. Next, they graduate into builders of form, then into nature devas, who create mountains and cities, and later on they become Elohim, and finally may grow to be Silent Watchers of a planet, a universe or a galaxy.

You will see that my service, working closely with that of the elemental kingdom, is to train builders of form. In temples in the Third Sphere, where the beloved Venetian assists me, we teach elemental life to look upon a design (not as large as a planet, of course). We start with something very small, like the petals of a flower, a blade of grass, a dew-drop, or a snowflake. We, or one of the builders of form who is a guardian in one of the temples, make a design—externalize it in the atmosphere before him—and all the elementals in the class endeavor to embody a like form. They try to imitate that figure in shape, color and design.

Some of them are very grotesque at first, dear little beings, as they can hold the picture for scarcely a second at a time, when they resume their ordinary shape, but they are in school and finally there comes a time when they can embody the form of, let us say, an apple blossom. The teacher in the temple then notifies the nature devas that there is a group of elemental beings ready to become the blossoms on an apple tree in someone's orchard. Simple. And yet THINK of the centuries of training and self-control on the part, not

only of the elementals themselves, but of the teacher! Finally, you have a lovely white and pink spring.

The apple blossoms smell so sweet and the lovers of spring enjoy walking under the bowers of their beauty. The farmer has hope of a good crop in the autumn. The bees are happy as they make their honey, and the elemental is happy because he has fulfilled his purpose. Then the short season completed, the blossom falls, and the elemental returns home for commendation, for rest, and re-assignment. That is the work of the elementals! They are primarily mental beings (note: el-e-mental = mind of God).

Blessed ones, this endeavor is primarily to show you that the elemental kingdom must learn the control of energy through thought, to hold a constructive pattern and design, so that you and other people among mankind may enjoy the perfection we design in the Nature Temples—an apple, a pear, a peach, a grape—THINK of the energy and thought that goes into the creation of that, and the sustaining of it.

You are Saint Germain's legion in action. I am the life behind my son. I am the fire of the Holy Spirit that through the Seventh Ray, will manifest upon this planet Earth such glory as has never been known before. This I promise you, because you have come, because you have chosen to ponder my words, and, by your presence within this room and other rooms like this dedicated to God's love, you have chosen to be a comfort to life. I bless you exceedingly for this.

I stand by you, with you and shall, with every cell and atom of my being, endeavor to create that cosmic comfort and ever be that presence upon whose bosom you may rest your weary head, feeling my arms about you, never giving censure or blame, giving you comfort always, as well as

strength and understanding, illumination and freedom, that is, if you want me, for none of us may come unless we are invited.

I hope that I have perhaps shown you something of the service of the elemental kingdom which has been so badly treated by mankind, because unless mankind will arise and give a blessing to the elemental kingdom, they (mankind) are going to pass through some very unhappy experiences.

We hope to establish temples at various places on the planet Earth where foci of the Sacred Fire may be drawn to give certain benefits, certain blessings to the people. The leaders and lifestreams who have been chosen for this work, are chosen because of the momentum in their Causal Bodies, which can be forcefields through which those powers of the Sacred Fire may be focused for the blessing of the elemental kingdom, the kingdom of man, and the kingdom of the angels. You who have been drawn around these various blessed lifestreams, have not been drawn by chance. You have been called by the presence of God and ourselves, and your own sweet hearts and vibrant spirits are a part of those great forcefields, through which we may flash on an instant a blessing, a protection, and a power of light.

Beloved friends, accept now the love of one who has given you your breath. One day when your journey is completed, I shall stand by your side and accept your final breath—so never fear the change and transition which men call death, for when your call comes to return the breath, I shall be waiting to receive it, and you shall pass through in honor and dignity, with the dove still above your head, into the Halls of Karma, there to receive your wreath of victory. I thank you and I bless you. Maha Chohan

THE SEVEN ELOHIM

The seven Elohim are mighty beings of love and light who responded to the invitation of the Sun of this system to create this planet. Through ages of time, the Elohim have learned how to successfully use the creative powers of thought, feeling, spoken word and action, as God intended them to be used from the beginning. In a cooperative endeavor, the Elohim drew forth our entire system in perfect manifestation, of which system the Earth is just one planet.

Great nature devas serve with the seven Elohim to create and sustain the beauty of nature.

The seven Elohim represent the mental activities and qualities of the Creator. A tiny flame from each of their lifestreams is anchored in the forehead of every individual embodying on Earth. Through this sevenfold flame the Elohim extend their faculties and consciousness to every lifestream. This assists in holding a balance and fulfilling the divine plan in the outer world. The seven Elohim and their twin rays or divine complements are:

<u>Ray</u>	<u>Masculine Aspect</u>	<u>Feminine Aspect</u>
1	Hercules	Amazon
2	Cassiopea	Minerva
3	Orion	Angelica
4	Elohim of Purity, Claire	Astrea
5	Vista	Crystal
6	Elohim of Peace, Tranquility	Pacifica
7	Arcturus	Diana

THE EVOLUTION OF AN ELEMENTAL

The training of elementals starts in nature temples under the supervision of nature devas. They gather together and the deva creates out of his own light body a beautiful blossom or some other design such as a blade of grass or a snowflake. Then all the little elementals in the class endeavor to embody a form just like it. They try to imitate that figure in shape, color, and design.

Here the elementals learn to master all of the qualities associated with creation—THE MOTIVE AND WILL TO MANIFEST, THE PERCEPTION OF HOW TO DO IT, THE LOVE FOR THE ENDEAVOR, MAINTAINING THE CLARITY OF THE ORIGINAL DESIGN, THE CONSECRATION AND CONCENTRATION TO CARRY IT THROUGH, THE RHYTHM OF APPLICATION, (THE WILLINGNESS TO MANIFEST THAT DESIGN OVER AND OVER AGAIN) AND FINALLY, THE ABILITY TO ENVELOP THE DESIGN IN PEACE AND SERENITY.

At first, the elementals are only able to hold the picture for a second or two, but finally they can embody that form. If it is an apple blossom, the teacher in that temple notifies the nature devas that there is a group of elementals ready to become the blossoms on an apple tree in someone's orchard.

It sounds simple, and yet it takes centuries of training and self-control, not only on the part of the elementals, but of the teacher as well. But finally you have a lovely pink and white spring. The apple blossoms smell so sweet and people enjoy walking under them. The farmer has hope of a good crop in the autumn. The bees are happy as they make their

honey, and the elemental is happy because he has fulfilled his purpose. Then, the short season completed, the blossom falls and the elemental returns home for commendation, for rest, and for re-assignment.

When the elemental is ready for a larger responsibility, such as being a nature deva, he may direct several elementals bringing forth, for example, a beautiful garden.

Some elementals graduate into greater service and become devas who watch over an entire nation. A few elementals are chosen to work directly with the Maha Chohan. In this association they learn how to draw and direct those magnificent currents which govern all nature. This training enables some elementals to apply for the position of an Elohim. The Elohim, in a joint, cooperative action, create the planets of an entire galaxy.

THE BODY ELEMENTAL

Function and Purpose

Before taking his first embodiment on Earth, each individual was called before the Karmic Board. In a solemn ceremony, he was joined with an elemental being, called a "body elemental." At this ceremony, the body elemental assumed the obligation to stay with the particular lifestream during each successive embodiment until the individual reached the ascension. It is the purpose of the body elemental:

1) to cooperate with the Christ Self and other elementals, called "builders of form," in the creation of the physical body from the moment of conception to full growth;

2) to perform certain "involuntary functions" of the physical body, such as breathing, and

3) to keep at all times the physical body as well as the etheric, mental and emotional bodies in a good state of repair, and, in all ways, to make the physical body a habitable temple.

Training

The pure electronic light substance and the forces of the elements were given into the keeping of the body elemental, who was allowed to look upon the perfection of the Christ Self, which was to be the pattern it would build with the substance of the physical realm.

Between embodiments, the evolving soul (individual functioning in the etheric body) was allowed to sojourn in

whatever realm or sphere it earned the right to inhabit through its use of energy in the Earth life, and the elemental was freed from it to enjoy a certain freedom in the elemental kingdom and to rest for the next service, when the soul was again called for a new embodiment.

Each individual has its strength in a certain sphere. The body elemental was chosen from the same sphere as the individual. For example, if the individual, through his prior training (called "Journey Through the Seven Spheres"), dwelled the longest in, say, the Fifth Sphere, then the body elemental was also chosen from this sphere.

The training of the body elemental occurred at inner levels. Several elementals were trained to draw universal light substance and to follow a pattern, to create a flame flower or some simple manifestation of nature. The length of time that the elemental could hold the pattern in his consciousness determined the duration of the manifest form. As these potential builders of form increased in their capacity to hold the pattern received by them from the great nature devas, they worked up the ladder of evolution to a point where they might be entrusted to build the temple (body) which would house the presence of God.

The Garden of Eden

At first, the creation of the body was a joyous and happy experience. After the Presence projected the Immortal Flame into the airless cell, the body elemental drew the necessary elements and re-created, almost perfectly, the design and pattern of the Holy Christ Self. The flesh forms of those early

ages were beautiful beyond words to describe, and truly a golden age of beauty prevailed. The etheric body was the pattern which the elemental used, for this finer body outpictured the full glory of the Holy Christ Self, and it was easy for the elemental to have reference to this pattern from time to time. The elemental took up abode within the temple which it had built, and like a housekeeper or a caretaker, maintained the functions which kept the body in workable order (repairing, fueling, etc.), and the association between the dweller and the elemental was a happy one.

The Fall of Man

When man began to experiment with the use of energy, and to build into his etheric body certain distortions of form and impurities of essence, the body elemental became confused because the pattern was distorted. According to its basic characteristic, which is to MANIFEST THAT FORM UPON WHICH ITS ATTENTION RESTS, it obediently began to copy and build the distortions into the flesh form.

After centuries of endeavor to reproduce the Holy Christ Self through the substance provided by the lifestream in the etheric body, and the tremendous added strain of working against the appetites and passions which the individual developed when it fell from purity and grace, the body elemental soon developed an antipathy for the lifestream with which it was forced to work. Thus, the body elemental was no longer a cooperative, loving helper, but often blocked the projects and designs of the individual.

When the Lords of Karma called the incarnating

lifestream again, it usually appeared within its etheric body, wherein is recorded all the experiences passed through, not only on Earth, but in the inner realms between embodiments. If individuals are to render greater service to life, the Lords of Karma will often allow the devic builders of form to give additional training to the body elemental by drawing it into a higher sphere of activity at inner levels, before the soul is summoned for incarnation. The pattern for the new body is determined by “karma,” and the new body's appearance, comfort, and effectiveness to the soul is determined by that which the soul has earned in past lives. Therefore, this limits the incoming lifestream's choice of garments. If many of the etheric records are of a destructive nature, this will cause a distortion of the physical form.

The body elemental is also called at this time, and there is often quite a “scene,” because the elemental rightfully objects to using its energy to mould and form a body as distorted as the etheric body of its partner on this long journey. The Christ Self of the lifestream is also in attendance, and the body elemental is soothed by its presence and offer of support. Then the substance which the soul has charged with his energy—pure or otherwise—is given to the body elemental to weave into the new physical form. Here again, it is very reluctant to take such impure substance, and wherever possible, it saves the “best” of the elements for the outside, and puts the impure substance inside the form.

If, in the subsequent embodiment the individual's lifestyle further abuses his four lower bodies through wrong foods (meat, excess sugar and salt), bad habits (smoking, alcoholic drinks, habit-forming drugs), disharmonious

thoughts, feelings and actions, the body elemental finds itself continuously opposed in its endeavors to copy and outpicture the perfection of the Christ Self. The relationship of the individual with the body elemental may deteriorate to the point where the elemental becomes openly antagonistic. This may result in the early disintegration of the functions of the physical body, resulting in diseases such as the onset of cancer.

Needed Cooperation With The Body Elemental

Great love, gratitude and understanding to your own body elemental creates an affinity between it and the physical form.

Remember, the body elemental beats one's own heart, activates one's nervous system and takes care of the proper functions of the organs of the physical form, and is usually condemned when any portion of the physical vehicle ceases to function properly. The truth is, that the destructive use of free will by the uncontrolled emotional, mental, etheric and physical vehicles of the soul, creates the chaos in the physical vehicle, and the body elemental, itself, serves constantly to repair such damage.

When the individual comes to a point of understanding, and endeavors to abide by the laws of purity and abstinence from those activities which break down the structure of the physical form, there is the beginning of a new association and friendship between the individual and the body elemental. This, however, is not built up in the matter of an

instant, for centuries of abuse and careless use of the temple, created and sustained by this elemental, is not easily forgotten. Then, too, the body elemental must wait for the purification of the etheric envelope, which forms its pattern. When this etheric body has been held in the Sacred Fire of the Violet Flame, and resumes its light pattern of the Christ Self, the body elemental can quickly outpicture this in the flesh.

Remember, the very substance that makes up the physical form, woven from the etheric body, has been used over and over in successive embodiments, and this, too, requires purification in order to raise in vibratory action and emit light. You will see, therefore, the necessity for the use of the Violet Flame and the action of the Cosmic Flame of Purity. When this is understood and conscientiously applied, we shall have again some of those “bodies enduring” that are absolutely non-recordant to disease, disintegration, and finally, death.

The Maha Chohan has said, “Peace, unity, harmony and understanding among one's own members (body, mind, soul, personality, and God-self) are essential to equanimity and progress on the path. To fight the body elemental is useless; to pamper it, is to lose it. TO BECOME ACQUAINTED WITH IT IN THE MATURE DIGNITY OF THE MASTER OF THE HOUSEHOLD, WHEN REQUIRED TO DIRECT HIS IMMEDIATE STAFF, IS WISDOM.”

The Preparation By The Expectant Mother

Most individuals who are about to become parents do not understand the intricate process of creation, and leave this up to the body elemental and the builders of form.

However, conscious cooperation with the body elemental and the builder of form goes a long way in the creation of the developing physical body into an instrument of perfection. If mothers could come to an understanding of the vital role they play in the actual forming of the nature of the child, the human race could be redeemed much more rapidly. This is done by keeping the mind upon clean and pure and beautiful thoughts, washing memories of the impurities of the past, by holding the etheric body in the Sacred Fire of the Violet Flame, and by keeping their own physical bodies as temples of the Most High Living God!

Two thousand years ago, beloved Mother Mary held the "Immaculate Concept" for her child, Jesus, and she has offered to hold this picture of God's perfect creation for all mothers who ask her to do so. Visualizing the Luminous Presence of Mary will help in maintaining the perfect concept as "Man made in the image and likeness of God."

Suggested Meditation and Decree

1. Rest your attention on your I AM Presence and your body elemental. Pour your love and gratitude to this blessed friend, who has been with you during all of your former embodiments, and who has taken the vow to be with you until your ascension.

2. Call on the Law of Forgiveness for all the wrong you have done, which has hurt your relationship with the body elemental. Now call on the Violet Flame to cleanse your etheric body, to remove the causes, cores and effects of past wrong thoughts, feelings, and action. (This will give the body elemental a more perfect pattern to work with).

Decree

Mighty I AM Presence, beloved Maha Chohan and beloved Ascended Lady Master Mary:

Bless my body elemental for its service to me. At the close of my Earth span set it ever free. Without its loving presence I would not even be. Blessed body elemental ASCEND THOU WITH ME!

Beloved I AM! (3)

By God's own hand! (3)

I now command! (3)

Do it today! (3)

Do it to stay! (3)

MANKIND'S RELATIONSHIP TO THE KINGDOM OF NATURE

Originally the Earth was created of pure substance, not so dense as it is now; there were more translucent and radiating, iridescent colors. As the discord of mankind increased, the substance of Earth became soiled and more dense and dark. That is why earth or ground is called soil.

Nature never produced anything that would be destructive to mankind, but as it is the duty of the elemental life to obey the commands of individuals endowed with the Three-fold Flame in their hearts, they have been absorbing mankind's discordant thoughts and feelings. This has caused tornadoes, hurricanes, tidal waves, earthquakes, and disasters of nature—which is merely an endeavor by the beings of these elements to THROW OFF the impurity and discord which man has imposed upon them for millions of years.

The waste matter that has been put into the earth and the waters, and the impure energy that goes into the air, has caused a pressure of human creation, not only on man, but on the elemental kingdom. The destructive activities of nature can be controlled by mankind who understand the Law and understand how to make the call to release the elemental beings from the discord imposed upon them. One can call to the I AM Presence and to the Masters or Beings in charge of that element and who govern such activities, to direct into and enfold the conditions in their cosmic flame and transmute all discord, and flood them with cosmic love. Then visualize the Violet Flame going forth from your Presence and the Great Beings transmuting the discord into

peace and harmony. Next see the Pink Flame of Love enfold the beings of the elements, making them again happy and free.

In case of fire, call on your I AM Presence and beloved Ascended Master Nada, to pour her radiance over the fire. Visualize this radiance as a pink blanket. One can also call on Oromasis, Prince of the Fire Element.

Wise is he who will earnestly endeavor to purify his own world and make friends with the little beings of nature, pouring love, gratitude, and blessings to these beings, who so ceaselessly and selflessly serve mankind—if he wishes protection in times of crises.

Within man is the kingdom of the mind, where the elementals—responding to his THOUGHT—become the form which he holds in his mind. Within man is also the emotional world which is the kingdom of the angels, to which they respond, amplifying every virtue, every tiny pulsation of hope, purity, peace, love, or kindness generated within the feelings. The MIND is the magnetic center for the elemental kingdom; the FEELING WORLD is the magnetic center for the angelic kingdom. Within mankind, one day, both shall be blended consciously, and man will be master through controlled energy in the feelings, coupled with definitely directed thought, to be a “bridge” between the two great kingdoms, and these three kingdoms will again unite in worship, in service, in evolution, and in God-happiness, for eternity.

The elemental kingdom must learn control of energy through THOUGHT, to hold a constructive pattern and design

so that you and all people may enjoy the perfection designed in the nature temples. The angelic kingdom must learn control of the FEELINGS, to hold within themselves the virtue they have chosen, until directed to release it to one in need of it. MAN MUST LEARN CONTROL OF BOTH, AND THUS BECOME A MASTER!

It is time that mankind recognize this service and send to both the elemental kingdom and the angelic kingdom the recognition and love which they deserve for their constant service to mankind. Without the elemental kingdom, there would be no form. Without the angelic kingdom, man could not draw the blessings of God.

The Electronic Pattern of Ascended Master Saint Germain

Saint Germain's lifestream is the Maltese Cross of Freedom—the perpendicular bar reaching upward into the spiritual spheres and drawing the power of the Sacred Fire through his body into the Earth and anchoring it there for the redemption of the planet and its people, the cross bar representing his outstretched arms joining the angelic and elemental kingdoms to the human evolution to serve in beautiful, harmonious cooperation.

Under the leadership of beloved Saint Germain, In the coming golden age, a divine brotherhood, combining the energies of the angelic, human and elemental kingdoms, is pre-ordained as the natural expression of unity, harmony and loving cooperation among the evolutions finding hospitality and opportunity in the Earth's atmosphere.

THE FOUR ELEMENTS OF NATURE**An introduction to the Addresses of the Four Directors of
the Nature Element****By Ascended Master El Morya**

The knowledge and control of the four elements and their inhabitants is an essential part of the training of the chela. He should know the good uses to which these elements and their inhabitants (elementals) can be put to, and also the distortion of their expression through the wrong qualification of mankind.

THE FIRE ELEMENT is the most important of the four as it is an expression of the Sacred Fire, from which the Violet Flame and all other flames proceed. One of its constructive activities in the physical plane is that of purification through the incineration of rubbish and human bodies, which allows the elements to return to the sun for repolarization. Its destructive activity is shown in the burning of human bodies, buildings and woods, also in thunderstorms and in the use of firearms, bombs, etc..

THE AIR ELEMENT is also very important for the maintenance of life in the physical plane, as without air people cannot live for any length of time. By the conscious control of the breath, you can not only harmonize your bodies, making them better temples of the living God, "I AM," but you can purify your surroundings, as well. It's beneficent activity is seen in the warm and cool breezes, wherever they are required. They are also the means of propelling boats and ships on oceans and rivers, as well as airplanes. We see its

destructive activity in cyclones and thunderstorms.

THE WATER ELEMENT is related to the emotional body and the purification of it results in the purification of this body. In the physical plane it is a great cleansing agent and one of the factors for the balancing of the weather conditions and the production of harvests. Its destructive activity is shown in floods, droughts and wrecks at sea in which men and animals perish. That this element like all others can be controlled was manifested by the Ascended Master Jesus when he stilled the waters in the turbulent waters in the Sea of Galilee.

THE EARTH ELEMENT is vital for the production of food so important to mankind to build perfect bodies. We see its beneficent action in the beautiful landscapes, In flowers, in beautiful minerals and of course, in the production of harvests. Its destructive action is shown in the landslides, volcanoes and earthquakes.

The daily purification of the elements and the cultivation of the friendship of the elementals, as a pre-requisite for their control and conscious cooperation, is a daily requirement of the chela, hence the importance of the wise selection of the words of the Ascended Masters and Cosmic Beings, and the corresponding decrees contained in these pages, meant for daily reading and application.

THE PURPOSE OF THE AIR ELEMENT**By Ascended Lady Master Aries**

I am Aries, the Spirit of the Air and the director of the sylphs who serve you ceaselessly to purify Earth's atmosphere. I am the first visitor you had when you first took embodiment and your infant form accepted into your lungs your first breath from our Lord Maha Chohan!

This breath is the animating principle of the air element which enabled you to begin the rhythm of breathing, AND IT WILL SUSTAIN YOU IN A PHYSICAL FORM AS LONG AS YOU HAVE A SERVICE TO RENDER HERE. At the close of your earth life, this breath will be returned again unto myself, through the kind offices of the Maha Chohan.

The breath of life is offered to many. A goodly number of new infants born from the womb of woman refuse to accept that breath, and, standing at the very threshold of a new life, return again into the realm of the unborn. To those of you who were brave enough—whose Holy Christ Selves were determined enough to, and whose outer consciousness was constant enough to grasp the breath of life, to you I am grateful!

I am the servant of your Light! All of the breath you desire is yours to fashion from it your beautiful melodies and songs—to fashion from it the spoken word, and to utilize it as the motivating power by which all the activities of the physical form are performed.

YOU HAVE NOT KNOWN, YOU HAVE NOT TOUCHED THE HEM OF THE GARMENT OF POWER WHICH IS WITHIN YOUR

CAPACITY TO DRAW FROM THE AIR AND THE ETHERS THE NOURISHMENT, THE SPIRITUAL STIMULUS, THE ETERNAL YOUTH AND BEAUTY, THE VITALITY AND FIRE WHICH AWAITS THE MAGNETIC PULL OF YOUR FREE WILL, AND THE EXPANSION OF ITS QUALITIES THROUGH YOUR PHYSICAL BODY.

Those who have even barely investigated the control of the breath, know something of the buoyancy, the vitality, the refreshment that is within it. HOWEVER, FEW THERE ARE IN THE WEST WHO HAVE DRAWN FROM THE AIR ELEMENT THAT SUBSTANCE OF FIRE WHICH IS THE "ELIXIR" FOR WHICH MANKIND HAS SOUGHT THROUGH THE AGES. By its use, one may regain eternal youth and beauty, indestructible health, strength and energy, transforming the physical body into a translucent form of light!

You are like individuals within a storeroom filled with gold, crying that there is lack and poverty! IN THE AIR YOU HAVE EVERYTHING—EVERYTHING REQUIRED—TO SUSTAIN THE HUMAN FORM, TO VITALIZE IT, TO QUICKEN THE VIBRATION OF ITS ELECTRONS AND TO REDEEM IT.

If you will experiment with this, I shall assist you to bring back into the organism of your physical form the perfect rhythm which you once knew. We shall also bring it back into the etheric body, back into the emotional world, and into the mental body as well, for when you abide within the natural rhythm of your being, you can know no tension, distress, disease, or limitation of any kind. IT IS MERELY BECAUSE YOU HAVE BROKEN THE NATURAL RHYTHM OF YOUR INNER BODIES AND PHYSICAL BODIES THROUGH DISCORD AND DISHARMONY, THAT YOU FIND YOURSELVES SUFFERING

UNDER CERTAIN PRESSURES WHICH ARE WEIGHTS UPON YOU AT PRESENT.

Within the air are so many spiritual forces which the average man uses not at all. The average member of the human race responds only to the almost involuntary inhalation of breath as regulated by the Holy Christ Self and the body elemental. The short, hurried shallow breaths sustain life in the physical body but do little to spiritually vitalize and nourish it. We do call that mankind awaken again to the absolute necessity for developing the rhythmic breath, DRAWING DEEPLY UPON THE SPIRITUAL ENERGIES IN THE ATMOSPHERE ALL ABOUT HIM, DIGESTING THE NOURISHMENT OF THAT ESSENCE, EXPANDING IT, AND THEN GIVING IN TURN A BLESSING TO THE ATMOSPHERE AS HE BREATHEs OUT THE BREATH FROM HIS BODY.

If you could see the amount of poison exuded just through the breathing out of the polluted air from the physical bodies of mankind in one twenty-four period, you would realized with more emphasis and certainly with more gratitude the service of the sylphs who, twenty-four hours a day, utilize the powers of the Sacred Fire to keep mankind, imprisoned elemental life, and the four-footed creatures from poisoning themselves to the point of so-called death through their own exhalations!

It is a commonly known fact that mankind can live for as long as forty days without food, approximately twelve days without water, but only about THREE MINUTES without breath.

Through your loving cooperation in the Transmission

Flame Classes of our Lord, the Maha Chohan, you are taking the first steps toward controlled breathing—the inbreathing, absorbing, expanding and projecting of your breath. With the help of the Almighty Father of us all, you shall develop greater efficiency in the use of the breath and in the absorption of its God-qualities and powers for your own benefaction!

During this class, we are honored by your recognition of our reality, your invitation to us to be with you, and your loving gratitude to and for our various elements. The upreaching of your energies through the veil of maya (discordant creation) allows us to render service to every human being upon the planet, and to cosmically transmute a certain portion of destructively-qualified energy in the mass strata of discordant thought and feeling, which form the effluvia of your planet.

Naturally, beloved ones, mankind have used air through the ages. From the time the first root race descended, every lifestream breathed free, pure air into its lungs. After the coming of the “laggards” from other stars and the distress of the shadows created by discordant thought and feeling, every lifestream has breathed out some poison into that pure, fresh air, which was prepared for you by myself and the mighty sylphs who work with me in this service.

My service is to provide the essence of air! Like Neptune and Virgo, the ages have required that I lower the vibratory action of the electrons that make up the air element so that the lungs of man could absorb, utilize and benefit by it

For the few people who are even cognizant of this ser-

vice, there are billions who are not! There are billions of people who take air, water, sunshine and God's good earth, for granted, billions of people who use the gifts of the elements, pushing aside, as superstition and mythology, the existence of the directors of those elements. More foolish still, instead of accepting a directing intelligence who governs these tremendous forces, they attribute the regulation of the tides, of the light of the Sun, of the harvest, of the air, to chance and "happenstance!"

Can you conceive of the magnitude of that service for one lifestream, alone? Placed within a room into which there was not an infiltration of oxygen, an individual would eventually destroy himself by his own polluted breath. You know that! What think you, then, of the billions of lifestreams on this Earth today who, through the mercy of life, breathe in energy, vitality and light, and breathe out—how many times a day—polluted substance? This is the imposition placed upon the breath of life through discordant thought, feeling, and etheric consciousness, all of which must be purified and redeemed by the nature spirits through the night hours, so that the individual may receive the next day's supply.

That is the service performed by the air elementals upon the planet Earth—keeping the atmosphere clean and clear, using the purifying powers of the Sacred Fire, the use of which you are now being taught. By purification, this Sacred Fire changes the quality of the air by raising the vibration of the exhaled breath of the inhabitants of the planet, both man and beast.

IF THE SYLPHS AND THE DIRECTORS OF THE AIR CURRENTS SHOULD DISCONTINUE THEIR SERVICE, EVEN FOR ONE TWENTY-FOUR HOUR PERIOD, THERE WOULD BE NO NEED FOR THE INGENUOUS METHODS OF DESTRUCTION CONCEIVED IN THE HUMAN MIND TO DESTROY THE RACE, FOR THEIR BREATH—NOT PURIFIED BY US—WOULD ASPHYXIATE THEM IN A SHORT TIME, DUE TO THE CEILING PLACED AROUND THE EARTH WHICH LOCKS IN ITS ATMOSPHERE.

When you rise in the morning to a shining new day, when you breathe in pure, crystal light, and when you feel your bodies renewed in strength and energy—then gratitude to the air element and the beings that govern it, is surely in order!

My twin flame, who works with me, is the great God Thor. Beloved Thor's activity is to move the air, in kindness and in wisdom, under God's direction, wheresoever is necessary to give the greatest blessings to the Earth and its evolutions. His energy is the "drive" of the atmosphere, and he controls the spirits of the four great winds.

The beautiful Spirit of the East Wind brings the rain where needed and withholds it where it is not (as your decree so aptly puts it). He moves the cloud formation from one place to another to allow the release of Neptune's gift of rain.

The great West Wind brings the refreshing, drying zephyrs after rain, drying up the excess waters and returning them, through evaporation, to the sun for purification.

The beloved Spirit of the South Wind carries the balmy radiation of ease and peace. The strong North Wind carries

the purifying blanket of snow with which he covers the Earth, giving it a certain nourishment, as well as beauty. On a sparkling morning after a snowfall, when the sun rises upon a crystal world of purity, perhaps some of Earth's evolving spirits can remember back to the time when the planet itself was so pure.

We are the beings who released the pressures of energy through the wind which filled the sails of the boats that carried brave men and women on spiritual missions in the past, that carried the boats from Atlantis before she sank beneath the waves. Ours was the pressure of energy which drove the boat of the brave Serapis to Luxor, and the other boats to their respective destinations. We are the spirits of the air, who filled the sails of the ship which carried beloved Mother Mary and the Holy Grail to England, carrying the blessing of the Christ to Glastonbury. We were the pressure and power of air which drove the ships of Columbus across the sea and brought him to the shores of the Americas.

We are the spirits of the air who have been invoked, utilized, and blessed by many sons and daughters of men. We have also been cursed by some of these same sons and daughters of men when, sometimes, the elemental life in the air was stirred to rebellion through man's discord, and the sandstorms that swept across the deserts pelted the burning sands into the faces of the pilgrims, bringing great distress.

We are the beings whose element is held within the cyclone, the hurricane, the typhoon—those tiny, intelligent and faithful beings who, now, through your great and mighty calls, are being freed from imprisonment there.

In the name of life, as you think of the great element of air that surrounds your Earth, we ask you to bless and bless and bless it, calling on the Law of Forgiveness for mankind's abuse of it for so long! THEN, WHENEVER THE GREAT COSMIC LAW PERMITS THE INSTANTANEOUS ANSWERS TO YOUR CALLS TO PREVENT DESTRUCTIVE CATACLYSMIC ACTIVITY, we shall assist you by placing our hands upon the storms and stilling them. In every way possible, we shall endeavor to prevent destructive cataclysmic activity caused by undue air pressure.

THE THOUGHTS, FEELINGS AND HUMAN CONSCIOUSNESS OF MANKIND ARE SUCH THAT THERE HAS BEEN A PROTECTIVE RING OF ENERGY PLACED AROUND THE EARTH, WHICH KEEPS HER EMANATION FROM POLLUTING THE OTHER PLANETS OF THE SYSTEM TO WHICH SHE BELONGS. NOTHING CAN PASS THROUGH THIS "RING-PASS-NOT" BUT HARMONY AND LOVE. YOU MIGHT SAY THAT THE PLANET EARTH IS "IN QUARANTINE."

Now, beloved ones, as the axis of the Earth is being restored to its original position, this must be accomplished as carefully as possible, because, as you know, the least jar would upset the ocean currents, the gas belts, the surface of the Earth, and the air currents in the atmosphere. Yet, although these cosmic changes are taking place rhythmically and according to cosmic cycles, your magnificent decrees are essential, not only for the peace of the elemental life, but for the safety and comfort—without disturbance—of all the evolving life upon the planet.

If we are given the authority by unascended mankind

(through their decrees and calls) to act in their worlds, we shall most assuredly do so!

If we are given the authority to act in a planetary measure, we shall do that also, and use all our efforts to adjust the movements of the Earth, which is now beginning to respond to the centripetal force of love from the hearts of the God-parents, Helios and Vesta, in the Sun, who are now sending out the call to the planets of their system—"Come home!"

FOR EVERY MOVEMENT IN THE READJUSTMENT OF THE PLANET, THE BELOVED DIANA, NEPTUNE, VIRGO AND MYSELF, TOGETHER WITH ALL THE BEINGS THAT COMPOSE OUR KINGDOMS, WILL ENDEAVOR TO MAKE THE NECESSARY CHANGES AS PEACEFUL AND HARMONIOUS AS POSSIBLE—PROVIDED YOU MAKE THE CALLS.

Dear hearts, along this line, may I digress for a moment and say that I know it seems very difficult to labor so hard, seeing the rest of mankind abiding in comparative peace, with the hurricanes diverted, the erupting volcanoes quieted, the people going on their merry way, while a few blessed students are "sweating," straining, and struggling to make the calls which bring these things to pass. It is sometimes very difficult not to question yourselves as to whether you are some of "God's fools," or not!

Blessed ones, it was ever thus! It was ever thus! There is no such thing as "happenstance." All is scientific. Every ounce of energy, every "jot and tittle" you expend is accounted for, and you, and you alone, have the glory and reward for your service, deposited in your Causal Body. Eve-

ry decree you have given, every step toward God that you have taken, every ounce of energy that you have ever used to persuade the souls of men to step forth upon the path—all these are “treasures laid up in Heaven” for you (stored in the Causal Body).

Now, to return to the electrons that compose your own bodies—these responded to the immortal flame within your hearts when you were first projected forth from your God-parents. The electrons in that First Sphere responded, and your White Fire Body was created, which vibrates so rapidly that it can only be seen by the God-free beings.

The electrons in every sphere through which you passed, responded as the heart flame consciously descended and took upon itself the obligation to incarnate in this physical world.

The emotional body is also composed of electrons, swinging around their central core. The mental body responded in like manner, and the etheric body responded also. The etheric body, however, is made up of finer ethers.

Now, what exactly is the etheric body's service to life? It is your book of memory, and within it is recorded every experience you have ever had, all through the ages, WHETHER IT BE CONSTRUCTIVE OR OTHERWISE. Every time a beam of energy passes out from you, it sets up a cause, and an effect ensues. By the Law of the Circle, which is irrevocable, the effect returns and makes either a “star” or a “scar” on the etheric body. The etheric body has accompanied you since you first took incarnation upon this Earth. In that etheric body is a record of all your experiments with life—

ALL your victories, and ALL of your disharmonies – the unhappy experiences with your fellowmen, all through the centuries.

What has all that done to the etheric body? It has done the same thing it did to the mental and emotional bodies—it has driven shadows into the spaces between the electrons, and formed the pie-shaped wedges of dark, heavy substance, which have been previously alluded to in other addresses during this class. This has lowered the vibration of the electrons and dimmed the radiation of their light. It has also driven into the etheric body bitter resentments, lack of faith, and other qualities of a negative nature.

We are concerned with the purification of the etheric bodies of mankind so that there are no longer desires by human destructive free will. We are concerned with the purification of the rebellions and resentments that exist between the forces of nature and mankind. When the elementals KNOW, through proven fact, that mankind seeks to COOPERATE WITH THEM, we shall see the reestablishment of that glorious kingdom of angels, mankind and elemental life which will be externalized in Saint Germain's Golden Age of permanent perfection for the planet and its evolutions.

May I suggest that you BREATHE THE GOD-GIVEN AIR DEEPLY—AND LOVE, OH, LOVE THE SPIRITS OF THE AIR. Know that Aries and Thor are always with you, in the air you breathe, and that we always stand ready and willing to respond to your slightest call.

THE WATER ELEMENT**Address By Beloved Neptune****The Purpose of the Water Element**

Beloved Children of the Earth,

I come to you at your invitation. That invitation has come through your attention upon my element, and through the calls and decrees for the freeing of elemental life within the water, from the pollution of the ages by mankind's effluvia.

The gift of the water element within your emotional bodies, has given you the capacity to FEEL. The individual who cannot feel deeply has much to learn on the pathway toward God-freedom!

Beloved ones, as I bring you the blessings of my element, I also bring to you the gratitude from every ocean, sea, river and body of water that you, individually and collectively, have acknowledged and blessed, as well as from the undines who have been imprisoned for many ages in the sewage spewed forth by the human consciousness.

I am grateful, indeed, for this opportunity to speak on the subject of the water element. This will enable me to anchor certain currents of energy which will give personal, continental, and planetary protection in the days and years ahead.

Beloved Lunara, my twin flame, and I have dedicated and consecrated our beings, and our purpose to the control of the water element, which forms by far the greater part of your planet.

Together, we create and sustain the rhythm which governs the tides. Have you any idea how much energy is required to bring the tide of a mighty ocean to flood and to control that body of water by the command, "Thus far and no farther?" We are also in charge of countless millions of undines who live therein, many of them in the form of waves eighty and ninety feet in height, others as small as a drop of water!

Do you realize the pull of love that is required to draw the ebbing tide, causing it to recede from the landed surface of the shore, and to control the energy that is within the power of centripetal force? That power can be yours if you choose to accept it! Where the flood tides roll, where the rivers rise, where the skies emit an excessive amount of rains—by the power of Neptune, as I stand by your side, you, too, may be master of the water element!

Water has served mankind on this planet since the first root race placed their feet upon the landed surface of the Earth. The substance of water, in cooperation with the elements governed by Virgo, Aries and the mighty Helios, has made possible everyone of your harvests.

The water element provides purification for your physical bodies, refreshment for the internal organisms of those forms, and has provided for you the elemental substance which makes up the greater part of your emotional and physical bodies. MAKE FRIENDS WITH THE WATER ELEMENT. Water is ordained by the God of all AS A FRIEND TO MAN. Is man such a friend to the water element? PONDER UPON THIS!

Conditions before the "Fall of Man"

At the time of the creation of the Earth, the vibratory action of the water element of the Earth was much more rapid than it is today. The waters of the beautiful oceans, lakes and rivers were crystalline and iridescent. The waters literally "sang" and added to the music of Earth's beautiful atmosphere. The undines were happy to serve in such a beautiful element and, truly, all was PEACE in the kingdom in which we served. At that time the people of the Earth loved the water and enjoyed its purifying and refreshing service, as well as sailing happily upon its surface. In turn, the undines and the electrons that made up the water element loved mankind and enjoyed serving them.

Because the emotional bodies of mankind were happy, reverent, pure and free of discord, the people moved effortlessly upon the Earth, there being no weight of misqualified energy around the electrons in their four lower bodies, particularly in their emotional worlds. It was truly a time period of contentment and peace in the loving association among angels, Masters, the mankind of Earth and the elemental kingdom. It is toward the re-establishment of this era PERMANENTLY that we are all now serving co-operatively in this cosmic "push" toward purification of all of the elements of the Earth.

Conditions after "the Fall"

Beloved ones, many atrocities have been committed by the mankind of Earth using the water element to extinguish life (through drowning, etc.) not only of human beings, but of animals as well. Many lifestreams have participated in wars wherein many ships were sunk and great numbers of people passed from the body in excruciating fear and suffering. These records are still within the etheric and emotional bodies of those individuals.

Fear of the water element is due to either having suffered shipwreck and drowning, or having participated in causing others to suffer such agonizing experiences. In certain specific places where many ships have been wrecked, the ethers are filled with the moans and cries of those who have long since passed into happier lives and, mercifully, no longer remember those tragedies. These destructive etheric records FORM VORTICES OF DISTRESS in which hurricanes, typhoons and other dreadful storms are born.

For example, there is an etheric substance which vibrates in the atmosphere around the location of the sinking of ship named "Lusitania," and this condition exists at many other places where the tides, hidden sand bars or rocky peninsulas have formed snares for the unwary seamen. The use of hidden mines and submarine warfare in your present day has also heavily charged the etheric substance around the planet Earth with great distress.

After the pollution of the consciousness of mankind through the coming of the "laggards" from other Stars, it was necessary for the directors of each element to lower the

vibratory action of that element so that it might be efficacious to the more slowly vibrating action of Earth's people. This required the mastery of which I just spoke, changing the rate of the vibration of the electrons and atoms in the water element, but still keeping them harmonious.

The Recoil of the Water Element

As beloved Astrea and the beloved Elohim of Purity told you last evening, mankind's use of the various elements to serve a destructive purpose always brings a recoil upon the personal self.

What do you suppose the "Lorelei" spoken of by Homer really were? They were undines bent on destruction, mischievously affected by their proximity to mankind's destructive impulses.

The excessive droughts, the flash-floods, the unequal distribution of the precipitation of water in various places, is due to mankind's abuse of the water element in the past and present. ALL THIS CAN BE REMEDIED by your loving cooperation NOW. Beloved Lunara and I have worked almost alone in this endeavor heretofore.

THE CREATURES OF THE DEEP SUCH AS THE OCTOPUS, SHARK, KILLER WHALE (TO MENTION BUT A FEW) HAVE ALL DEVELOPED THEIR DEFENSE MECHANISMS AS A RESULT OF THEIR HAVING CONTACTED THE "KILLER INSTINCTS" IN MANKIND'S OUTER CONSCIOUSNESS. As you continue to call for the purification of the water element and the redemption of these creatures, you will see them disappear from the ocean

depths. It is a marvel to me to see how many defenseless creatures on land and in the sea hunted by mankind have not developed a greater antipathy toward the human race and submit helplessly to the unnecessary slaughter, just for "sport." HOWEVER, THOSE CREATURES SO HUNTED REALLY RETROGRESS AND, IN EACH SUCCEEDING EMBODIMENT, CARRY MORE AND MORE OF A DESTRUCTIVE AND VINDICTIVE NATURE WITHIN THEMSELVES. Were it not for our endeavors and the great assistance of the Elohim of Purity, Astrea and the Beings of the Violet Fire, many of the pre-historic monsters mentioned in legend and fable would still be a threat to those sailing the seas, both for pleasure and for business purposes.

Natural rebellion arose among the undines from the unnecessary pollution of the water element. As a result, the control of the undines, the natural obedience of the water element in the rise and fall of the tides, etc. took much greater power upon our parts.

Some of the undines have been invoked and used for destructive purposes. These are often attached to the lifestream of such an individual who has so invoked them. In this case the elemental has become the master instead of the servant of such an individual, spurring that lifestream on to continue his practices of cruelty in the use of the water element. Call now that every such undine be purified by the Sacred Fire and cut free from the desire to torment mankind ever again.

Only at times when Cosmic Law ordained the necessity for cataclysmic activity wherein landed surface should be

mercifully sink beneath the seas for purification, did we allow freedom to the water element to spread its curtain of purifying substance over polluted land.

In past cataclysmic action ordained by divine Law, (such as at the time of the sinking of Lemuria, Ed.) some of the priesthood voluntarily offered to absorb into themselves and dissolve by their knowledge and use of the Violet Fire, much of the general fear of the people. However, where there are deliberate acts of human cruelty, these vortices of distress remain to be purified by some of mankind who are willing so to do by their knowledge and use of the Violet Transmuting Flame.

Redeeming Misqualified Energy

Your feeling bodies were provided for you for ONE PURPOSE ALONE. That is, to radiate, magnify, and expand some particular virtue of the Godhead, AND FOR NO OTHER REASON. Your feeling world was given you to enable you to intensify the feelings of God, himself, in this physical appearance world, where you now abide, as well as in the inner realms, where you will abide, when you lay this earthly garment down. Therefore, beloved friends, YOU HAVE NOT THE RIGHT TO ALLOW YOUR FEELINGS THE LICENSE TO ADD TO THE DISCORDANT EFFLUVIA OF MANKIND, which effluvia becomes a temptation to the weaker lifestreams who do not know what stirs their feelings when they are roused suddenly to violent emotions, to mob hysteria, to panic and depression, or other discordant appearance.

Beloved ones, every feeling you entertain draws unto itself, through centripetal force of sympathy, the feelings of a like nature that float in the atmosphere, and these, coupled with the discordant feelings that you generate yourself in secret during your entire waking state, are drawn into the forcefields around the electrons that make up your bodies, resulting in the feelings of heaviness, depression, and discouragement in the emotional body, and your physical body, as well.

Now, the electrons are intelligent, minute beings. They are the substance of which primal life, itself, is composed, and actually make up the body of the Godhead, himself. They also compose the substance which has been sent forth by HIM into the physical appearance world, and it is from them that every manifest expression is formed.

BECAUSE ELEMENTAL LIFE IS OBEDIENT AND ALWAYS MIRRORS THAT WHICH IT SEES, the intelligence within the electron immediately reflects the pattern of your individualized thoughtform (i.e., Maltese cross, rose, star, etc.). These electrons then joined together and began to move around a central core of love, forming the atoms of your physical and inner bodies. The number of electrons making up each atom was determined by the God-intelligence which created your vehicles, for a specific purpose. The speed with which electrons move in their orbits is determined by the FEELING of the evolving being whose instruments these various vehicles were intended to be.

The feeling bodies of mankind are active twenty-four hours of the day. While some are asleep, others are awake,

and the human feelings literally catapulted into the atmosphere (as the beloved Astrea described to you a few evenings ago), form blankets of misqualified energy which are looking for a home and for some life to sustain them through their own life energy.

The dark substance of imperfection or effluvia has been wedged in between the light rays that pour forth from the central core, the atoms. This substance looks like pie-shaped “wedges,” as it has been forced into those spaces through the centuries. These spaces should be filled only with LIGHT SUBSTANCE, so that the tiny electrons might be able to spin freely around their central core. When this dark substance is present, however, it slows down the vibrations of the electrons and atoms which make up your four lower bodies. How is that done, you ask? By the absorption of the discordant effluvia of the outside world through individuals' attention upon and the acceptance of the discordant feelings released by the mass of the people, whether those feelings be fear, depression, impurity, rebellion, hate, whatever they might be!

Into these “wedges” is drawn the dark substance (energy qualified with too low a vibration to emit light). What effect has this on the electrons as they spin around the central core of the atoms? IT SLOWS THEM DOWN!

This substance that I speak of looks something like the sooty deposits inside a chimney that has not been cleaned for a long time. We (the powers of purification) are extracting that heavy substance, almost by hand, you might say because it is wedged in so tightly around the electrons. As it

is removed, you will feel a great sense of relief and release, especially in your emotional bodies (the one with which I am most concerned). However, I must warn you to be careful not to draw this substance back into your various bodies again, through the affinity you have for it in your feelings, having lived with it so long.

As the individual uses the powers of the Sacred Fire, such as the Violet Transmuting Flame, what takes place? The “wedges” of dark, heavy substance around the electrons are loosened and gradually thrown off. The vibratory action of the electron increases and it vibrates more rapidly in its orbit around the central core of each atom. Thus you build into your emotional body a storehouse of CONSTRUCTIVE energy which will act in the future as automatically as the DESTRUCTIVE vibrations have acted in the past.

If you had inner sight you would then see that Violet Fire passing through your physical body and the etheric garment which interpenetrates it, as well as through your mental and emotional bodies. There, it loosens and throws off into itself for purification, the dark substance that is responsible for the slowing down of the vibrations of these bodies. This is the action which took place in the bodies of those who were privileged to sit within the atomic accelerator in Saint Germain's retreat.

The Violet Fire makes each one of your four lower bodies lighter. Why? Because as you consciously invoke that Violet Fire and see it sweep up, in, through and around that dark, heavy substance, it instantly obeys your command, and that effluvia is removed from the forcefield around each

electron and transmuted into pure light again through the action of the Sacred Fire. This removal of the discordant substance allows the electrons in your four lower bodies to spin more rapidly, thus making these bodies more sensitive to the presence of the Holy Christ Self within the heart.

You CAN let go of every discordant feeling and allow your emotional bodies to become saturated instead by the God-feelings from the Ascended Masters. You can subject these overshadowed electrons to a “transfusion” of the spiritual forces of faith, hope, charity, peace, and purity, and thus fill in with light substance the spaces just vacated by the accumulations of discord. This light substance can then be qualified with buoyancy, love, and other constructive qualities, keeping a strict watch over your thoughts and feelings, that you do not draw again the human effluvia with which the outside world is flooded.

You, who with such pride have held to the purity of your physical bodies, might well think of how loosely you have governed your inner vehicles through the ages. Those inner vehicles are as much a part of the temple of the Most High Living God as is the physical garment, and more so, because at so-called death, the substance that composes your physical body goes back to the various elements to which it belongs, while your MENTAL, EMOTIONAL AND ETHERIC BODIES ARE THE GARMENTS THAT YOUR SOUL WEARS WHEN YOU STAND BEFORE THE KARMIC BOARD, and the records written therein will comprise your Book of Life—not the physical body. The physical body is actually the innocent repository for the indulgences of the inner bodies.

Buoyancy, joy, love, happiness, and light are the practical, natural and scientific results of the use of the Sacred Fire, when you invoke it with FAITH. If you do not FEEL these results, it is because you have not consciously accepted the reality of that purifying fire or its ability to restore the natural rhythm of your four lower bodies.

The emotional bodies of the people will find much relief from discomfort as the students continue to call upon the Law of Forgiveness for the misuse of the water element. Bless that element DAILY and accept the offer of its cooperation now. As you continue this practice, the water element in your own physical bodies will also be purified and much of the distress of the physical vehicles (especially that caused by excess water in the system) will be removed. We are ready! We are willing! We are standing by, just awaiting your calls to assist you!

MAN SHOULD NOT FEAR THE SEAS and the great waterways provided by life for his blessing, NOR SHOULD THE WATER ELEMENT AND ITS INHABITANTS FEAR MAN! It is to remove the causes and cores of this fear that we are working during this four-day class.

Will you please pause here and call for the cosmic removal of all mass etheric records of distress caused by the misuse of the water element by all mankind since the “fall of man?”

Then, please call on the Law of Forgiveness for every individual who has consciously or unconsciously used the water element destructively.

In such places as New Bedford (Mass.), once a “whaling

center,” as well as in smaller fishing towns where in the past men made (and today still make) a practice of “following the sea” for a living, the inner atmosphere of those places is filled with destructive etheric records of the fear and sorrow of the sweethearts, wives, mothers and children who have lived in those places and have had the experiences of losing their loved ones to the sea. The removal of all such destructive etheric records and the purification of all such places is absolutely essential to the preparation for the coming here of the newly embodied individuals, to give them purer landed surface and atmosphere in which to live so that they will not have to “tune in” in the future to those records of distress of the past and present.

Now, beloved ones, I would ask you—after you have placed all these discordant thoughts and feelings, with their resultant conditions, in the Violet Transmuting Flame, please do not resuscitate them again through allowing your attention to dwell on their imperfection.

If the attention of even the student body could be PERMANENTLY REMOVED FROM THE CONTEMPLATION OF DISCORD AND DISTRESS, AND THEIR FEELINGS ANCHORED ON PERFECTION, IT WOULD NOT BE LONG BEFORE THE KINGDOM OF GOD WOULD BE MANIFESTED ON THE EARTH. Furthermore, it would only be a question of a short time before the rest of humanity would want to emulate them, through the desire in all men's hearts for happiness and peace.

Accept it, and know with certainty that you, too, are now connected with me, and, likewise, vested with the master-control of this energy, ESPECIALLY IN EMERGENCIES!

All over the planet Earth, focuses of light have been created by individuals who have drawn around them lifestreams interested in the purification of the Earth. They are making fiats and decrees, issuing mighty calls and singing the songs which call for the purification of the water element everywhere.

All over the Earth, like beautiful, blazing fires ascending through the astral realm, the energy rising from groups of students in song and decree, form conduits of light, making a connection between the atmosphere of Earth and the realm where the Ascended Masters abide. Back through those conduits is pouring the cosmic purification from the heart of the Elohim of Purity, as well as the beloved beings and powers who are able to cleanse the emotional bodies of individuals.

Let me say, that in the days ahead, the appearance on the screen of life will be such as will make it necessary that some members of the race BE IN CONTROL OF THEIR FEELING WORLDS in order to HOLD THE BALANCE AND FORM THE CONDUITS THROUGH WHICH OUR ENERGIES MAY FLOW FOR PROTECTION.

Remember and accept my momentum and that of my Twin Flame, Lunara, into your world and practice upon it. Practice now, in the days of peace, so that your momentum and feeling of confidence in the control of the water element may be one with my own!

DELIBERATELY AND CONSCIOUSLY MAKE FRIENDS WITH THE WATER ELEMENT IN YOUR ENVIRONMENT! See how the undines and the electrons within the substance of water will

respond to your love! Jesus was able to master the water element and it obeyed him lovingly, willingly and instantly because HE HAD FIRST MASTERED THE WATER ELEMENT IN HIS OWN WORLD.

I thank you for listening, beloved ones, with as much attention and comprehension as you have. I thank you for remembering that every vehicle (body) you have, is an instrument for your use, and that the electrons which compose them are at the mercy of your conscious self. They may either be free, buoyant, ageless, beautiful, positive and strong—or, they will have to carry the unnecessary weight of the discord imposed upon them by yourself because you refuse to bridle the impulses of the senses, allowing your feeling world to be a PLAYTHING FOR PASSING DESTRUCTIVE FORCES.

Now, beloved ones, those of you who are following my words with understanding should feel a tingling sensation in the extremities of your outer bodies, in your fingers and even in your toes, because while I am speaking to you, we are dislodging tremendous concentrates of that dark, heavy substance from each one of your lower bodies.

Beloved ones, remember as you think of the water element and as you have opportunity to concentrate on the control of storms, excessive rains, tidal waves, and other elemental disturbances, I am as close to you as you will allow.

Remember me as you go about your daily affairs, and accept the purity and freedom which I represent.

God bless you, beloved ones.

CLEANSING YOUR FOUR LOWER BODIES

An Exercise Recommended

By Ascended Master Neptune

Early in your instruction, the beloved Saint Germain gave you a daily exercise which would be of tremendous assistance to you, if you were to use it. It is as follows:

Before retiring at night, stand in your room and give the following decree:

“Mighty I AM Presence and Ascended Masters Saint Germain and Neptune, blaze the Transmuting Violet Flame into action, through and around me, in a circle nine feet in diameter.”

Raising your hands to your I AM Presence, say: “Mighty I AM Presence and Ascended Masters Saint Germain and Neptune, qualify those hands with the purifying power of the Violet Flame.” (3 times)

Then, starting at the head, pass your hands down over your body to the feet, taking in as much of the body surface as you can reach with the hands. Now, with the left hand, sweep down over the right shoulder, arm and hand. Now, with the right hand, give the left shoulder, arm and hand the same treatment. Then shake your hands from the wrist as if you were throwing some unclean substance into the surrounding violet fire. Do this 7 times.

What is the purpose of this exercise, and what happens when it is performed? Saint Germain has said that if you could see with the inner sight what takes place in the first part of the exercise, it is as though a close-fitting garment of

black substance were being removed from the body with the hands. The second time you go over the body the “garment” removed is of a dark grey substance, the third time, it is of a lighter grey color, and so on. Night after night, as you proceed with the exercise, this astral substance, WHICH HAS COLOR, VIBRATION AND FEELING, gets lighter and lighter in color and texture. Finally, it is entirely removed from the body and actual purification takes place.

THE FIRE ELEMENT

Inhabitants: Salamanders

**Directors: Sun-God Helios, Astrea, Oromasis, Diana
(Prince and Princess of the Fire Element)**

**By the Cosmic Being Astrea (Twin Flame of the
Elohim of Purity)**

The Sacred Fire renders two services—one manifesting as constructive form in any sphere, including the physical appearance world, the other manifesting as the power of etherealization of form, at the completion of its usefulness.

The salamanders are of tremendous help to the directors of the fire kingdom. Some of these salamanders are as large as the Empire State Building, while some are as small as the head of an ordinary pin. They serve constantly under the direction of their leaders to dissolve the impurities released through the destructive use of the creative centers (thoughts and feelings) of mankind and are a tremendous boon to the elementals of earth, air and water.

I would particularly like you to acknowledge and bless these salamanders for their service through the ages, not only in this physical appearance world, but also in the inner spheres where disembodied lifestreams dwell between embodiments. Fire in a destructive way has caused the loss of homes, lives and property. Therefore, mankind have a fear (often buried in the etheric garment) of the action of fire. We are endeavoring to remove the fear from the etheric consciousness of the peoples and replace that fear with a love of the purifying radiation and activities that are within

the Sacred Fire. The removal of the cause, effect, record and memory of such fear shall take place and the Sacred Fire will be welcomed by all evolutions on Earth, and in its atmosphere as a liberating, freeing, purifying power. I so decree it!

Will you please stop right here and call for the removal of the cause and core of all fear of the fire element and then call sincerely and deeply for forgiveness for any misuse of the fire element by yourself and that of all mankind back into the beginning of time. As this is done, we shall be actively sublimating those errors of the past and present, and preventing the cause of errors of the future by all mankind.

I chose to cooperate with beloved Claire, the Elohim of Purity, by creating, sustaining, expanding and using the Circle and Sword of Blue Flame in, through and around every inharmonious and discordant expression of life. I cannot express all my gratitude to you for calling to me and allowing me such freedom to act in the emotional, mental, etheric and physical bodies of mankind. Thus the "wedges" of impurity that have lodged themselves around the electrons are being removed and the purifying grace of my beloved Claire is taking the place vacated by the discord.

THE EARTH ELEMENT

Directors: Pelleur and Virgo

Inhabitants: Gnomes

Beloved Virgo Speaks:

I am VIRGO, Director of the Earth Element, called affectionately by many “Mother Earth!” My beloved Pelleur and I answered the summons of Helios and Vesta for volunteers to help the Seven Elohim in their task of creating a habitable planet for mankind.

The beloved Pelleur offered his fully-gathered momentum of centripetal force to create the “law of gravity” which varied through the ages according to the weight and vibratory action of the people and the substance of earth, to create the magnetic pull which holds continents as well as islands in their perfect place. I offered to mold universal, intelligent life-substance into the design created by Helios and Vesta which rested in the bosom of the (Planetary) Silent Watcher.

I worked in close harmony with the first Maha Chohan, the beings of each of the four seasons as well as the great beings who ensouled the mountains and hills, the fertile valleys, the trees, shrubs and flowers and the little gnomes whose activity would be within the very body of the Earth itself. When the first members of the human race embodied, the Earth was garlanded in her most fragrant flowers. Amayllis, Spirit of Spring, had prepared this planet for over nine hundred years to develop the greatest beauty for the incoming holy innocents and their guardians.

The earth substance was crystalline, pure, iridescent and

the glowing radiation from the very center of the Earth where Pelleur had focused his magnetic Ray.

After the laggards came from other stars, mankind's vibratory action began to lower. The physical body became heavier and the excrement's from the physical bodies began the creation of what is so aptly termed "soil." Man accepted the riches of its mountain ranges and the harvest of the selfless workers in the nature kingdom, giving back nothing but refuse and excrement in exchange for this freely given heritage of harvest. Then, as in all the other kingdoms, there began to build resentment and rebellion against the thoughtless, careless and selfish members of the human race.

The gnomes, like all beings of nature, are imitative in extreme. THEY MADE A VOW TO BE OBEDIENT TO MAN AND THEY MIRROR THAT WHICH THEY SEE! Many of the lovely delicate ethereal gnomes became distorted in shape, mischievous in nature and enjoyed playing tricks upon their human tormentors. Worse still, some of the greater mountain spirits, catching up the spirit of rebellion, spewed forth fire, smoke, molten lava and caused great havoc, death and destruction to the human race. ALL VOLCANIC ACTION, past and present is DUE TO SUCH ANTIPATHY BETWEEN THE SPIRITS OF EARTH AND THE PEOPLES whom they had come in such love to serve.

Remember, beloved ones, this planet has suffered much from mankind. The decaying bodies of her dead have been placed within the earth and the gnomes have had the unpleasant task of completing the dissolution of polluted vehicles which had reached such a state of imperfection that the

Holy Christ Self and the body elemental could no longer use it for any constructive purpose. Thank God, in the Western Hemisphere cremation is again coming to be recognized as an acceptable means of disposing the outworn earthly shell.

Let us call now on the Law of Forgiveness for all the misuse of the Earth's gifts and the tortures (conscious and unconscious) inflicted upon the gnomes and spirits of nature by mankind. Let us also call on the Law of Forgiveness for all the havoc and disaster as well as mischief caused by the gnomes and spirits of nature towards mankind.

Let us ask that beloved Astrea lock her Circle and Sword of Blue Flame in, through and around the cause and core of disharmonies and fears and replace them by loving trust and cooperation between mankind and the earth elementals. Let us ask that the desire and capacity to use the earth and the riches of her mountain deposits for destructive purpose be dissolved and removed from all mankind!

Your physical bodies are destined to outpicture the glory of your own individualized I AM Presence! I am here to help you to regain that perfection. Will you please send your love to Ascended Master Pelleur for his service through the ages?

Your inner bodies consist of the etheric body, the mental body and the emotional body. All of these bodies have the shape of ovoids and they surround and interpenetrate your physical body. They also interpenetrate each other. The physical body is located in the center. Next to the physical body is the etheric body. Then follow the mental and emotional bodies. Therefore, the emotional body is the largest of the four lower bodies.

As the Light descends from the Electronic Presence through the silver cord, it passes first through the emotional, body. The Light then passes, in succession, through the mental, etheric and physical body. It anchors itself within the heart of the physical body.

Governed by the flame within your heart, you must become the dignified, balanced, poised MASTER of your four lower bodies. Your Holy Christ Self neither slumbers nor sleeps! Speak to it and ask that Holy Christ Self to regulate for you and put in their perfect place as instruments of the "I AM," your four lower vehicles and no longer be servant but MASTER in your household!

CONTROL OF THE ELEMENTS

Protection From Natural Catastrophes (Fires, Earthquakes, Hurricanes, Tornadoes , Floods)

The decrees presented here are designed to restore a friendly and harmonious relationship between mankind and the elemental beings inhabiting the four elements of nature (air, water earth and fire).

The student is given a most valuable tool to prevent, or at least mitigate and lessen, the effect of predicted earthquakes, volcanic eruptions, hurricanes and tornadoes.

These decrees were used successfully by the Philadelphia Group of the "Bridge to Freedom" in preventing the eruption of a volcano (see "The Law of Precipitation," page 226). Some individuals mitigated these catastrophes by giving decrees and projecting themselves, in consciousness, to the vicinity of the area where a catastrophe was forecast, traveling in their forcefield. According to the Maha Chohan, through their calls and directing the energies in their forcefields, some of the groups were able to dissolve ice floes, stopping storms and rendering service in preventing and removing flood conditions.

By giving these invocations, voluntarily directed to the higher realms, the Ascended Masters may utilize such energies and increase them to transmute the causes set up by the discordant use of energy by mankind.

DECREE FOR THE AIR ELEMENT

Beloved Mighty I AM Presence, anchored in my heart, and beloved Ascended Masters Lord Maha Chohan, Aries, Thor, Astrea, Pelleur, Virgo, Saint Germain and the Elohim of Purity:

I thank and bless all elemental beings of the air element for their past and present services.

I call on the Law of Forgiveness for me and all mankind for all discord and disharmonious energy inflicted upon the air elementals by mankind for many ages.

Beloved Astrea, lock your Circle and Sword of Blue Flame in, through and around this discord and its cause, core, record, effect and memory. Replace it with a loving trust between mankind and air elementals and the substance of purity provided by the Elohim of Purity.

Dissolve forever the desire and capacity of mankind to use the air for destructive purposes.

Blaze! Blaze! Blaze the most dynamic action of the Violet Transmuting Flame in the form of a large Maltese Cross from the heart of this planet up, in, through and around the Earth, all the way through its atmosphere for at least 10,000 feet, purifying, illumining and healing all life on this planet and transmuting all energies into God-Perfection.

See to it that no individual ever lacks the God-given capacity to breathe freely. We thank you.

Free every sylph from all destructive influences of mankind, and from the remembrance of such association and activities.

Free all elemental life from the feeling of antipathy towards mankind, leading all elemental life to the state of perfection that God intended for it. See to it that never again will the air elementals participate in tornadoes, hurricanes or any other destructive activity.

Let mankind and the elemental kingdom cooperate as a team to bring in the New Golden Age envisioned by the beloved Saint Germain.

What I ask for me I ask for all of mankind and I fully accept the fulfillment of this decree!

Beloved I AM,
I now command!
Do it today,
Do it to stay!

DECREE FOR THE EARTH ELEMENT

Beloved Mighty I AM Presence, anchored in my heart, and beloved Ascended Masters Lord Maha Chohan, Astrea, Pelleur, Virgo, Saint Germain and the Elohim of Purity:

I thank and bless all elemental beings of the earth element for their past and present services.

I call on the Law of Forgiveness for me and all mankind for all discord and disharmonious energy inflicted upon the earth elementals by mankind for many ages.

Beloved Astrea, lock your Circle and Sword of Blue Flame in, through and around this discord and its cause, core, record, effect and memory. Replace it with a loving trust between mankind and earth elementals and the substance of purity provided by the Elohim of Purity.

Dissolve forever the desire and capacity of mankind to use the Earth including the riches of her mountain deposits, for destructive purposes.

Blaze, blaze, blaze the most dynamic action of the Violet Transmuting Flame in the form of a large Maltese Cross from the heart of this planet up, in, through and around the Earth, all the way through its atmosphere for at least 10,000 feet, purifying, illumining and healing all life on this planet and transmuting all energies into God-Perfection.

In your cosmic authority, control all the energy in the gas belts within the earth and transmute, transmute, transmute it all. Replace it with golden Light substance, becoming pure, metallic gold which radiates through and purifies all substance not of the Light. Transmute all discord placed by mankind upon earth elementals and release them back into divine service.

(Stand silently for a few moments with arms at your sides, visualize and feel the golden light substance radiating down from the Realms of Light through you into the gas belts).

As the Earth is destined to move closer to the Sun, make all necessary changes in the readjustment of the planet as peaceful and harmonious as possible.

Free every nature spirit and the gnomes, from all destructive influences of mankind, and from the remembrance of such association and activities.

Free all elemental life from the feeling of antipathy towards mankind, leading all elemental life to the state of perfection that God intended for it. See to it that never again will the earth elementals participate in earthquakes or any other destructive activity.

Let mankind and the elemental kingdom cooperate as a team, bringing in the New Golden Age envisioned by the beloved Saint Germain.

What I ask for me I ask for all of mankind and I fully accept the fulfillment of this decree!

Beloved I AM,
I now command!
Do it today,
Do it to stay!

DECREE FOR THE WATER ELEMENT

Beloved Mighty I AM Presence, anchored in my heart, and beloved Ascended Masters Lord Maha Chohan, Astrea, Neptune, Lunara, Saint Germain and the Elohim of Purity:

I thank and bless all elemental beings of the water element for their past and present services.

I call on the Law of Forgiveness for me and all mankind for all discord and disharmonious energy inflicted upon the water elementals by mankind for many ages.

Beloved Astrea, lock your Circle and Sword of Blue Flame in, through and around this discord and its cause, core, record, effect and memory. Replace it with a loving trust between mankind and water elementals and the substance of purity provided by the Elohim of Purity.

Dissolve forever the desire and capacity of mankind to use the water element for destructive purposes.

Blaze! Blaze! Blaze the most dynamic action of the Violet Transmuting Flame in the form of a large Maltese Cross from the heart of this planet up, in, through and around the Earth, all the way through its atmosphere for at least 10,000 feet, purifying, illumining and healing all life on this planet and transmuting all energies into God-Perfection.

Free every undine from all destructive influences of mankind, and from the remembrance of such association and activities.

Free all elemental life from the feeling of antipathy towards mankind, leading all elemental life to the state of perfection that God intended for it. See to it that never again will the

undines participate in catastrophic floods or any other destructive activity.

Let mankind and the elemental kingdom cooperate as a team to bring in the New Golden Age envisioned by the beloved Saint Germain.

What I ask for me I ask for all of mankind and I fully accept the fulfillment of this decree!

Beloved I AM,
I now command!
Do it today,
Do it to stay!

DECREE FOR THE FIRE ELEMENT

Beloved Mighty I AM Presence, anchored in my heart, and beloved Ascended Masters Lord Maha Chohan, Helios, Astrea, Diana (Princess of the Fire Element), Oromasis (Prince of the Fire Element, Saint Germain, Nada and the Elohim of Purity:

I thank and bless all elemental beings of the fire element for their past and present services.

I call on the Law of Forgiveness for me and all mankind for all discord and disharmonious energy inflicted upon the fire elementals by mankind for many ages.

Beloved Astrea! In the name of my own beloved I AM Presence, I hereby extend to you the authority and freedom to act within my own four lower bodies and those of all mankind.

Beloved Astrea, lock your Circle and Sword of Blue Flame in, through and around this discord and its cause, core, record, effect and memory. Remove all fear of fire, and transmute it into the illumination and understanding and use of the Sacred Fire. Replace it with a loving trust between mankind and the salamanders and the substance of purity provided by the Elohim of Purity.

Dissolve forever the desire and capacity of mankind to use the fire element for destructive purposes.

Blaze! Blaze! Blaze the most dynamic action of the Violet Transmuting Flame in the form of a large Maltese Cross from the heart of this planet up, in, through and around the Earth, all the way through its atmosphere for at least 10,000 feet,

purifying, illumining and healing all life on this planet and transmuting all energies into God-Perfection.

Free every salamander from all destructive influences of mankind, and from the remembrance of such association and activities.

Free all elemental life from the feeling of antipathy towards mankind, leading all elemental life to the state of perfection that God intended for it. See to it that never again will the salamanders participate in any destructive activity.

Let mankind and the elemental kingdom cooperate as a team to bring in the New Golden Age envisioned by the beloved Saint Germain.

What I ask for me I ask for all of mankind and I fully accept the fulfillment of this decree!

Beloved I AM,
I now command!
Do it today,
Do it to stay!

In case of an actual fire, one can call on his own I AM Presence and beloved Ascended Master Nada and Oromasis, Prince of the Fire Element to pour their radiance over the fire. Visualize this radiance as a pink blanket.

AMTF PUBLICATIONS

Archangel Uriel, referring to the teachings of the Bridge to Freedom, said on May 16, 1954, "Genesis and all of the succeeding Biblical Law is being written again. It is a Bible made up of the energies of the Archangels and the Ascended Masters, that will stand for the rest of the civilizations being brought forth on this planet Earth."

ASCENDED MASTERS AND THEIR RETREATS, 448 pp. Compiled from the teachings of the "Bridge to Freedom" by W. Schroeder. Presented in the first part are biographies of 107 Ascended Masters. Details include the tests, trials and initiations they had to undergo during their last embodiment to gain the ascension. The knowledge gained from the personal experiences of these Masters will help the students in successfully passing similar tests and initiations and in gaining their freedom as well. The second part of the books contains many details of 31 Ascended Master Retreats, including those that were active during the historic Transmission Flame Services which greatly helped our planet during critical times.

THE LAW OF PRECIPITATION, 256 pp. Compiled by W. Schroeder. How to successfully meet your daily needs. Using a step-by-step method, this book describes, in detail, the necessary building blocks in manifesting your wishes. In addition to describing the theory of precipitation, dozens of examples are given, showing how individuals have used this information to their own advantage. Included are 30 episodes, illustrating how William J. Cassiere, a messenger appointed by Saint Germain, used the laws of precipitation in healing others.

MAN, HIS ORIGIN, HISTORY AND DESTINY by W. Schroeder, 368 pp. Using a variety of sources, this title pre-

sents mankind's unrecorded history. Much of this material has not been researched before, and it has not been available to the general public. Written in chronological order, the reader learns of the conditions prevailing during the advent of man on Earth, including his origin, his age, the place where mankind first embodied and the coming of the laggards from other planets, causing the "Fall of Man" on Earth. Fascinating highlights of the Lemurian and Atlantean civilizations are given. Also depicted are accounts of the unchronicled history of Jesus and the oracles of Delphi. Archangel Michael's report of July 17, 1959 on the division of all of mankind. The new criteria is given that will be used in dividing mankind into two separate groups, one of which will find embodiment on a newly-created planet. The significance of this new process for the students of this teaching.

UNVEILED MYSTERIES, by Godfre Ray King, 288 pp.

This book contains Mr. Ballard's first experiences, following his meeting with the Ascended Master Saint Germain on Mount Shasta. We are happy to present to the students a full, unabridged copy of this priceless book, which heralded in the New Age. The new edition contains biographies of the Ascended Masters Saint Germain, Guy Ballard, and David Lloyd. A Chinese translation is also available.

THE SEVEN MIGHTY ELOHIM SPEAK ON THE SEVEN STEPS TO PRECIPITATION by Thomas Printz, 304 pp.

This book contains the unique and historic account of the principles employed in the creation of our planet, by the Builders of the Universe, known as the Seven Elohim. The Elohim explain how these principles may be applied by today's students in their daily affairs. Explains the chakric centers and how to purify them. Why group activities form a field of energy that can be used by the Ascended Host.

THE INITIATIONS OF THE FIRST RAY, 304 pp.

Description of the initiations necessary to gain the ascension, with emphasis on mastering the initiation of the God-virtues of the First Ray. The history of the “Bridge to Freedom” Organization from the very beginning all the way to its dissolution, including how the dispensation for the “Bridge to Freedom” was obtained, and the purpose of this endeavor.

The history of the AMTF, including how the teaching of the “Bridge to Freedom” was saved from falling into oblivion. We added the article “The Teaching of the ‘Bridge to Freedom’ and Other Groups.” Here we are emphasizing that none of the persons, considered today as channels, supported the effort of saving the teaching, or republishing and distributing it.

El Morya’s trip to the birthplace of Jesus, as one of the Three Wisemen. In the chapter, “The Spiritual Caravan,” El Morya extends an invitation to students to join him in a global effort, bringing in the New Golden Age. Why the “Bridge to Freedom” was established and the tasks of the Bridge Builders of today.

THE INITIATIONS OF THE SEVENTH RAY, 304 pp.

Description of the initiations necessary to gain the ascension, with emphasis on mastering the initiation of the God-virtues of the Seventh Ray. The Law of Karma including the Karma of Omission. The Law of Forgiveness.

How to establish and conduct Ascended Master Teaching Groups. Featured are primal requirements for an efficacious service, and the responsibilities of each group member, including its leader. The book is an indispensable aid for those involved in group activities.

Beneficial Radiations (weekly cycle, 2000 year cycle, radiation of the Elohim and other Ascended Beings, the retreats

of the Ascended Masters, and the 12 temples around the Sun, also called “the Zodiac”). How to take advantage of these radiations.

MEMORIES OF BELOVED JESUS AND MOTHER MARY, 416 pp. These dictations by Jesus and Mother Mary, presented in chronological order, give the reader a complete account of their last embodiment. Many of the events are not given in the Bible, such as early life experiences of Jesus and Mary, Jesus trip to India and details of his ascension. Jesus explains the true purpose of his mission. The reader learns of Mary's journey to Europe, including her travels to Fatima, Lourdes and Glastonbury. Mother Mary explains the Law of Healing and the establishment of healing centers.

THE ANGELIC KINGDOM, 448 pp. This new title contains ALL of the dictations by Ascended Beings on the subject of angels, including text from the booklet “Archangel Michael and his Helpers.” These dictations allow the reader to get a comprehensive view of the activities of our unselfish, loving, helpers from the Angelic Kingdom. Each of the Archangels radiates one of the virtues of the Godhead, such as protection, illumination, and peace. This book contains personal addresses to the students from members of the Angelic Kingdom, showing them how to use these virtues for achieving their own freedom.

MANIFESTING VICTORIOUS ACCOMPLISHMENT, 304 pp. (formerly “**I AM Discourses**,” by the Cosmic Being Mighty Victory).

It was Mighty Victory who was able to set the Occult Law aside. This tall Master from Venus embodies the God-Virtue of Victorious Accomplishment. He has offered to assist students to manifest this God-Quality in their daily affairs.

We added dictations by the Cosmic Being Mighty Victory, given through Geraldine Innocente. These dictations complement the discourses previously given through Mr. Ballard, demonstrating that all of these published dictations came from the Great White Brotherhood, as presented through their accredited messengers.

21 ESSENTIAL LESSONS by W. Schroeder, in 2 Volumes. These graded instructions contain a summary of the teaching and all information necessary, if applied, to make the ascension in this embodiment. They are written in an easy-to-understand manner. A must for both group leaders and dedicated students, who study alone.

Volume 1, 336 pp. It contains the basic concepts of the teaching, such as the I AM Presence, the Violet Flame, the Protective Pillar of Light, the Law of Karma and why and how we should decree. It also describes the functions of the elemental and angelic kingdoms.

Descriptions of the God-virtues of the Seven Rays and how to attune to Ascended Masters, Elohim and Archangels.

Volume 2 (320 pp.) is intended for those students who wish to become chelas of the Ascended Masters. It describes the functions of the Hierarchy (Governing Board) of the Earth, how their messengers to mankind are selected and group activity. It is also explained how a chela may achieve the ascension, by successfully completing the various initiations and by performing the required service to God and to mankind.

ELECTRONS, THE BUILDING BLOCKS OF THE UNIVERSE, AND THE ELEMENTAL KINGDOM, 320 pp. 101 dictations explaining the origin and function of electrons as well as their relationship to individual life. Explains energy

and vibration. Dictations by the Directors of the Kingdom of Nature (earth, air, water, fire). The chapter on elementals explains the different types of elementals and their function in the kingdom of nature. These details lead to a better understanding of elementals such as sylphs, undines, gnomes and salamanders. Causes of catastrophes and how to mitigate them.

SONGS AND DECREES, 80 pp. For personal application and group work.

DAILY MEDITATIONS, 48 pp. These meditations make use of the prevailing radiation of each day of the week. This knowledge and application accelerates the spiritual progress of the student and blesses the location as well.

TEACHINGS FOR THE NEW GOLDEN AGE, 256 pp. Compiled by W. Schroeder. Presented in this publication is a series of addresses by the Ascended Master Kuthumi, present World Teacher. Students will welcome the opportunity of becoming acquainted with messages that are vital in bringing in a new Golden Age. The study and application of this material will enable students to become teachers, themselves, thus assisting the Ascended Host in implementing their plans.

MOTHER MARY'S ASSISTANCE TODAY, W. Schroeder, 256 pp. Mother Mary describes, in great detail, the cycle of life, death and re-embodiment, including the experiences after so-called death. This information has never been published, by anyone. Experiences after death include: meeting family members, judgment before the Karmic Board, assignment by the Karmic Board to Temples of Learning (in preparation for re-embodiment), Mother Mary's assistance and her service at the Temple of the Sacred Heart, the se-

lection process for embodiment, creation of the pattern for a future physical body, preparation and schooling for new embodiment and how parents are selected. Learn about the "Fountain of Youth," how individuals can have a longer life-span and steps everyone can take to have perfectly-born and healthy children. Explains how to maintain perfect health.

BRIDGE TO FREEDOM JOURNAL. These original dictations of the Ascended Masters were published in the monthly magazine of the "Bridge to Freedom" Activity. **These messages are the very core of the teaching** and cannot be found in any other book. They are a practical guide, leading to spiritual development and a better understanding of the activities of the Ascended Ones.

Book 1: 4/1952–3/54; Book 2: 4/1954–3/1956; Book 3: 4/1956–11/1957; Book 4: 12/57–7/59; Book 5: 8/59–6/1961. All in soft cover. Books vary from 368 to 500 pp.

DICTATIONS, 99 Dictations by the Ascended Host. 448 pp. The dictations give actual reports of the meetings of the Karmic Board, how to develop discrimination, Kuthumi's Mystic Mantle and the Masters' efforts in the 19th century through Helen Blavatsky.

BRIDGE TO FREEDOM BULLETINS, Original dictations of the Masters of Wisdom, published on a weekly basis, approx. 560 pp. each.

Book 1: 4/1952 - 3/1957; Book 2: 4/1957 - 6/1961.
